This prospectus (including all amendments, supplements, and addenda thereto, the "**Prospectus**") relates to the offer of Cebu Landmasters, Inc. ("**CLI**", the "**Issuer**", or the "**Company**") for the sale to the public of up to 3,000,000 perpetual, cumulative, non-voting, non-participating, non-convertible, and redeemable Philippine Peso-denominated Series "A" Preferred Shares (the "**Firm Shares**") worth an aggregate issue amount of up to ₱3.00 billion (the "**Base Offer**") with an oversubscription option of up to 2,000,000 Series "A" Preferred Shares (the "**Oversubscription Option Shares**") worth an aggregate issue amount of up to ₱2.00 billion (the "**Oversubscription Option**"), with a par value of ₱1.00 per preferred share (the "**Offer**", and the preferred shares subject of the Offer, collectively, the "**Offer Shares**" or, for purposes of this Offer only and unless the context otherwise provides, the "**Series A Preferred Shares**"). The Offer Shares shall be offered at an offer price of ₱1,000.00 per Offer Share (the "**Offer Price**").

The Offer Shares will be issued from the unissued Series "A" Preferred Shares forming part of the authorized capital stock of the Issuer and will be offered in up to two subseries, namely, Series A-1 Preferred Shares (the "**Series A-1 Preferred Shares**") and Series A-2 Preferred Shares (the "**Series A-2 Preferred Shares**").

Pursuant to the Issuer's Articles of Incorporation, as amended to date, the Issuer has an authorized capital stock of ₱10.10 billion Philippine currency, divided into: (a) 9.0 billion common shares with a par value of ₱1.00 per share; (b) 1.0 billion Series "A" Preferred Shares with a par value of ₱1.00 per share; and (c) 1.0 billion Series "B" Preferred Shares with a par value of ₱0.10 per share. As of the date of this Prospectus, the Issuer's issued and outstanding capital stock is as follows: (i) 3,465,201,467 outstanding common shares with par value of ₱1.00 per share or an aggregate par value of ₱3,465,201,467.00, and (ii) 158,250,530 common shares in treasury with par value of ₱1.00 per share or an aggregate par value of ₱158,250,530.00. After the Offer, the Issuer's issued and outstanding capital stock will be as follows: (A) 3,465,201,467 outstanding common shares with par value of ₱1.00 per share or an aggregate par value of ₱3,465,201,467.00; (B) 158,250,530 common shares in treasury with par value of ₱1.00 per share or an aggregate par value of ₱158,250,530.00; and (C) if the Oversubscription Option (as defined below) is not exercised, [up to] 3,000,000 Series "A" Preferred Shares with par value of ₱1.00 per share or an aggregate par value of [up to] ₱3,000,000.00; or, if the Oversubscription Option is fully exercised, [up to] 5,000,000 Series "A" Preferred Shares with par value of ₱1.00 per share or an aggregate par value of [up to] ₱5,000,000.00. In the event that the Oversubscription Option is not exercised or only partially exercised, the shares relating to such unexercised option will remain unissued.

The Offer Shares will, subject to the dividend payment conditions (see below), bear cumulative and non-participating cash dividends based on the Offer Price, payable quarterly in arrears on each Dividend Payment Date (as defined below). As and if declared by the Issuer in accordance with the terms and conditions of the Offer Shares, dividends will be payable on [April 12], [July 12], [October 12] and [January 12] of each year (each a "**Dividend Payment Date**"), being the last day of each three-month dividend period (a "**Dividend Period**"). If the Dividend Payment Date is not a Business Day (as defined in this Prospectus), dividends will be paid on the next succeeding Business Day, without adjustment as to the amount of dividends to be paid; provided that if the Issue Date (as defined below) is set at a date other than the specific date indicated in the Prospectus as the Issue Date, then the Dividend Payment Dates will be automatically adjusted to the numerically corresponding dates at every three months following the actual Issue Date. Dividends will be calculated on a 30/360-day basis.

The initial dividend rate (the "**Initial Dividend Rate**") of the Offer Shares shall be as follows: (a) in respect of the Series A-1 Preferred Shares, at the fixed rate of [●]% *per annum* of the Offer Price, and (b) for the Series A-2 Preferred Shares, at the fixed rate of [●]% *per annum* of the Offer Price.

Unless the Offer Shares are redeemed by the Issuer on these dates pursuant to the applicable optional redemption provisions, the Initial Dividend Rate shall be adjusted: (A) in respect of the Series A-1 Preferred Shares, on the 4th anniversary of the Listing Date (the “**Series A-1 Step-Up Date**”), and (B) in respect of the Series A-2 Preferred Shares, on the 7th anniversary of the Listing Date (the “**Series A-2 Step-Up Date**”). The adjustment shall respectively be as follows: (a) for the Series A-1 Preferred Shares, the higher of the (i) Series A-1 Initial Dividend Rate; or (ii) the Series A-1 Step-Up Benchmark Rate plus 300 basis points; and (b) for the Series A-2 Preferred Shares, the higher of the (i) Series A-2 Initial Dividend Rate; or (ii) the Series A-2 Step-Up Benchmark Rate plus 300 basis points. The terms “*Series A-1 Step-Up Benchmark Rate*” and “*Series A-2 Step-Up Benchmark Rate*” are defined under the “*Terms of the Offer*” section of this Prospectus.

The Issuer and its Subsidiaries (as such term is defined under the “*Glossary of Terms*” section of this Prospectus) are allowed under Philippine laws to declare dividends, subject to certain requirements. These requirements include, for example, that the Board of Directors is authorized to declare dividends only from its unrestricted retained earnings. Dividends may be payable in cash, shares, or property, or a combination of the three, as the Board of Directors of the Issuer or the relevant Subsidiary shall determine. A cash dividend declaration does not require any further approval from stockholders. On the other hand, the declaration of stock dividends is subject to the approval of shareholders holding at least 2/3 of the outstanding capital stock of the Issuer. Moreover, the Board of Directors may not declare dividends which will impair the corporation’s capital. In addition, the Issuer and its Subsidiaries may declare dividends as determined by their respective Board of Directors, taking into consideration factors such as the implementation of business plans, debt service requirements, financial covenants, operating expenses, budgets, funding for new investments and acquisitions and appropriate reserves and working capital.

The Issuer has the option, but not the obligation, to redeem in whole (but not in part) any subseries of the outstanding Offer Shares (having given not less than 30 days’ prior notice by publication in two national newspapers): (a) in respect of the Series A-1 Preferred Shares, on the payment date of the 16th Dividend Period, which indicatively will be on the 4th anniversary of the Issue Date, or on any Dividend Payment Date thereafter, and (b) in respect of the Series A-2 Preferred Shares, on the payment date of the 28th Dividend Period, which indicatively will be on the 7th anniversary of the Issue Date, or on any Dividend Payment Date thereafter. Moreover, if a Tax Event or Accounting Event occurs, the Issuer may redeem in whole, but not in part, any subseries of the outstanding Offer Shares at any time (having given not more than 60 nor less than 30 days’ prior notice) at the Redemption Payment; provided that if the Tax Event or Accounting Event is specific to a particular subseries, then the foregoing optional redemption may be exercised only with respect to such subseries. The terms “*Tax Event*”, “*Accounting Event*” and “*Redemption Payment*” are defined under the “*Terms of the Offer*” section of this Prospectus.

The Issuer is not legally required, has not established, and currently does not intend to establish a sinking fund for the redemption of the Offer Shares.

Please refer to the “*Terms of the Offer*” section and “*Description of the Offer Shares*” for the other features and incidents of the Offer Shares.

The Issuer estimates that, assuming full exercise of the Oversubscription Option, the net proceeds from the Offer shall amount to approximately ₱[4,963,269,375.00], after deducting fees, commissions, and expenses. The net proceeds of the Offer shall be used to: (i) to partially finance project development or capital expenditures of the Issuer’s various projects; and (ii) for general corporate purposes. For a more detailed discussion on the use of proceeds, please see “*Use of Proceeds*” section of this Prospectus.

The underwriting fees and any selling fees to be paid by the Issuer in relation to the Offer to the Joint Lead Underwriters shall be equivalent to [45] basis points of the gross proceeds of the Offer. This shall be inclusive of fees to be paid to the [selling agents] and exclusive of any commissions to be paid to the Trading Participants (the “**PSE Trading Participants**”) of The Philippine Stock Exchange, Inc. (“**PSE**”) (the PSE Trading Participants, together with any other institutions as may be appointed in such capacity, the “**Selling Agents**”), which commissions shall be equivalent to [12.5] basis points (inclusive of Value Added Tax) of the final allocated amount of Offer Shares to each participating Trading Participant, less the applicable withholding tax. For a more detailed discussion on the fees to be received by the Joint Lead Underwriters and the Selling Agents, see “*Plan of Distribution*” section of this Prospectus.

Any of the Joint Lead Underwriters or the Selling Agents may acquire for its own account a portion of the Offer Shares.

The SEC is expected to issue an order rendering the Registration Statement effective and a corresponding permit to offer securities for sale covering the Offer. An application was likewise filed by the Issuer with the PSE on January 26, 2024 for the listing of the Offer Shares on the Main Board of the PSE. An approval for listing is permissive only and does not constitute a recommendation or endorsement by the PSE or the SEC of the Offer Shares. The PSE assumes no responsibility for the correctness of any of the statements made or opinions expressed in this Prospectus. Furthermore, the PSE makes no representation as to the completeness and expressly disclaims any liability whatsoever for any loss arising from or in reliance upon the whole or any part of the contents of this Prospectus.

Upon listing, the Series A-1 Preferred Shares will be traded under the symbol [“CLIA1”], while the Series A-2 Preferred Shares will be traded under the symbol [“CLIA2”].

It is expected that the Offer Shares will be delivered in book-entry form against payment thereof to the Philippine Depository & Trust Corp. (“**PDTC**”).

The Issuer reserves the right to withdraw the offer and sale of the Offer Shares at any time before the commencement of the Offer Period, in which event the Issuer shall make the necessary disclosures to the SEC and PSE. The Joint Lead Underwriters, acting upon the vote of the Majority Underwriters, and upon consultation with all the Joint Lead Underwriters, may also cancel or terminate their underwriting commitments at any time prior to the commencement of the Offer Period, by giving written notice to the Issuer, the SEC, and the PSE, if prior to the commencement of the Offer Period, any of the events set out in the Underwriting Agreement between the Issuer and the Joint Lead Underwriters occurs.

The Issuer may also withdraw the offer and sale of the Offer Shares at any time on or after the commencement of the Offer Period and prior to the Listing Date, if there is a supervening force majeure or fortuitous event as indicated in this Prospectus. Pursuant to the Underwriting Agreement between the Issuer and the Joint Lead Underwriters, the Joint Lead Underwriters, acting upon the vote of the Majority Underwriters, and upon consultation with all the Joint Lead Underwriters, may also cancel or terminate its underwriting commitment thereunder by giving written notice to the Issuer, the SEC, and the PSE if the Offer Period has already commenced and, prior to the Listing Date of the Offer Shares, if there is a supervening force majeure or fortuitous event as indicated therein.

The Issuer, in consultation with the Joint Lead Underwriters, reserves the right to reject any application to purchase the Offer Shares in whole or in part and to allot to any prospective purchaser less than the full amount of the Offer Shares sought by such purchaser on any of the grounds set out in the Underwriting Agreement between the Issuer and the Joint Lead Underwriters.

The Issuer owns land as identified in the “*Description of Property*” section of this Prospectus. In connection with the ownership of private land, the Philippine Constitution states that no private land

shall be transferred or conveyed except to citizens of the Philippines or to corporations or associations organized under the laws of the Philippines at least 60% of whose capital is owned by such citizens. Accordingly, ownership of shares by foreign nationals in the Issuer shall be subject to the applicable foreign equity ownership limitation.

The Offer Shares will be registered and offered exclusively in the Philippines. The distribution of this Prospectus and the offer and sale of the Offer Shares may, in certain jurisdictions, be restricted by law. The Issuer and the Joint Lead Underwriters require persons into whose possession this Prospectus comes, to inform themselves of the applicable legal requirements under the laws and regulations of the countries of their nationality, residence, or domicile, and as to any relevant tax or foreign exchange control laws and regulations affecting them personally. This Prospectus does not constitute an offer of any securities, or any offer to sell, or a solicitation of an offer to buy any securities of the Issuer in any jurisdiction, to or from any person whom it is unlawful to make such offer in such jurisdiction. Unless otherwise stated, the information contained in the Prospectus has been supplied by the Issuer.

The Issuer (which has taken all reasonable care to ensure that such is the case) confirms that the information contained in the Prospectus, which in the context of the issue and offering of the Offer Shares, is material (including all information required by the applicable laws in the Philippines) and is correct, and that there is no material misstatement or omission of fact which would make any statement in the Prospectus misleading in any material respect. The Company and the Joint Lead Underwriters have exercised reasonable due diligence required by regulations in ascertaining that all material representations contained in the Prospectus are true and correct and that no material information was omitted, which was necessary in order to make the statements contained in said documents not misleading.

No representation or warranty, express or implied, is made or given, or is to be made or to be given, by the Joint Lead Underwriters, the Selling Agent, the Stock Transfer Agent, the Paying Agent and the Receiving Agent (as such terms are respectively defined below) or their respective affiliates or legal advisers as to the accuracy, completeness, or sufficiency of the information contained in this Prospectus, and nothing contained in this Prospectus is, or shall be relied upon as, a promise, representation or warranty by the Joint Lead Underwriters, the Stock Transfer Agent, the Paying Agent, and the Receiving Agent or their respective affiliates or legal advisers.

No person or group of persons has been authorized by the Issuer and the Joint Lead Underwriters to give any information or to make any representation concerning the Offer Shares other than as contained in this Prospectus and the documents relating to the Offer. If given or made, any such information or representation must not be relied upon as having been authorized by the Issuer or any of the Joint Lead Underwriters.

All information in the Prospectus is as of the date thereof, unless otherwise indicated. Neither the delivery of this Prospectus nor any sale made pursuant to this Prospectus shall, under any circumstances, create any implication that the information contained herein and therein is correct as of any date subsequent to the date hereof or that there has been no change in the affairs of the Issuer and its Subsidiaries since such date. Any reproduction or distribution of this Prospectus, in whole or in part, and any disclosure of its contents or use of any information herein for any purpose other than considering an investment in the Offer is prohibited.

Figures in this Prospectus have been subject to rounding adjustments. Accordingly, figures shown in the same item of information may vary, and figures which are totals may not be an arithmetic aggregate of their components.

The Issuer's financial statements are reported in Philippine Pesos and are prepared based on its accounting policies, which are in accordance with the Philippine Financial Reporting Standards ("PFRS") issued by the Financial Reporting Standard Council of the Philippines. PFRS include statements named PFRS, Philippine Accounting Standards, and Philippine Interpretations of International Financial Reporting Interpretations Committee issued by the Financial Reporting Standards Council.

Market data and certain industry forecasts used throughout this Prospectus were obtained from

internal surveys, market research, publicly available information, and industry publications. Industry publications generally state that the information contained therein has been obtained from sources believed to be reliable, but that the accuracy and completeness of such information is not guaranteed. Similarly, internal surveys, industry forecasts, and market research, while believed to be reliable, have not been independently verified and neither the Issuer nor any of the Joint Lead Underwriters makes any representation as to the accuracy or completeness of such information.

Certain agreements are referred to in this Prospectus in summary form. Any such summary does not purport to be a complete or accurate description of the agreement and prospective investors are expected to independently review such agreements in full.

The price of securities, such as the Offer Shares, can and does fluctuate, and any individual security may experience upward or downward movements, and may even become valueless. Hence, there is an inherent risk that losses may be incurred rather than profit made as a result of buying and selling securities, such as the Offer Shares. An investment in the Offer Shares described in this Prospectus involves a certain degree of risk. A prospective purchaser of the Offer Shares should carefully consider several risk factors relating to the Issuer's business and operations, risks relating to the Philippines and risks relating to the Offer Shares, as set out in the "*Risk Factors and Other Considerations*" section of this Prospectus, in addition to the other information contained in this Prospectus, in deciding whether to invest in the Offer Shares.

The risk disclosure discussion does not purport to be an exhaustive enumeration of, and does not purport to disclose, all the risks and other significant aspects of investing in the Offer Shares. A person contemplating an investment in the Offer Shares should seek professional advice if he or she is uncertain of, or has not understood, any aspect of the securities to invest in or the nature of risks involved in trading of securities.

No representation or warranty, express or implied, is made by the Issuer and the Joint Lead Underwriters, regarding the legality of an investment in the Offer Shares under any legal, investment, or similar laws or regulations. This Prospectus is not an investment, legal, or tax advice. Prospective investors should consult their own counsel, accountant, and other advisors as to legal, tax, business, financial, and related aspects of a purchase of the Offer Shares. In making any investment decision regarding the Offer Shares, prospective investors must rely on their and, as applicable, their advisor's own examination of the Issuer and the terms of the Offer, including the merits and risks involved. This Prospectus is not intended to provide the basis of any credit or other evaluation nor should it be considered as a recommendation by either the Issuer, the Joint Lead Underwriters, the Selling Agent, the Stock Transfer Agent, the Paying Agent, and the Receiving Agent or their respective affiliates or legal advisers that any recipient of this Prospectus should purchase the Offer Shares.

All disclosures, reports, and filings of the Issuer (including those made after the date of the Prospectus) submitted to the SEC and/or the PSE pursuant to the Revised Corporation Code, the Securities Regulation Code and its implementing regulations, and the Consolidated Listing and Disclosure Rules of the PSE (the "**Company Disclosures**") are incorporated or deemed incorporated by reference in this Prospectus. Copies of the Company Disclosures may be viewed at the website of the Issuer at www.cebulandmasters.com and at the Electronic Disclosure Generation Technology of the PSE or PSE EDGE. The Company Disclosures contain material and meaningful information relating to the Issuer and its Subsidiaries and investors should review all information in the Company Disclosures as the information is incorporated or deemed incorporated herein by reference.

Each prospective purchaser of the Offer Shares, by accepting delivery of this Prospectus agrees to the foregoing.

The Issuer is organized under the laws of the Philippines. Its principal office is on the 10th Floor, Park Centrale Tower, Jose Ma. Del Mar St., B2 L3, Cebu IT Park, Brgy. Apas, Cebu City, Philippines with telephone numbers +63 32 231-4870 and +63 32 254-1254.

OVERVIEW

CLI is the leading residential developer in Visayas and Mindanao. The Company’s story began with a vision to provide quality homes for everyday Filipinos. Jose R. Soberano III founded CLI and incorporated the Company on September 26, 2003. On June 2, 2017, the Company was listed on the Main Board of The Philippine Stock Exchange, Inc. with “CLI” as its ticker symbol. A total of 430,000,000 shares were issued and fully subscribed at ₱5.00 per share in connection with the initial public offering. CLI’s initial public offering was instrumental to its growth and expansion, as it raised ₱2.15 billion worth of fresh capital from investors – boosting its development both in new locations and in various projects.

As of December 31, 2023, CLI has a total of 119 projects in different development stages and established a diverse portfolio of residences, offices, hotels, mixed-use properties, and townships across 16 key cities in the VisMin region.

CLI’s approach to the business has been acknowledged through prestigious accolades, including Best Developer of the Philippines in 2019, Best Developer in Visayas and Mindanao in 2021 and 2022, and Best Developer in Mindanao in 2023. These recognitions, earned at the Philippine Property Awards and Asia Property Awards winning against other well-established players in the industry, testify to the company’s unwavering commitment to quality and innovation.

In 2023, an independent study by Colliers International reaffirmed CLI’s leading position in the VisMin residential market. The study identified CLI as the top residential developer in the region, having the largest market share among real estate firms. With a 23% overall residential share in net take-up value, CLI continues to grow market share in key VisMin cities, indicating increasing consumer confidence and recognition in the market.

CLI’s vision extends beyond the present accomplishments. The Company remains steadfast in its pursuit of expansion and innovation. CLI’s robust growth strategies aim to further solidify its market leadership, foster strategic partnerships, and explore new avenues for sustainable development and community enhancement.

The Company’s operating segments are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets:

- Real Estate Segment – covers the development and sale of residential, condotel and office units to individual and corporate buyers.
- Rental Segment – includes leasing of office and commercial spaces to corporate organizations.
- Management Services Segment – focuses on the management of real estate projects and upkeep services to condominium corporations and homeowners’ associations.
- Hotel Operations Segment – related to the management of hotel business operations that caters to hotel guests and condotel owners.

Completed Projects

CLI has in its portfolio 37 completed developments, encompassing vertical and horizontal residential, mixed-use, office, hotel, and retail projects. The Company's commitment to excellence is evident in the diverse range of projects strategically located in key areas such as Greater Cebu, Bacolod, Iloilo, Bohol, Dumaguete, Cagayan de Oro, and Davao.

MesaVerte Garden Residences, a three-tower project representing the Company's inaugural expansion beyond Cebu, was completed in 2020. Additional completions like MesaTierra Garden Residences in Davao, MesaVirre Garden Residences A & B in Bacolod, and 38 Park Avenue in Cebu, were delivered in 2021 and 2022. Throughout the year, CLI has been turning over projects in Cebu, including Casa Mira Towers Guadalupe, Baseline Prestige, and Mivela Tower 1. For the period December 31, 2023, the Company's completed residential developments are 99% sold-out.

The Company owns three operational office buildings and various leasable spaces, with Park Centrale in IT Park, Cebu serving as its headquarters. This development has maintained full occupancy since completion and received the prestigious Best Commercial Development in Cebu award from the Philippine Property Awards in 2014.

Latitude Corporate Center, a 24-storey structure completed in 2020, stands tall in the heart of Cebu's business district. Benefiting from the return of sectors like IT-BPO to office spaces, the Company is confident that this 5-Star BERDE-certified green building, is positioned well to meet such a rebound.

In terms of retail as of the first nine months of 2023, CLI has significantly expanded its GLA to 35,772 sq.m., a 19% increase from the previous quarter's 30,006 sq.m. This growth is attributed to the successful turnover of Banilad Highstreet, 38 Park Avenue retail, Baseline Center phase 2, and Drive-Thru spaces in Davao Global Township.

Diversifying its portfolio, the Company entered the hospitality sector in 2019 with the opening of Citadines Cebu City, a 180-room serviced residence in partnership with The Ascott Limited as the hotel manager. Situated strategically within the Company's mixed-use lifestyle hub, Base Line Center, this project reflects its strategy to broaden its product scope and create reinforcing value across business units.

As of December 31, 2023, the Company's completed projects are 99% sold-out, with only ₱951.86 million remaining in inventory in terms of sales value. Looking ahead, CLI is preparing to grow within the VisMin real estate market, with plans to introduce new projects in key locations, expand into new markets, and cater to diverse demographics.

Ongoing Projects (under construction)

CLI has 72 ongoing projects in various stages of construction as of the third quarter of 2023. These projects are spread out over 16 key areas in Visayas and Mindanao.

Forty-eight residential projects have a total project sales value of ₱82.40 billion are among the projects that are currently being developed. These projects have 22,425 units of which 95% were already sold and the aggregate sales value of remaining inventory amounts to ₱7.95 billion. CLI prioritizes a strategy of selling projects at high velocity, quick turn over of its developments, and swift movement from pre-selling to construction and delivery. Continuing sales efforts are being made to sell out the projects as they get closer to completion. The Company leverages on this market absorption of its products to cultivate the 1,795 accredited real estate brokers and 11,000 sales agents across the VisMin region who continuously support CLI.

Investing in capital to support recurring revenue from both hospitality and leasing businesses is one of the strategies CLI is currently aggressively pursuing banking on the region's future growth. CLI's long-term strategy is to build up its office, retail, and hospitality portfolio's GLA to 200,000 sq.m. – eventually contributing to 10% of the growing top line within the next five years.

The Company is currently constructing nine hospitality projects with a total of 1,543 room keys and various office and commercial projects totaling over a GLA of 75,000 sq.m. More projects are in the

pipeline at the planning and design stage to meet CLI's strategy to continue its build-up of its recurring income portfolio.

Newly launched and Pipeline projects for 2023

During the first nine months of 2023, CLI launched a total of eight projects valued at ₱15.00 billion. Part of the launch is the introduction of the Mirani brand addressing the needs of the lower-income segment, offering residences priced at around ₱1.90 million to ₱2.90 million. Another notable project launch is Mindara Residences in Davao with almost 546 of its units being sold out, amassing ₱2.50 billion in sales within the first week of its launch. CLI also introduced its first house and lot project in Davao, Casa Mira Davao, is now 95% sold out. Other project launches include Casa Mira Towers Mandaue T1, Mandra T2, CMT Palawan T4, CMT Bacolod T4, Casa Mira Homes Davao, and Costa Mira Panglao T3. This substantial fresh inventory, coupled with the continued high demand for the established Casa Mira brand, propelled CLI to achieve its highest nine-month reservation sales figure, up by 25% to reach ₱17.00 billion versus the same period in 2022.

As of end of 2023, CLI has successfully sold out 63% of its inventory from projects launched in the same year, underscoring its ability to capture demand where it competes. CLI aims to sell the remaining units over its construction period. Overall, CLI's saleable projects are 94% sold out.

Looking ahead to the coming months, CLI plans to launch more developments from its 11 pipeline projects, with an aggregate sales value of ₱23.00 billion.

CLI will be selective in acquiring high potential landbank to drive sustained revenue growth in the future. During the nine months of 2023, the company recorded 112.5 has of land for development across VisMin locations. During the year, CLI further expanded in Mindanao with its most recent purchase of 21 hectares in General Santos City, increasing its landbank to a value of ₱9.8 billion.

Residential Developments

Residential developments constitute the cornerstone of the Company's operations and project portfolio. CLI's overarching goal is to meet the persistently unmet demand for quality-built, cost-effective housing, and well-planned communities that align with the needs of the market. In response to the housing backlog and the heightened desire for safe and secure homes, the Company consistently launches new housing projects.

To effectively address diverse market segments, the Company categorizes its housing developments into distinct brands. The largest contributing brand is Casa Mira, which has emerged as the fastest growing and most popular brand in VisMin. Starting at ₱120,000.00 per sq.m. or ₱2.00 million for studio condominium units, Casa Mira caters specifically to the economic market. House & lot units under Casa Mira start at around ₱2.20 million, with a lot area starting 60 sq.m. and floor area from 42 sq.m. Over time, the Casa Mira series has become a pivotal asset, securing the largest residential market share in Visayas and Mindanao. Its success can be attributed to its value proposition, providing residents with reasonably priced homes in aesthetically pleasing communities, complete with several amenities more associated with higher-priced developments. These include a clubhouse with multi-purpose halls, a chapel, swimming pool, multiple basketball court, tennis courts and children's playground.

In a strategic move to grow the Company into more segments, CLI introduced the "Mirani" brand last July 2023. Designed to cater to the more affordable housing demand within the market spectrum with a price point of around ₱1.90 million, the Mirani brand debuted with Mirani Steps in Danao in June 2023. and is 48.37% sold out in 3 months.

The Garden Series, targeting the mid-market segment, offers both vertical and horizontal product lines. Subdivisions under this brand are known as Velmiro, while condominium projects go by the name Garden Residences. Garden Residences condominiums feature selling prices starting at ₱140,000.00 per sq.m., with each housing unit price ranging from ₱2.50 million to ₱3.20 million for studio condominium units. Velmiro subdivisions have a 100 sq.m. lot area, with floor area of 50-100 sq.m., with a starting price of around ₱4.6 million. The Garden Series distinguishes itself by offering an upgraded array of amenities over the economic segments, including a swimming pool, multi-level clubhouse with function rooms, fitness gym, basketball court, and playgrounds situated in expansive

landscaped park.

Strategically, CLI offers Premier Masters, the high-end residential buildings with prices starting at ₱180,000.00 up to ₱300,000 per sq.m. These luxurious developments, located in prestigious urban areas, include Terranza Residences in Iloilo, Costa Mira Mactan, the two Baseline condominiums and 38 Park in I.T. Park Cebu.

Lastly, Villa Casita represents CLI's business in socialized housing, offering units at a price of ₱580,000.00. Through these socialized housing projects required under specific compliance terms, the Company endeavors to provide decent and affordable housing to the market segment.

Leasing Projects

In 2013, CLI opened its first office property, Park Centrale at I.T. Park Cebu, taking advantage of the growing BPO sector in Cebu. CLI's current strategy is to significantly expand its recurring revenue projects by delivering a total of 200,000 sq.m. of gross leasable area in the next three to five years from 2023.

In 2020, the Company turned over Latitude Corporate Center, a Grade A office tower at the Cebu Business Park with a GFA of 21,000 sq.m. In Cebu, construction for Astra Corporate Center (18,823 sq.m. GFA) and Patria de Cebu Office (4,562 sq.m. GFA) are currently ongoing.

As of September 2023, CLI has expanded its GLA to 35,772 sq.m., a 19% increase from the previous quarter's 30,006 sq.m. This growth is attributed to the successful turnover of Banilad Highstreet and Drive-Thru spaces in Davao Global Township, with lease rates of 70% and 100%, respectively. These developments stand as important contributors to CLI's upward trajectory and realization of its recurring income strategy.

Office buildings include Park Centrale Tower, Base Line HQ, Latitude Corporate Center, Astra Corporate Center, Patria de Cebu Office, and Masters Tower Cebu Office.

Hotel Projects

In 2019, CLI opened its first condotel project with Citadines Cebu City in partnership with The Ascott Limited. Citadines Cebu City is a 180-room serviced residence strategically located within CLI's mixed-use lifestyle hub in midtown Cebu, the Base Line Center.

CLI currently has nine more hospitality projects under construction to boost its hotel business. Most of these hotels have management agreements with well-known hotel management companies, including the three additional hotels with Ascott Limited, Sofitel Cebu and Mercure in Patria de Cebu with the Accor Group and Abaca Resort Mactan, the first resort project being developed by CLI, scheduled to open in 2025.

During the first nine months of 2023, the resurgence in the travel and leisure sector served as a catalyst for CLI's hotel operations, resulting in a rebound and upsurge in revenue. The hotel operations generated ₱98.17 million, up from ₱55.01 million during the same period in the previous year, a 78% growth. This increase was primarily fueled by an increase in bookings and elevated room rates in Citadines Cebu City.

The Pad and Baseline Lyf are currently partially open and operational, but with completion works still ongoing. Upon completion, these assets are anticipated to increase the number of operating room keys, from 180 to 338. The remaining hotel keys of The Pad and Baseline Lyf are scheduled for completion in the first quarter of 2024, providing the Company with the assets to increase its revenue from hotel operations in the immediate future. Furthermore, with seven additional hotels currently under construction on their way to commencement of operations, CLI is strategically positioning itself to further capitalize on the growing opportunities within the hospitality sector in VisMin.

FINANCIAL PERFORMANCE

January 1 to September 30, 2023 vs. January 1 to September 30, 2022

For the third quarter of 2023, the Company reported a consolidated net income of ₱3.03 billion. This figure reflected a y-o-y increase of 28% from the previous period's ₱2.37 billion. Furthermore, the Net Income After Tax ("NIAT") attributable to the parent company had a growth of 9%, reaching ₱2.39 billion compared to ₱2.20 billion of the same period last year. The earnings expansion can be attributed to the Company's performance across all revenue streams which led to CLI's consolidated revenues increasing by 18% to ₱12.93 billion from ₱10.96 billion the previous year. This is supported by higher construction progress and higher sales take-up. Using the weighted average shares of 3,465,201,467, earnings per share ("EPS") for the first nine months of 2023 posted at ₱0.69, this is an 8% increase from the ₱0.64 posted for the same period of last year. CLI's balance sheet remains steady and suited to support construction and expansion plans. As of September 30, 2023, CLI reported total assets of ₱96.57 billion, an increase of 14% from ₱85.04 billion as of December 31, 2022 driven by progress in construction from sold units.

The Company's gross profit margin is dependent on the mix of revenue during the period. During the first nine months of 2023, 28% of the Company's topline was attributable to premier series projects which had a higher Gross Profit Margin compared to the other segments. Additionally, recurring projects showed a recovery, and these projects have Gross Profit Margins with over 50% to 60%. Meanwhile, Net Income Margin remains at 23%. Inflation and increased cost of capital will be drags to the margin as the Company slowly transmits inflationary factors to its selling prices.

For the period ended September 30, 2023, Return on Assets is at 3%¹ and Return on Equity (Parent) at 17%.² Net Debt to Equity ratio improved to 1.82x due to increased equity for joint venture projects. The Company's current ratio stands at 1.56x.

FY 2022

CLI recorded Normalized Net income to parent shareholders of ₱3.17 billion, an increase of 21% from ₱2.61 billion in 2021, with the remainder after one-time tax adjustments for the year being factored out. This generated an EPS of ₱0.92, a growth of 12% y-o-y from ₱1.04 EPS in 2021. The increase is driven by the topline growth and economic recovery in the region.

CLI's balance sheet remained poised to support construction and expansion plans. As of December 31, 2022, CLI's consolidated assets stood at ₱85.04 billion, a 28% y-o-y growth to from ₱66.65 billion driven by the increase in contract assets, real estate inventories, and investment properties.

FY 2021

In 2021, CLI recorded net income to parent shareholders of ₱2.61 billion, an increase of 42% from ₱1.85 billion in 2020. With its 2021 results, the Company has effectively grown past its 2019 pre- pandemic bottom-line by 30%.

CLI's consolidated revenues likewise grew by 35% to ₱11.16 billion from 2020's ₱8.30 billion, driven by sustained construction accomplishments coupled by strong sales and collections. At this time, CLI still has ₱25.00 billion or a 23% increase in unrecognized revenue for future recognition. Revenue from the sale of real estate recorded a 35% growth y-o-y to ₱11.00 billion from ₱8.15 billion in 2020. The high growth was driven by significant construction progress and more accounts qualifying for revenue recognition from continued collections. By the end of 2021, construction was in full swing across all project sites in VisMin with catch-up measures in place to compensate for delays caused by quarantine restrictions.

Actual capital expenditures amounted to ₱9.70 billion in 2021, 80% was spent on project development

RISK FACTORS AND OTHER CONSIDERATIONS

GENERAL RISK WARNING

An investment in the Offer Shares involves a number of risks. Prospective investors should carefully consider the risks described below, in addition to other information contained in this Prospectus, including the Company's financial statements and notes relating thereto, before making any investment decision relating to the Offer Shares. These factors, which are of equal importance and are organized in no particular order, may be summarized into those that pertain to the business and operations of the Company, those that pertain to the overall political, economic, and business environment in the Philippines, and those that pertain to the Offer Shares.

This section does not purport to disclose all of the risks and other significant aspects of investing in Offer Shares. Investors deal in a range of investments each of which may carry a different level of risk. Investors should seek professional advice regarding any aspect of the securities such as the nature of the risks involved in the trading of the securities. Investors should undertake independent research regarding the Company and the trading of securities before commencing any trading activity and may request all publicly available information regarding the Company and the Offer Shares from the SEC or may check the Company's Disclosures at the PSE EDGE.

The Company's past performance is not an indication of its future performance. There is an extra risk of losing money when securities are bought from smaller companies. There may be a big difference between the buying price and the selling price of these securities. The occurrence of any of the events discussed below and any additional risks and uncertainties not presently known to the Company or are currently considered immaterial could have a material adverse effect on the Company's business, result of operations, financial condition, and prospects, and could cause the market price of the Offer Shares to fall significantly and investors may lose all or part of their investment.

To mitigate the risks identified below, the Company shall continue to adopt what it considers conservative, financial and operational controls and policies within the context of the prevailing business, economic, and political environments taking into consideration the interests of its customers, stockholders and creditors.

RISKS RELATED TO THE COMPANY

There is heightened competition among local and national players where the Company is operating and expanding. Competition for the acquisition of land for new projects could adversely affect the Company's business.

The Company's future growth and development are dependent, in part, on its ability to acquire or enter into agreements to develop additional tracts of land suitable for the Company's planned real estate projects. When the Company and its competitors attempt to locate sites for development, the Company may experience difficulty in locating parcels of land of suitable size in locations and at prices acceptable to the Company. In the event the Company is unable to acquire suitable land at acceptable prices, with reasonable returns, or at all, its growth prospects could be limited and its business and results of operations could be adversely affected.

The Company faces tough competition from a number of local and national players that take advantage of the growing real estate market in Cebu. For residential projects, CLI competes with Ayala Land, Inc., Filinvest Land, Federal Land, Taft Properties, Primary Homes, Aboitiz Land and a host of other local and national players. For commercial developments and office space leasing, the Company faces Ayala Land, Inc., Primary Structures Corporation, Skyrise Realty and Development Corporation, Megaworld, Inc. and other players as its competitors in addressing the demand for office buildings of the fast-growing BPO industry and retail spaces.

Nevertheless, CLI has been able to establish itself as Cebu's leading local housing developer due to its strong track record in the four main market segments namely high-end, mid-market, economic and socialized housing. Thus, the Company can tailor-fit its residential developments not only to achieve the best use of a property but also to ensure its optimal market acceptance. This has enabled CLI to sell its projects at a higher velocity, turn over quickly on its developments, and move swiftly from pre-

selling to construction and delivery. CLI's consistently high sales performance is enabled by innovative sales and marketing strategies, which allows itself to bring products to the market faster than the competition with the commanding support of its over 11,000-strong real estate broker and agent network.

In order to gain further versatility, the Company has also diversified into commercial, leisure, hospitality, and industrial developments. With CLI's growing local leadership and expertise in various real estate product offerings, the Company believes it will be able to sustain its growth amidst heightened competition.

The Company's limited landbank inventory compared to other developers is deliberate. CLI's thrust is to immediately develop a property once acquired and after completion, to quickly turn over the same to the buyers to achieve faster financial gains and to ensure efficient use of capital.

The Company emphasizes creating shareholder value by being opportunistic with investments and being judicious in its deployment of capital. Decisions on capital expenditures, whether financed by equity or debt, are made with a priority on generating a strong return on investment in a measurable and realistic timeframe. Having too large a landbank would necessarily mean that much capital is devoted to holding non-revenue generating assets while incurring cost of debt or equity. Much in the same way that capital-efficient firms employ a 'just-in-time' to efficiently utilize capital, CLI chooses only to raise capital when it can confidently forecast and execute a project with a reasonable rate of return.

Nevertheless, despite the heightened competition for land in Cebu and VisMin, the Company does not find any substantial difficulty in acquiring target properties. The Company's local connections in VisMin and familiarity with the people and the territories where it is operating enable CLI to attract reverse inquiries for possible JVs with landowners or offers for sale of properties. The Company will continue to open its doors to JV partnerships and to work on the success of its current JVs and projects in order to retain its good reputation in the territories where it is operating.

The Company's business is affected by various regulations in the Philippines.

CLI operates a material part of its businesses in a highly regulated environment. CLI's business is subject to numerous environmental laws and regulations relating to the protection of the environment and human health and safety. These include laws and regulations governing air emissions, water and wastewater discharges, odor emissions, and the management and disposal of, and exposure to, hazardous materials. The Company cannot predict what environmental or health and safety legislation or regulations will be amended or enacted in the future; how existing or future laws or regulations will be enforced, administered or interpreted; or the amount of future expenditures that it may be required to comply with these environmental or health and safety laws or regulations or to respond to environmental claims.

In addition, CLI is required to obtain licenses to sell before making sales or other dispositions of housing and condominium units. For more information on the environmental laws and other regulations affecting the Company's operations, please see discussion on the section on "*Regulatory Framework*" on page 240.

Project permits and any license to sell may be suspended, cancelled, or revoked by the DHSUD, HSAC, or by the courts upon its findings or upon complaint from an interested party, and there can be no assurance that the Company will receive the requisite approvals or licenses, or that such permits, approvals or licenses will not be cancelled or suspended. Any of the foregoing circumstances or events could affect the Company's ability to complete projects on time, within budget or at all, and could have a material adverse effect on its financial condition and results of operations.

Moreover, the Company has incurred, and expects to continue to incur, operating costs to comply with such laws and regulations. Further changes to the applicable governmental laws and regulations, fiscal policies and zoning ordinances will result in additional costs of compliance for the Company.

CLI, through its construction and property management arms, keeps itself abreast of the latest technologies that enable it to implement existing sanitation, environment and safety laws and regulations

at cost-efficient means. It also continuously exerts earnest efforts to secure and maintain all relevant and material permits and licenses required under such laws and regulations for its subdivision and condominium projects. The Company also practices and adheres to a strong compliance culture and maintains positive relationships with regulatory and local government agencies.

The Company's business may be adversely affected by major political and economic developments, such as the Russia-Ukraine war.

The invasion of Ukraine by Russia has triggered multiple economic repercussions. Since Russia is a major producer of petroleum, the discontinuance of petroleum supply from it would mean that the global supply has decreased. Disruptions to the flow of petroleum to the supply chain drives prices up, making costs of inputs much more expensive.

While the Philippines and the other Southeast Asian countries have limited dependency on either country, the ensuing global sanctions adversely impact Philippine economic conditions. Food and fuel prices steadily pushed up since the last quarter of 2023.

While the Company is not directly affected, this would mean increased construction costs (cost of steel, cement, and other construction materials), and thus, a slower takeout of completed units, which would most likely lead to lower reservation sales of new projects.

With the concluded national and local elections last May 2022 or any national or local election for that matter, the entry of new government leaders for both local and national positions marks a transition from familiar procedures to possibly new procedural policies. This may mean delays in permits or title processing which could trigger delays in project completion, which could lead to project compliance issues with financing partners who require specific project milestones. CLI actively manages this risk by ensuring good working relations and proactive communications with any new administration, national and local, to ensure continued support for the real estate industry and the Company.

The Company's current portfolio is composed of approximately 99% properties for sale and 1% recurring income properties.

For over two decades, CLI has grown from a humble beginning in Balamban to a fully integrated real estate developer. The diversified portfolio spans residences, offices, retail spaces, hotels, mixed-use developments, and townships across Visayas and Mindanao. In the high-end residential segment, Premier Masters, featuring projects like Base Line Premier and 38 Park Avenue, offers world-class living in prime urban locations. The Garden Series, including Mivela Garden and Velmiro Greens Bohol, caters to the middle market. Casa Mira targets the economic housing sector, while Villa Casita serves socialized housing. To address affordable housing demand, CLI introduced the Mirani brand, launching Mirani Steps in Danao in June 2023.

CLI has completed 32 residential projects across Cebu, Bacolod, Cagayan de Oro, and Davao, expanding beyond its native Cebu with MesaVerte Garden Residences in 2020. Noteworthy projects like MesaTierra Garden Residences, MesaVirre Garden Residences A & B, and 38 Park Avenue were finalized in 2021 and 2022. The Company had a 99% sold-out status for completed residential developments as of December 31, 2023 after the turnover of projects in Cebu, including Casa Mira Towers Guadalupe, Baseline Prestige, and Mivela Tower 1.

While CLI strengthens recurring income assets, currently about 1% of its portfolio, the company strategically positions for growth in this sector over the next five years. CLI aims for a target mix of 90% residential developments and 10% recurring income projects, showcasing its commitment to a balanced business strategy.

The Company is new to regional markets including Gensan, Butuan and Calabarzon.

Despite the Company's robust track record and successful projects in Cebu, CLI may face challenges in executing its business expansion plans and strategies, especially concerning new projects and ventures in other regional markets. There is no guarantee that CLI's future projects will be completed and sold as planned, similar to its real estate offerings in Cebu. Additionally, there is no assurance that the uptake for its new developments will remain robust. However, the Company is confident in its ability

to successfully penetrate new markets using the project templates that have made it the leading developer in Cebu.

In 2015, CLI initiated its regional expansion by launching MesaVerte Residences in CDO, a mid-market condominium offering with three 15-storey residential towers that nearly sold out in less than a year of pre-selling. The Company introduced its mid-market horizontal project, Velmiro Uptown CDO, in the same city in 2018, featuring a master plan with 396 units to meet the housing demand in the area. In 2016, CLI established its presence in Davao with the launch of MesaTierra Garden Residences, a 22-storey residential condominium.

In 2017, CLI strengthened its market presence in Davao through two new joint ventures to develop Paragon Center and Davao Global Township, a 22-hectare estate project. The Company expanded from Negros Oriental to Negros Occidental by launching MesaVirre Garden Residences, a three-tower residential condominium project in Bacolod City. In 2020, CLI entered Bohol and Iloilo with the successful launch of Velmiro Greens Bohol and Casa Mira Iloilo, respectively. In the same year, CLI launched Casa Mira Dumaguete, Casa Mira Towers LPU, and Casa Mira Coast in Negros Oriental. In 2021, the Company introduced Casa Mira Ormoc in Leyte, expanding its presence to Eastern Visayas.

In 2022, CLI expanded its leisure and hospitality portfolio with MagsPeak Mountain Resort and Villas in Balamban, Cebu. The Company also began planning a 14.3-hectare property in Cagayan De Oro and acquired a 17-hectare expansion site in Butuan City for Casa Mira Butuan, set to launch in Q1 2024. In 2021, CLI purchased a 14-hectare estate in Manresa, CDO, master planned to integrate the new campus of Xavier University into a well-planned township project. To date, bidding for the land development is ongoing, with construction set to start in 2024. In 2023, CLI launched six projects, including Casa Mira Towers in Palawan, Costa Mira Beachtown in Panglao, and Casa Mira Homes in Davao. CLI is expanding in Mindanao by purchasing 21 hectares in General Santos City. The Company has strategic land acquisitions lined up in greater Cebu, Bacolod, CDO, and Davao, with new expansion areas such as Naga City in Luzon on the horizon. CLI continues to pursue its aggressive plans to establish and deliver quality developments across the VisMin region and its first project soon in Luzon.

During the first nine months of 2023, Cebu still is the strongest contributor of revenue which accounted for 46% of its overall figure. Visayas (ex-Cebu) and Mindanao contributed 27% and 25%, respectively. The increase in the share in revenue outside Cebu was driven by new projects such as East Village Residences, Casa Mira Towers Bacolod, Casa Mira Towers Palawan, and Costa Mira Beach Panglao.

The Philippine property market is cyclical.

The Company expects to derive a substantial portion of its revenue from the current and future portfolio of residential and mixed-use development projects. Accordingly, the Company is dependent on the state of the Philippine property market. The Philippine property market has in the past been cyclical and property values have been affected by the supply of and demand for comparable properties, the rate of economic growth in the Philippines, and political and social developments.

While the Company has no control over the property market, this risk is mitigated by the fact that constructions for the Company's projects are generally completed in a fraction of the time taken for comparable-sized projects by other developers. Construction normally begins immediately once properties are acquired in the normal course of business. There remains a significant backlog of housing units in the economic and socialized housing segments in which the Company competes. There is also a growing demand for office spaces to cater to the booming BPO business in Cebu, which is now considered one of the top outsourcing destinations in the world. Financing facilities for buyers in the housing segment has become widely available from financial institutions. Lastly, the Company believes that its reputation as a quality home builder and real estate developer, coupled with value for money project developments, will help it withstand the cut-throat competition in the Philippine property market.

Given the current geographic concentration of the Company's real estate sales, the Company's results of operations would suffer if the residential housing and land development industry in the Company's current markets decline.

A significant portion of the Company's residential housing and land development business is located within Metro Cebu. As a consequence of this, any prolonged economic downturn in this market could

have a material adverse effect on the Company's business, results of operations and financial condition.

To further cushion the impact of stiff competition in Metro Cebu, the Company is expanding project developments to other highly urbanized centers in CDO, Davao, Dumaguete, Iloilo, Bacolod, Butuan, and Gensan. The Company remains steadfast in its 2023 vision of becoming the leading local developer in the Visayas and Mindanao regions.

The Company might be at risk of being exposed to housing price bubbles.

With the aggressiveness in the real estate sector developments in the country, a steep rise in property prices was observed. A housing price bubble occurs when demand for property suddenly decreases when the supply on real estate property increases. The rapid upsurge in asset prices might result in an eventual decline in prices as markets recalibrate. In addition, housing price bubble may also happen when speculative investing, which is ubiquitous in China, Hong Kong, and Singapore, is apparent. To counter that, the demand registered in the local sector is backed by demands from end-users rather than speculative buyers. This, in turn, diminishes the probability of having the asset price bubbles since real estate properties are not bought as investments but for residential purposes.

The Company is confident in the efforts of the BSP to control inflation and prevent the formation of asset bubbles in real estate. In addition, the Company operates and competes in a market segment where there remains a significant backlog of housing units for end-users comprising of middle-income individuals, couples, and families. By doing so, the Company is catering to a market segment which has a particular and real housing need. Moreover, the Company is growing its recurring income with its commercial and office developments, upcoming hospitality business and foray into industrial development, to mitigate the effects of a possible housing price bubble.

Increased inflation, fluctuations in interest rates, and changes in the Philippine government's borrowing patterns and Government regulations could have a material adverse effect on the Company's and its customers' ability to obtain financing.

Changes in interest rates, the Philippine government's fiscal policy and lending regulations, among other events and conditions, could have a material adverse effect on the Company and on the demand for its products.

With the bank lending cap imposed by the BSP on the real estate sector, the Company's access to capital and its cost of financing become limited. Once the single borrower limit of its current or preferred bank or banks is reached, the Company may encounter difficulty in obtaining financing on the same or similar commercial terms from other banks.

A sustainable increase in inflation in the country might push the cost of raw materials upward, which the Company may not be able to pass on to its customers or to its contractors, e.g., by having them absorb raw material costs. In the event the Government substantially increases its borrowing levels in the domestic currency market, the interest rates charged by banks and other financial institutions are likely to increase and effectively reduce the amount of bank financing available to both prospective property purchasers and real estate developers, including the Company. Since a substantial portion of real estate customers avail themselves of financing, through either Pag-IBIG financing or through commercial banks under home mortgage lines, to fund their property purchases, higher interest is expected to be observed which would make purchases of real estate more expensive, and consequently affects demand for the Company's residential projects.

The existence of any of the abovementioned events, or any combination thereof, or of any similar events could have an adverse effect on the Company's business, financial condition, and results of operations.

The Philippine government, specifically the BSP, has introduced measures to monitor the real estate sector. Its intervention would help the market become resilient and sustainable.

The Company prudently manages its balance sheet, and its gearing and leverage ratios are all within or better than industry standards, giving it flexibility to obtain additional bank financing. The Company also does not offer in-house financing, so there is no additional interest rate exposure on that front with the company.

The real estate sector is capital intensive and this factor may cause difficulty for the Company to readily raise the necessary capital to acquire new land or complete existing projects. It also has a naturally multi-year cash cycle that goes through a negative operating cash flow period for most of its cycle before realizing a cumulative positive cash outcome for each project.

The Philippines' real estate sector requires a substantial amount of capital to acquire land for development, complete existing projects, and commence construction on new developments. The Company has deployed ₱10.4 billion in capital projects this year, with 86.7% allocated to project development and 6.2% directed towards land acquisition. CLI is currently expanding in Mindanao, having recently acquired 21 hectares in General Santos City. This acquisition increases its landbank to 112.5 hectares, amounting to a total value of ₱9.8 billion. With this strategic move, CLI aims to meet the robust and consistent housing demand in the region, solidifying its presence in 16 key VisMin cities.

The Company has relied on internally generated funds and external financing for its land banking expenditures and real estate development programs. Due to the capital-intensive nature of the real estate industry, it is inevitable that developers will need external support to finance their projects. Failure to obtain the requisite funds could delay or prevent the acquisition of land, completion of ongoing projects or commencement of new projects, which could materially and adversely affect the Company's reputation, financial condition, and results of operations.

To mitigate this risk, the Company cultivates strong relationships with its partner banks and has always demonstrated caution in its financial management as it strives to be efficient and effective in utilizing its capital. The Company also enters into strategic joint venture partnerships which enable it to position its developments in strategic and prime locations, as its joint venture partners either contribute the land or share in the acquisition cost and the Company takes charge of the property development and project management which in turn lowers cash outlay requirements and increases equity for the consolidated business.

Moreover, the Company ensures a high sales turnover of its real estate projects through its industry-leading sales support teams in VisMin. With over 73 sales support personnel, this team collaborates, coordinates and supports over 11,000 strong accredited brokers through various agent networks, which includes licensed brokers, sales agents/list of all sellers, as of December 31, 2023. This would involve the Company employing a value for money philosophy which creates a larger demand for its real estate developments in comparison to competitors.

With the Company's projects being 93% sold out on average, it can earn assurance of returning capital to investors, and making a profit and ultimately generating a positive cumulative cashflow for its projects. As long as the Company's projects make a healthy margin, and have a high-sales take up, a negative operating cashflow is an inherent feature of the business model that can be addressed with prudent capital profile matching and sufficient revolving funds to monetize the profitability of projects.

A portion of demand for the Company's products is from overseas Filipinos, which exposes the Company to risks relating to the performance of the economies of the countries where these potential customers are located.

Sales to overseas Filipinos, including OFWs and Filipino expatriates, which comprises 30% of the Company's buyers, generate a significant portion of the demand for the Company's housing and land development projects. A number of factors could lead to reduced remittances from OFWs, reduced number of overseas Filipinos, or reduced purchasing power of overseas Filipinos. These factors are:

- an appreciation of the Philippine peso, which would result in decreased value of the other currencies transmitted by overseas Filipinos;
- any difficulties in the repatriation of funds;
- a downturn in the economic performance of the countries and regions where a significant number of these potential customers and supporters are located such as the United States, Middle East, Italy, United Kingdom, Singapore, Hong Kong, and Japan;
- a change in Government regulations that currently exempt the income of OFWs from taxation in the Philippines;
- the imposition of restrictions by the Government on the deployment of OFWs to particular

- countries or regions such as the Middle East; and
- restrictions imposed by other countries on the entry or the continued employment of foreign workers.

Any of these events could adversely affect demand for the Company's projects from overseas Filipinos, which could have a material adverse effect on the Company's business, financial condition, and results of operations.

However, OFW remittances continue to enjoy consistent growth for the past two years. OFW remittances have grown consistently on a year-to-year basis since 1989. For the period from January to September 2023, OFW cumulative remittances reached US\$24.49 billion, a growth of 2.8 y-o-y³. Thus, it is expected that the demand for the Company's housing and land development projects from overseas Filipinos and their families will continue to enjoy stable financing from OFW remittances.

This risk can be managed by ensuring that the Company has several other sales channels and that none of its projects are solely reliant on overseas sales in order for it to be viable. Overseas sales are but one part of a broad market that the Company taps. And while overseas demand adds to the overall sales strategy of the Company, it is not the only one. As evidenced during the height of the pandemic when remittances were reduced and there was heightened uncertainty regarding the economic and financial situation of many OFWs, sales to overseas Filipinos declined as a share of the Company's total sales but its overall sales still increased as it was able to sell more into the deep domestic markets of VisMin.

The Company engages third-party brokers and agents to sell its residential housing, residential condominium, office condominium, and condotel projects.

The Company uses third-party brokers to market and sell its various real estate offerings to potential customers. If these brokers do not meet their requisite sales targets, the Company's business, financial condition, and results of operations could be adversely affected. Moreover, there is competition for the services of third-party brokers in the Philippines and many of the Company's competitors may attempt to recruit brokers away from the Company. If a large number of these third-party brokers were to cease selling for the Company, the Company would be required to seek other external brokers, and there can be no assurance that the Company could do so quickly or in sufficient numbers.

Nevertheless, CLI has maintained a very professional and harmonious working relationship with its extensive brokerage network, which is over 11,000 strong and supported by CLI's over 73 sales support personnel. All brokers and agents must secure accreditation from CLI as this allows the Company to properly screen, monitor and onboard these third-party brokers and agents. As part of its quality commitment, CLI schedules weekly product knowledge seminars, which provide a comprehensive orientation per project. This equips brokers and agents with the latest project data and gives them greater confidence in the diverse offerings of the Company. With inventory in almost all residential segments and its growing commercial portfolio, these third-party brokers are able to offer more enticing options to their potential buyers. The Company has also pioneered various incentive programs for its brokers, which have paved the way for multiple and repeat selling efforts from individual sellers and brokerages.

Cancellation of sales involving the Company's projects could adversely affect its business, financial condition, and results of operations.

As a developer and seller of residential real estate, the Company's business, financial condition, and results of operations could be adversely affected in the event a material number of subdivision and condominium unit sales are cancelled. The Company saw an increased cancellation rate from 4.96% in 2022 to 6.02% in 2023 with delinquency rate significantly improving from 3.82% in 2022 to only 1.15% after a major thrust to maintain only healthy, paying accounts by the company after discontinuing lenient terms granted during the pandemic. As of the first nine months of 2023, 72.33% of the cancelled

accounts were immediately sold. Thus, there can be no assurance that it will not experience a material number of cancellations in the future. Should it happen, it will have a material adverse effect on the Company's business, financial condition, and results of operations.

To prevent cancellations, the Company ensures value for its customers' money with its competitive pricing, quality locations, planning and design, generous amenities, timely and quality construction, well-established customer care, and after-sales and property management support. Furthermore, to minimize the risk of cancellations, the Company targets a prudent mix of clients, the bulk of which are OFWs and employed professionals and employees. Additionally, the Company markets its brand across several markets in several regions of the world and OFWs comprise 30% of its buyers. The Company aims to diversify its market further in order to avoid excessive dependency on a particular geographic location of buyers.

The Company enjoys certain tax exemptions and incentives, the loss of which may increase the Company's tax liability and decrease future Company profits.

The Company benefits from Philippine tax law and regulations which exempt sales of house and lot, and other residential dwellings with selling price of ₱3,199,200.00 or less from the 12% VAT pursuant to BIR Revenue Regulations No. 8-2021, amending for this purpose BIR Revenue Regulations No. 4-2021.

The Company also has registered a number of its projects with the Board of Investments ("BOI"), which has allowed such projects to enjoy certain tax incentives. The Company's sales of its BOI-registered mass housing projects with a price ceiling of ₱2.00 million and below are not subject to corporate income tax. The Company's projects that qualify for the tax holiday are described elsewhere in this Prospectus.

There is no guarantee that the Company's future development projects will be able to benefit from the income tax holiday benefits under the BOI, or that the BOI registrations to receive such benefits will not be delayed. The delay or absence of this income tax holiday on any of the Company's future development projects could have an adverse effect on the Company's results of operations.

The Company regularly obtains tax advisories from expert consultants to keep it updated on the best tax compliance practices. CLI ensures compliance with all the requirements for its tax exemptions or benefits to be able to continue the enjoyment of such benefits.

Natural catastrophes may affect the Company's business adversely.

The Philippines has experienced a number of major natural catastrophes over the years, including typhoons, volcanic eruptions, and earthquakes. The occurrence of such natural catastrophes may materially disrupt and adversely affect the business operations, cause damage to the Company's projects, or result in work stoppages or delay construction and project delivery.

Although there can be no assurance that it will be adequately compensated for all damages and economic losses resulting from natural catastrophes, the Company maintains comprehensive insurance against natural catastrophes to cover its various developments.

Titles over land owned by the Company may be contested by third parties.

While the Philippines has adopted a system of land registration which is intended to conclusively confirm land ownership, and which is binding on all persons (including the Philippine government), it is not uncommon for third parties to claim ownership of land which has already been registered and over which a title has been issued to another person or entity. The Company, from time to time, may be required to defend itself against third parties who claim to be the rightful owners of land.

The Company generally conducts extensive title searches to determine the authenticity of titles to land offered to it before it acquires any parcel of land. It traces back titles of prospective properties up to the last three significant partitions or ownership transfer and then performs an exhaustive background check of the persons or parties involved in these transactions, especially their court records. It likewise conducts its own topographical and technical surveys of these properties to verify the accuracy of technical descriptions and the correctness of all boundaries. Furthermore, the Company investigates

the existence of any prevailing liens or tax obligations which may adversely affect its ownership rights to properties to be acquired.

The Company's reputation will be adversely affected if its projects are not completed on time or if its projects do not meet customers' requirements.

The Company's reputation will be negatively affected if any of its projects carry construction or infrastructure failures, design flaws, significant project delays or quality control issues. Any reputational deterioration may consequently make it more difficult for the Company to attract new buyers to its future projects, to command a higher selling price or to sell its housing and land development projects.

As local companies and industries continue to grapple with the challenges that come with the extended pandemic, CLI seized this opportunity by breaking ground on new projects and continuing its construction operations.

Moreover, the Company believes that it has inherent strengths in engineering, project planning and execution. With over 170 engineers in its roster, CLI handles the project and construction management aspect of every project and manages the various contractors and sub-contractors that are utilized. As the project manager, CLI controls the delivery of its projects with priority on promptness, quality, and professionalism. CLI does not have any in-house construction or any affiliated general contracting business.

Independent contractors may not always be available or may not be able to meet the Company's quality standards, or complete projects on time or within budget, and may encounter difficulties which will result in a delay of the project.

The Company relies on various general and specialty independent contractors with both local and national experience to provide various construction services, including land clearing and infrastructure development. Should its independent contractors become unable to perform the contracted scope of work, or are unable to sufficiently meet the Company's demands and project requirements, these will result in delays in the project completion and delivery to customers.

Although the Company's personnel work closely with its independent contractors, there can be no assurance that the services rendered by any of its independent contractors will always match the Company's quality standards, or will comply with government requirements and regulations relevant to their contracted scope of work.

Independent contractors may also experience financial or other difficulties such as insolvency, shortages or price increase of construction materials, work site accidents or labor issues, any of which could delay the completion or increase the project costs. Violations by the independent contractor of their government permits and licenses, or their failure to obtain such permits and licenses, may also affect the progress of the projects they are engaged to work on.

Any of these factors will have a negative effect on the Company's reputation and make it more difficult to attract new customers to its new and existing development projects, and have a material adverse effect on the Company's business, financial condition and results of operations.

To mitigate this risk, the Company takes on an active role as project managers in supervising each phase of the construction of its projects. The Company also plans to put up its own construction arm in the future.

Construction defects and other building-related claims may be asserted against the Company, and the Company may be subject to liability for such claims.

Philippine law provides that property developers warrant the structural integrity of condominium units, buildings, resorts, and other structures designed or built by them for a period of 15 years from the date of completion. The Company may also be held responsible for hidden (i.e., latent or non-observable) defects in a housing unit sold by it when such hidden defects render the unit unfit for the use for which it was intended or when its fitness for such use is diminished to the extent that the buyer would not have acquired it or would have paid a lower price had the buyer been aware of the hidden defect. This

warranty may be enforced within six months from the delivery of the unit to the buyer. In addition, Presidential Decree No. 1096, or the National Building Code of the Philippines (the “**Building Code**”), governs, among others, the design and construction of buildings, as well as certain requirements and standards that must be complied with. The Company or its officials may be held liable for administrative fines or criminal penalties in case of any violation of the Building Code.

There can be no assurance that the Company will not be held liable for damages, the cost of repairs, and/or the expense of litigation surrounding possible claims, or that claims will not arise, out of uninsurable events, such as landslides or earthquakes, or circumstances not covered by the Company’s insurance and not subject to effective indemnification agreements with the Company’s contractors. Neither can there be any assurance that the contractors hired by the Company will be able to either correct any such defects or indemnify the Company for costs incurred by the Company to correct such defects. In the event a substantial number of claims arising from structural or construction defects arise, this could have a material adverse effect on the Company’s reputation and on its business, financial condition and results of operations.

The Company has inherent strengths in engineering, project planning and execution. While the Company outsources the construction of its projects to third-party contractors, CLI actively takes charge of the technical planning, engineering, and project management of its developments. Part of its land acquisition process involves the determination of the technical suitability of potential properties to be acquired for its projects. This includes the determination of any technical hindrances, via technical surveys, and the determination of applicable local government requirements, which may impair any development plans and such development’s quality. Due to the Company’s technical strengths and its strict adherence to its own high development standards and the requirements of the Building Code, it is able to properly control, and assure itself of, the quality and timely completion of its projects.

The Company relies on its key executives and officers and the members of the Soberano Family to manage business operations.

The Company’s key executives and management have contributed to its success with their combined knowledge, experience, business relationship and expertise in the industry. Key executives and members of management of the Company include members of the Soberano family.

Aside from occupying key executive positions in the business, the members of the Soberano family also occupy key executive positions in the Company’s Subsidiaries, joint venture companies and/or affiliates. Jose R. Soberano III is the chairman and president of A.S. Fortuna Property Ventures, Inc., Cebu Landmasters Property Management, Inc., and CLI Premier Hotels Intl., Inc., wholly owned subsidiaries, as well as El Camino Developers Cebu, Inc., CLI-LITE Panglao Inc., Mivesa Garden Residences, Inc., Cebu Homegrown Developers, Inc., Cebu Landmasters Foundation, Inc. and Ming- Mori Development Corporation which are joint venture affiliates of the Company. He also serves as Chairman of the Board of BL CBP Ventures, Inc., Yuson Excellence Soberano, Inc., Yuson Huang Excellence Soberano, Inc., YHEST Realty and Development Corporation, CCLI Premier Hotels, Inc., YHES Premier Hotels, Inc., Cebu BL-Ramos Ventures, Inc., GGTT Realty Corporation, Icom Air Corporation, Sugbo Prime Estates which are all joint venture affiliates of the Company, and a Director of another corporation, Magspeak Nature Park, Inc. Meanwhile, Jose Franco B. Soberano is concurrently a Director and Corporate Secretary of CLI Premier Hotels Intl., Inc., A.S. Fortuna Property Ventures, Inc., Cebu Landmasters Property Management, Inc., and Ming-Mori Development Corporation, while Ma. Rosario B. Soberano serves as Director and Treasurer of CLI Premier Hotels Intl., Inc., A.S. Fortuna Property Ventures, Inc., Cebu Landmasters Property Management, Inc., Yuson Excellence Soberano, BL CBP Ventures, Inc., El Camino Developers Cebu, Inc., Yuson Huang Excellence Soberano, Inc., YHEST Realty and Development Corporation, CCLI Premier Hotels, Inc., YHES Premier Hotels, Inc., Cebu BL-Ramos Ventures, Inc., and Ming-Mori Development Corporation. All three key executives sit on the board of the parent company, AB Soberano.

There is no assurance that these other roles will not require significant time and commitment from the members of the Soberano Family which might reduce their time devoted to their current roles in the Company’s business. If the Company loses the services of any such individuals or is unable to fill any other vacant key executive or management positions with qualified candidates, the business and operations of the Company may be adversely affected.

To minimize the risk, the Company maintains a competent and dynamic team of professional executives and managers engaged in the management of the business. Efforts to professionalize the Company over the last 20 years is evident as the Company has grown from two employees to a dynamic team of 914 employees instilled with the Company's brand of professional work ethics and strong corporate values as of December 31, 2023. The Company believes it maintains a positive and harmonious working relationship with its executives, members of senior management and other key officers.

It is possible that lawsuits might be filed against members of the Soberano Family and any such lawsuits might affect the Issuer's or any of its Subsidiaries' business reputation.

The Company is a party to a number of related party transactions.

As of the date of this Prospectus, the Company has outstanding related-party balances to and from its joint ventures, Homeowners' Associations and Condominium Corporations ("**HACCs**"), and with key management personnel. These transactions are described under "*Related Party Transactions*" and the notes to the Company's audited consolidated financial statements appearing elsewhere in this Prospectus. The Company expects that it will continue to enter into transactions with companies directly or indirectly controlled by or associated with the CLI's majority shareholders.

These transactions may involve potential conflicts of interest between the Company and the CLI majority shareholders in a number of other areas relating to its businesses, including:

- major business combinations involving the Company and/or its affiliates;
- plans to develop the respective businesses of the Company and/or its affiliates; and
- business opportunities that may be attractive to the CLI majority shareholders and the Company.

The Company can provide no assurance that its related-party transactions will not have a material adverse effect on its business or results of operations.

To mitigate this risk, the Company enters into related-party transactions at an arms-length basis. Moreover, CLI directors and key management personnel are mandated to abstain and/or inhibit themselves from participating in discussions on a particular agenda when they have conflict of interest. The Board RPT Committee, during its regular committee meetings, takes up and engages in the review and evaluation of related party transactions, including determination and resolution of potential conflicts of interest, if any. Quarterly RPT reports are presented by CLI's CFO and Compliance Officer, for information (if not breaching the RPT thresholds) and/or pre-approval (if breaching any of the RPT thresholds) of the Board RPT Committee. Matters approved by the RPT Committee are then endorsed for subsequent approval and/or ratification of CLI's Board of Directors.

CLI is fully compliant with the requirements under RR No. 19-2020 and RR No. 34-2020, including the submission of duly executed BIR Form 1709 (RPT Form) as an integral attachment to its AITRs. Further thereto, CLI has engaged the services of third-party service providers for the drafting and execution of the requisite Transfer Pricing Documentation (TPD). These supplement the already robust RPT and Transfer Pricing policies and procedures of CLI, as spearheaded by its RPT Committee and Board of Directors

The Company may be involved in legal and other proceedings arising out of its operations from time to time.

The Company may, in the future, be involved in disputes involving the construction and operation of its properties such as contractual disputes with contractors, suppliers, and homeowners, or disputes involving property damage or personal liability claims from time to time. If these disputes occur, it may result in delays in the Company's project development schedule, incurring substantial costs, and the diversion of the Company's resources and management's attention. In the course of its operations, the Company may also have disagreements with regulatory bodies, or local government units responsible for issuing the necessary permits or licenses for the Company's business, which may subject it to administrative proceedings and unfavorable decisions or result in fines or penalties and/or delay its projects. Should any of these occur, the Company's business, financial condition, results of operations and cash flows could be materially and adversely affected.

To mitigate the risk, the Company strives to maintain good relationships with customers, suppliers, contractors, regulators, and other parties it regularly deals with. This is evident in the fact that, at present, the Company is not involved in any material litigation. The Company also endeavors to amicably settle legal proceedings, resort to alternative methods of dispute resolution, and exhaust all legal remedies available.

There have been no material litigations and cases wherein the Company and/or its Subsidiaries and/or associates are involved in which a ruling did not favor the Company and, a result of such ruling, caused a material adverse effect on the Company's or such Subsidiary's financial condition and operations.

The Company may default in its financial obligations and other obligations under contracts to which it is a party, and a default in one may trigger other defaults and result in the acceleration of its obligations under such contracts.

The Company enters into material contracts with several parties in its ordinary course of business. These include construction contracts, supply contracts, bank loans, capital market transactions such as corporate notes, among others. These contracts contain several provisions defining the Company's obligations as a party to these agreements, its representations and warranties, agreed covenants, events of default, among other things. The breach of these terms, if not remedied or cured, may trigger defaults or accelerations of obligations.

CLI is also subject to certain financial covenants under its loan agreements, among other covenants. Failure to comply with financial and other covenants could constitute an event of default, if irremediable or remediable but not remedied during the applicable grace period, if any. Upon the occurrence of an event of default, lenders may terminate the commitment, accelerate debt repayment, immediately apply set-off against any of the borrowers' assets held by the lenders in deposit or take other necessary and proper actions to protect their interests.

To mitigate this risk, the Company practices constant, and continuous vigilance up and down the organization to comply with its obligations, financial and otherwise. Specifically, for CLI's financial and other obligations, whose non-compliance may trigger a default, CLI regularly tests for compliance using targeted KPIs, proactively manages its operations to monitor the trend and movements of such KPIs, and makes adjustments as necessary to its strategies to ensure conservative compliance on these conditions. CLI has also historically taken a prudent stance in managing its debt obligations by ensuring that any corporate act, whether or not performed in the ordinary course of business, does not violate any existing debt covenants. In the event that any significant corporate act or business transaction is seen to potentially affect its debt covenants that would lead to accelerating the payment of existing debt, CLI endeavors to obtain the necessary waivers in accordance with relevant debt agreement. CLI also endeavors to negotiate and agree on uniform sets of terms, covenants, events of default, and representations and warranties across all its material contracts and agreements in order to be efficient in its monitoring of such compliances.

The Company works with various joint venture partners for some of its projects, whose interest may differ from that of the Company's.

As part of its land acquisition and development strategy, the Company has entered into joint ventures, and may continue to do so for its future projects and undertakings.

The Company and its joint venture partners share in the project in proportion to their respective contribution, and the Company is typically appointed as project developer and project manager having direct control and primary supervision over the conduct, management, and operations of the project.

Because the joint venture partners or landowners may have economic or business interests that differ from the Company, the joint venture acquisitions and project developments involve additional risks. For example, joint venture partners or landowners may fail to meet their obligations and dispute the distribution of their joint venture shares or the management and supervision exercised by the Company over the project. In cases where joint venture partners contribute the land for the project, titles to the property in the name of joint venture landowners may still be contested by third parties which will affect the right to possess and develop such land. Any of the foregoing could have a material adverse effect on the Company's business, financial condition, and the results of its operations.

To reduce this risk, the Company conducts due diligence of its joint venture partners, and exclusively serves as the developer and project manager in all its joint venture undertakings.

The Company is exposed to information security or cybersecurity risk as it relies on technology which posts risks on data security, confidentiality, and availability.

Information Technology (“IT”) is always evolving and has affected everyone with the way things are done. With these changes, cybersecurity risks have also emerged. The Company depends on a variety of automated systems to operate its business. Although the Company has implemented various IT-related improvement programs and installed new systems over the years, due to the continuously evolving nature of IT systems or IT issues, certain automated systems of the Company are or may be relatively outdated and less integrated than those of some companies of similar scale in the Philippines and abroad. As a result, there can be no assurance that the Company’s information systems will achieve their intended benefits within the anticipated time frame efficiently or at all. Moreover, there can be no assurance that any new systems of the Company will not be rendered outdated in the near future due to rapid technological advancements.

Despite security measures, the Company’s systems are potentially exposed to physical or electronic break-ins, computer viruses, piracy, hacking, phishing attacks, and other similar disruptive problems. Furthermore, the Company’s operating activities could be subject to risks caused by misappropriation, misuse, leakage, falsification or accidental release or loss of information maintained in its information technology systems and those of its third-party vendors, including customer, personnel, and vendor data.

The Company involves third parties to assist internal developers in the maintenance and development of information systems and software used during its day-to-day operations. If these third parties experience difficulties in meeting the Company’s requirements or standards, it could have a negative impact to the Company’s reputation or make it difficult for the Company to operate some aspects of its businesses. In certain cases, the Company has developed, and intends to develop, automated systems to replace third-party systems that the Company has used, and uses, in its operations.

Advances in computer capabilities, new discoveries in the field of cryptography or other events or developments could result in compromises or breaches of the applicable security systems and personal data stored in these systems. Anyone who circumvents the security measures on these systems could misappropriate the Company’s confidential information or cause interruptions in its services or operations. The internet is a public network and data is sent over this network from many sources. In the past, computer viruses or software programs that disable or impair computers have been distributed and have rapidly spread over the internet. Computer viruses could be introduced into the Company’s systems, or those of the third-party systems, which could disrupt the Company’s operations or make its systems inaccessible to the third parties. The Company may be required to expend significant capital and other resources to protect against the threat of security breaches or to alleviate problems caused by breaches. The Company’s security measures may be inadequate to prevent security breaches, and its business operations would be negatively impacted if security breaches were not prevented.

To mitigate this risk, the Company implements IT and security protocols to ensure that its systems are protected and functioning at all times. The Company also commits to protect and manage the security of confidential and sensitive information with the development of policies on compliance, IT security and data privacy. These have been put in place to mitigate risks by providing standard procedures and guidelines to ensure the protection of the Company’s assets and information and the ability to respond and recover quickly. Improvements to system controls and streamlining of reports are also being implemented, with ongoing system integrations being done for data accuracy improvement.

In addition, the Company aligns with all relevant national and local laws, regulations, and best business practices. A priority area, in line with the Data Privacy Act, is having a Breach and Security Incident Response Plan that addresses the protection of the company’s business, stakeholders, critical systems, sensitive information, and network. The plan includes a breach response team, measures on prevention and minimizing occurrence of breach and security incidents, procedure on recovery and restoration of critical data; notification protocol, and documentation and reporting of breaches or security incidents.

The Company is exposed to asset stranding risk.

The Company's unsold inventory and landbank could become obsolete and stranded, due to the changing market dynamics of real estate. The Company continues to develop real estate projects that are projected to have a very strong demand upon launch and up to turnover.

Unexpected and unpredictable "black swan" events, such as COVID-19, could render these assets to not be as saleable or attractive to the market as the Company has initially projected them to be. A good example is office spaces, where the market outlook turned from very strong demand pre-COVID to a very weak demand during COVID. Industries have also shifted to a more flexible and mobile work arrangements that may lessen the need for traditional office spaces.

To navigate this risk, the Company conducts market surveys to gauge the demand for potential project launches, pre-sells its projects to lock in sales and not have a long gap between design and project concept versus market take-up, and proactively adjusts pricing, selling, and even ownership strategies for unsold units.

Global initiatives to transition to a low-carbon economy pose a risk that previously valuable assets will lose their value prematurely. These assets are typically those used in relation to carbon-intensive industries. Given the nature of its real estate business, the Company believes that there is a very low risk that any of its material assets will become stranded as a result of a transition to a low-carbon economy. Nonetheless, the Company actively monitors relevant global and local developments, technological innovations, regulations, and stakeholder perceptions to anticipate any transition risk to the Company. Where such risks emerge, the Company will adopt appropriate strategies to ensure that they are adequately managed.

The Company is also exposed to emerging risks.

Embedded in the risk management process is the continuous identification and monitoring of emerging risks. These are newly developing risks that cannot yet be fully assessed (due to high uncertainty) but could have a major impact on the organization in the future. These potential risks could be triggered by the fast-changing landscapes in the political, economic, social, technological, environmental, and legal facets surrounding the Company's operations.

Such risks are captured and validated in the Company's annual risk assessment process and during the environmental scans of the strategic planning and annual organizational planning process of the Company and are subjected to further study by subject matter experts. These emerging risks are reported and discussed as part of the Group Risk Management Council and Board Risk and Reputation Management Committee regular agenda.

RISKS RELATED TO THE PHILIPPINES

Economic Considerations

In the past, the Philippines has experienced periods of slow or negative growth, high inflation, significant devaluation of the Philippine currency, imposition of exchange controls, debt restructuring and electricity shortages and blackouts.

The regional Asian financial crisis in 1997 resulted in, among others, the depreciation of the Philippine peso, higher interest rates, slower growth, and a reduction in the country's credit ratings. Since the Asian financial crisis, the country experienced a ballooning budget deficit, volatile exchange rates and a relatively weak banking sector.

To mitigate the abovementioned risks, CLI shall continue to adopt what it considers conservative financial and operational controls and policies within the context of the prevailing business and economic environment, taking into consideration the interests of its customers, stakeholders, and creditors.

COVID-19 Pandemic

The Philippines has been one of the countries greatly affected by the COVID-19 pandemic. It brought a record-breaking economic contraction and high unemployment rates, fueling economic uncertainties. While the Company has observed a drop in takeouts in 2020 by 11% from 2019, it has quickly recovered in 2021 by 47% from the previous year. The Company's reservation sales have been steadily rising especially at the height of the pandemic.

The increased rate of work from home arrangement post pandemic influenced the demand for housing especially in the economic and mid-level market. "Nesting at home" encouraged young professionals, individuals, and families to consider investing in comfortable homes and good neighborhoods that are conducive for working and learning. Supporting this observation is the study released by McKinsey & Company entitled "The consumer demand recovery and lasting effects of COVID-19" dated March 17, 2021, that indicates that some behaviors formed during the pandemic will likely become the new normal like the work-from-home arrangement.

Amidst the threat of the pandemic to health and safety, the Company did not slow down all its construction works during the pandemic. The Company implemented strict health protocols for all employees in the field and these were strictly observed. Although they did not have a major effect on the project quality and timelines, the health threats affected the delivery and issuance of government-related permits and licenses. With the localized lockdowns and shortened workdays in government agencies, the company had to contend with and make necessary adjustments in timeline expectations.

On May 5, 2023, the World Health Organization ("**WHO**") declared the end of COVID-19 as a global health emergency. Notwithstanding such declaration by the WHO that COVID-19 is no longer a global health emergency, the Department of Health issued on May 9, 2023 a warning to the public that the pandemic is not yet over.

On July 21, 2023, the President of the Philippines issued Presidential Proclamation No. 297 effectively lifting the State of Public Health Emergency throughout the Philippines brought about by the COVID-19 pandemic.

Subsequently, on September 20, 2023, the Department of Labor and Employment issued Labor Advisory No. 23, Series of 2023 ("**LA 23-23**"), containing the Guidelines on Minimum Public Health Standards in Workplaces Relative to the Lifting of the State of Public Health Emergency. The same covers all those in the private sector and emphasizes the shared responsibility of both employers and employees in ensuring safe and healthy working conditions. LA 23-23 further mandates the Safety and Health Committee to review, evaluate and update their occupational safety and health programs.

Significantly, the Advisory expressly revoked prior labor advisories that were effective during the State of Public Health Emergency, which included Labor Advisory No. 9, Series of 2020 and Labor Advisory No. 17, Series of 2020, pertaining to the guidelines on the implementation of flexible work arrangements and employment preservation upon the resumption of business operations. However, employers may still be guided by these permissible work arrangements, subject to strict compliance with labor laws.

The Company continues to monitor and evaluate developments relating to COVID-19 or any public health epidemic or pandemic to develop contingency measures to mitigate the risk impact to its business.

Political Considerations

The Philippines has from time to time experienced severe political and social instability, including acts of political violence. For example, in 2001, allegations of corruption against former President Joseph Estrada resulted in protracted televised impeachment proceedings against him. These proceedings were followed by widespread street demonstrations and a public withdrawal of support for Estrada by the military that eventually forced Estrada to resign. On July 27, 2003, over 270 military officers and soldiers conducted an unsuccessful *coup d'état* against Estrada's successor, President Gloria Macapagal-Arroyo, due to allegations of corruption. After the May 2004 elections, President Arroyo was re-elected, but persistent accusations of corruption and electoral fraud were made against Arroyo during

her second term. On February 24, 2006, another attempted *coup d'état* led President Arroyo to issue Proclamation 1017 (Proclamation declaring a State of National Emergency), which was criticized as a virtual declaration of martial law and portions of it were later declared unconstitutional by the Supreme Court of the Philippines. On November 29, 2007, Senator Antonio Trillanes IV, a leader of the 2003 *coup d'état* who was elected to the Senate while in jail, led an armed occupation by military officers and soldiers of a luxury hotel in the Makati financial district and publicly called for President Arroyo's ouster. Senator Trillanes and his troops later surrendered.

On November 23, 2009, in the southern island of Mindanao's Maguindanao province, approximately 100 armed men allegedly affiliated with the Ampatuan political family murdered 58 persons, including members of the Mangudadatu family (the Ampatuans' political rivals in the province), lawyers, journalists and aides accompanying them, and motorists whose vehicles were behind the Mangudadatus' vehicles. This was the deadliest incident of political violence and of violence directed at journalists in recent history and President Arroyo sent hundreds of troops to and declared martial law over Maguindanao after the incident, although martial law has subsequently been lifted. On December 12, 2011, the Philippine House of Representatives initiated impeachment proceedings against Renato Corona, Chief Justice of the Supreme Court of the Philippines. The impeachment complaint accused Corona of improperly issuing decisions that favored former President Arroyo, as well as failure to disclose certain properties, in violation of rules applicable to all public employees and officials. The trial of Chief Justice Corona began in January 2012. On May 29, 2012, the impeachment court found Corona guilty of failing to disclose to the public his statement of assets, liabilities and net worth and removed Corona from his position as Chief Justice of the Supreme Court of the Philippines.

Moreover, since the beginning of the term of the former President Rodrigo R. Duterte, thousands were reportedly killed in his so-called war on drugs. These drug-related killings have been subject to legislative inquiries. As a result of the legislative inquiries, the Senate Committees on Justice and Human Right and on Public Order and Dangerous Drugs released a Joint Committee Report No. 18 on December 7, 2017, raising standards of accountability while expressing support for the war against illegal drugs and criminality within boundaries of the law.

In 2018, the Supreme Court, in a historic first, ousted Chief Justice Maria Lourdes Sereno as a result of a *quo warranto* petition filed by the Solicitor General. The Supreme Court held that Chief Justice Sereno failed to regularly file her Statements of Assets, Liabilities, and Net Worth in violation of Constitutional and statutory requirements, thus being ineligible to be Chief Justice for lack of integrity. The ousted Chief Justice was widely perceived to have been hostile to the Duterte administration.

In May 2022, Ferdinand "Bongbong" Marcos, Jr. was elected President of the Philippines in a landslide victory where he obtained 31.6 million votes. Meanwhile, Sara Duterte, daughter of former President Rodrigo Duterte, was elected Vice-President of the Philippines after garnering 32.20 million votes. The election of Bongbong Marcos comes 36 years after the 1986 People Power Revolution that ousted his father and late strongman Ferdinand Marcos and drove the Marcos family into exile. Despite his electoral win, a petition seeking to disqualify Bongbong Marcos as President has been filed before the Supreme Court.

There is no guarantee that future events will not cause political instability in the Philippines. Such instability may disrupt the country and its economy and could materially and adversely affect the business, prospects, financial condition, and financial results of operations of the Company.

To mitigate this risk, CLI has always remained politically neutral. It has been business as usual for the Company because most, if not all, elected leaders – local or national – have supported housing as a project.

Terrorist acts, crimes, natural disasters and outbreaks of infectious diseases or fears of such occurrences in the Philippines

The Philippines has been subject to a number of terrorist attacks in the past several years. The Philippine Army has been in conflict with the Abu Sayyaf organization which has been responsible for kidnapping and terrorist activities in the Philippines and is alleged to have ties to the Al-Qaeda terrorist network. There have also been sporadic bombings and prominent kidnappings and slayings of foreigners in the Philippines, including the hijacking of a tourist bus carrying Hong Kong tourists that resulted in the deaths

of several passengers. On September 2, 2016, an explosion rocked a night market in Davao City, leading to the death of at least 14 people and injuries to over 60 people. As a result of the bombing, the former President Duterte declared a state of lawlessness in the country. The most recent terrorist activity occurred on December 28, 2016 where two explosions occurred during a town fiesta in Hilongos, Leyte, leaving at least 34 people injured.

There can be no assurance that the Philippines will not be subject to further acts of terrorism and violence in the future. Terrorist attacks have, in the past, had a material adverse effect on investment and confidence in, and the performance of, the Philippine economy and, in turn, the Company's business. The Company's current insurance policies do not cover terrorist attacks. Any terrorist attack or violent acts arising from, and leading to, instability and unrest, could cause interruption to parts of the Company's businesses and materially and adversely affect the Company's financial condition, results of operations and prospects.

The Philippines has experienced natural disasters over the years. A number of climate experts believe that climate change is affecting the intensity and severity of these natural calamities. The potential future effects of global climate change may include longer periods of drought in some regions and an increase in the number, duration and intensity of tropical storms in the country. Authorities may not be prepared or equipped to respond to such disasters.

On September 26, 2009, Typhoon Ketsana (Ondoy) resulted in 341.30 millimeters of rainfall in six hours, causing massive flooding that submerged several areas of Metro Manila and adjacent provinces. The typhoon caused 464 deaths and approximately ₱86.00 billion in property damage. On August 6, 2012, a monsoon hit Metro Manila and other nearby provinces which also caused severe flooding and landslides. Other calamities in recent years include unusually strong earthquakes and outbreaks of infectious diseases such as H1N1 influenza (commonly known as swine flu), as well as the COVID-19 pandemic.

In December 2011, Typhoon Washi (Sendong) caused massive flooding in the southern Philippine city of Cagayan de Oro, claiming thousands of lives and displacing tens of thousands of residents. On December 3, 2012, Typhoon Bopha struck the southern island of Mindanao as a Category 5 typhoon, triggering widespread flash flooding and landslides throughout the region. Typhoon Bopha killed over 1,000 people and caused an estimated ₱42.00 billion in property damage.

In October 2013, an earthquake occurred in Central Visayas, Philippines. The magnitude of the earthquake was recorded at moment magnitude (Mw) 7.2 at the epicenter, which was located six kilometers southwest of Sagbayan town, at a depth of 12 kilometers. The seismic event affected the whole Central Visayas region, particularly Bohol and Cebu. According to official reports by the National Disaster Risk Reduction and Management Council, 198 people were reported dead, 11 were missing, and 651 were injured as a result of the earthquake, making it the deadliest earthquake in the Philippines in 23 years. In all, more than 53,000 structures were damaged or destroyed, including commercial buildings, malls, public edifices, hotels and churches. On February 10, 2017, a magnitude 6.7 earthquake hit Surigao City, Surigao del Norte in Northern Mindanao. Buildings, roads, and bridges near the epicenter area were damaged and six people were reported dead, and over a hundred injured.

In addition, the central Philippines experienced a severe typhoon, Typhoon Haiyan (Yolanda), in November 2013 which caused extensive damage to infrastructure and properties, claimed 6,268 lives and displaced thousands of residents.

In January 2020, Taal Volcano erupted and caused millions of pesos worth of damage and displaced thousands of families.

In December 2021, Super Typhoon Odette brought about heavy rains and landslides in several provinces in the Visayas and Mindanao, causing ₱47.00 billion worth of damage and affecting hundreds of thousands of families.

It is not possible to predict the extent to which the Company's business will be affected by any future occurrences of natural calamities such as those described above or fears that such occurrences will take place, and there can be no assurance that any disruption to its business will not be protracted, that property will not be damaged and that any such damage will be completely covered by insurance or at

all. Any such occurrence may disrupt the operations of the Company's business and could materially and adversely affect their business, financial condition, and results of operations. Further, any such occurrences may also destabilize the Philippine economy and business environment, which could also materially and adversely affect the Company's financial position and results of operations.

To mitigate this risk, CLI has a risk and disaster team in place (*i.e.*, fire marshals and dedicated safety officers). CLI's accounting data is already in the cloud. CLI has back-up systems set up in several offices where it may transfer if warranted by the circumstances.

RISKS RELATING TO THE OFFER SHARES

The Offer Shares may not be a suitable investment for all investors.

Each potential investor of the Offer Shares must determine the suitability of that investment in light of its/his/her own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the Offer Shares, the merits and risks of investing in the Offer Shares and the information contained in this Prospectus;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its/his/her particular financial situation, an investment in the Offer Shares and the impact the Offer Shares will have on its overall investment portfolio;
- have sufficient financial resources and liquidity to bear all of the risks of an investment in the Offer Shares, including where the currency for principal or dividend payments is different from the potential investor's currency;
- understand thoroughly the terms of the Offer Shares and be familiar with the behavior of any relevant financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate, foreign exchange rate, and other factors that may affect its/his/her investment and its/his/her ability to bear the applicable risks.

The Offer Shares are perpetual securities and investors have no right to require redemption.

The Offer Shares are perpetual and have no fixed final maturity date. Holders have no right to require the Company to redeem the Offer Shares at any time and they can only be disposed of by sale in the secondary market. Holders who wish to sell their Offer Shares may be unable to do so at a price at or above the amount they have paid for them, or at all, if insufficient liquidity exists in the market for the Offer Shares. Therefore, holders of the Offer Shares should be aware that they may be required to bear the financial risks of an investment in the Offer Shares for an indefinite period of time.

The Offer Shares are subordinated obligations.

The obligations of the Company under the Offer Shares will constitute the unsecured and subordinated obligations of the Company. In the event of the winding-up of the Company, the rights and claims of holders of the Offer Shares will (subject to and to the extent permitted by applicable law) rank senior to the holders of the common shares of the Company and *pari passu* with each other, but junior to the claims of senior creditors.

In the event of a winding-up of the Company, there is a substantial risk that an investor in the Offer Shares will lose all of its investments and will not receive a full return of the principal amount or any unpaid amounts due under the Offer Shares.

There are no terms in the Offer Shares that limit the Company's ability to incur additional indebtedness, including indebtedness that ranks senior to or *pari passu* with the Offer Shares.

There may be insufficient distributions upon liquidation.

Under Philippine law, upon any voluntary or involuntary dissolution, liquidation or winding up of the Company, holders of the Offer Shares will be entitled only to the available assets of the Company

remaining after the indebtedness of the Company is satisfied. If any such assets are insufficient to pay the amounts due on the Offer Shares, then the holders of the Offer Shares shall share ratably in any such distribution of assets in proportion to the amounts to which they would otherwise be respectively entitled. In the event of liquidation or winding-up, the unsubordinated obligations of the Company shall be preferred over the claims of holders of the Offer Shares in respect of the Offer Shares, which Offer Shares shall rank *pari passu* with each other.

Holders may not receive dividend payments if the Company elects to defer dividend payments.

Cash dividends on the Offer Shares may not be paid in full, or at all. Under the terms and conditions governing the Offer Shares, the Company may pay no dividends or less than full dividends on a Dividend Payment Date. Holders of the Offer Shares will not receive dividends on a Dividend Payment Date or for any period during which the Company does not have retained earnings out of which to pay dividends.

If dividends on the Offer Shares are not paid in full, or at all, the Offer Shares may trade at a lower price than they might otherwise have traded if dividends had been paid. The sale of the Offer Shares during such a period by a holder of the Offer Shares may result in such holder receiving lower returns on the investment than a holder who continues to hold the Offer Shares until dividend payments resume. In addition, because of the dividend limitations, the market price for the Offer Shares may be more volatile than that of other securities that do not have these limitations.

The Company's various loan facilities have covenants that prevent a dividend payment if there is an event of default.

The ability of the Company to make payments under the Offer Shares is limited by the terms of the Company's other indebtedness.

The Company has and will continue to have a certain amount of outstanding indebtedness. The current terms of the Company's financing agreements contain provisions that could limit the ability of the Company to make payments on the Offer Shares. Also, the Company may, in the future, directly or indirectly through its Subsidiaries, enter into other financing agreements which may restrict or prohibit the ability of the Company to make payments on the Offer Shares. There can be no assurance that existing or future financing arrangements will not adversely affect the Company's ability to make payments on the Offer Shares.

The market price of the Offer Shares may be volatile, which may result in a decline in the market value of investments of the investors.

The market price of the Offer Shares could be affected by several factors, including: (i) general market, political and economic conditions; (ii) changes in earnings estimates and recommendations by financial analysts; (iii) changes in market valuations of listed stocks in general and other retail stocks in particular; (iv) the market value of the Company's assets; (v) changes to Government policy, legislation or regulations; and (vi) general operational and business risks. The price of securities can and does fluctuate, and any individual security may experience upward or downward movements, and may even become valueless. There is an inherent risk that losses may be incurred rather than profit made as a result of buying and selling securities.

In addition, many of the risks described elsewhere in this Prospectus could materially and adversely affect the market price of the Offer Shares.

In part as a result of the global economic downturn, the global equity markets have experienced price and volume volatility that has affected the share prices of many companies. Share prices for many companies have experienced wide fluctuations that have often been unrelated to the operating performance of those companies. Fluctuations such as these may adversely affect the market price of the Offer Shares.

There is no guarantee of the existence of active and liquid market for the Offer Shares.

The Company cannot guarantee that the market for the Offer Shares will always be active or liquid upon their listing on the PSE, considering the unpredictability and relative lack of stability in the Philippine

securities markets. Further, Philippine securities markets are substantially less liquid compared to major securities markets in other jurisdictions.

Moreover, there is no obligation on the part of the Company and the Joint Lead Underwriters to create a trading market for the Offer Shares. Should they opt to create such a trading market, the same will be subject to limits imposed by applicable law and runs the risk of termination without notice. It is also for this reason that the Company cannot guarantee the existence of an active or liquid trading market.

Consequently, a holder of the Offer Shares may be constrained either to hold his Offer Shares for an indefinite period of time or to trade and sell them at a loss (i.e., less than the Offer Price).

Holders of the Offer Shares may not be able to reinvest at a similar return on investment.

On any Optional Redemption Date, as applicable, or at any time a Tax Event or an Accounting Event occurs, the Company may redeem the Offer Shares for cash at the redemption price. See “*Terms of the Offer*” and “*Description of the Offer Shares*” sections of this Prospectus. At the time of redemption, prevailing rates may be lower than at the time of the issuance of the Offer Shares and, consequently, the holders of the Offer Shares may not be able to reinvest the proceeds at a comparable yield or purchase securities otherwise comparable to the Offer Shares.

The Offer Shares have no voting rights.

Holders of Offer Shares will not be entitled to elect the Directors of the Company. Except as provided by Philippine law, holders of Offer Shares will have no voting rights. See “*Terms of the Offer*” and “*Description of the Offer Shares*” sections of this Prospectus.

DETERMINATION OF OFFER PRICE

The Offer Price of ₱1,000.00 is at a premium to the Series “A” Preferred Shares’ par value per share of ₱1.00. The Offer Price was arrived at by dividing the desired gross proceeds of approximately ₱3.0 billion (or ₱5.0 billion in the event that the Oversubscription Option is exercised in full) by the target amount of Series “A” Preferred Shares allocated for the Offer.

DILUTION

The Offer Shares will not have any dilutive effect as these are non-voting, non-convertible, and non-participating.

The Offer Shares shall have no voting rights except as specifically provided by the Revised Corporation Code. Thus, holders of Offer Shares shall not be eligible, for example, to vote for or elect the Issuer's Directors or to vote for or against the issuance of a stock dividend. Shareholders, however, may vote on matters which the Revised Corporation Code considers significant corporate acts that may be implemented only with the approval of shareholders, including those holding shares denominated as non-voting in the articles of incorporation.

For the Offer of the Offer Shares, the Joint Lead Underwriters will, receive a fee of 0.45% of the gross proceeds of the Offer, inclusive of the amounts to be paid to the Selling Agents other than the PSE Trading Participants, if applicable, and exclusive of gross receipts tax and the amounts to be paid to the PSE Trading Participants.

After the commencement of the Offer Period, the Offer shall not be withdrawn, cancelled, suspended or terminated solely by reason of the (i) inability of the Issuer or the Joint Lead Underwriters to sell or market the Offer Shares, or (ii) the refusal or failure by the Issuer, the Joint Lead Underwriters, or any other entity or person to comply with any undertaking or commitment to take up any Offer Shares remaining after the Offer Period.

There is no arrangement for the Joint Lead Underwriters to return any unsold Offer Shares to CLI. The Underwriting Agreement may be terminated in certain circumstances prior to payment being made to CLI of the net proceeds of the Offer Shares.

For the purpose of complying with their respective commitments under the Underwriting Agreement, the Joint Lead Underwriters may, under such terms and conditions not inconsistent with the provisions of the Underwriting Agreement, particularly the underwriting commitment of the Joint Lead Underwriters,

enter into agreements with and may appoint additional selling agents other than the Trading Participants for the sale and distribution to the public of the Offer Shares; provided, that the Joint Lead Underwriters shall remain solely responsible to the Issuer in respect of their obligations under the Underwriting Agreement entered into by them with the Issuer, and except as otherwise provided in the Underwriting Agreement, the Issuer shall not be bound by any of the terms and conditions of any agreements entered into by the Joint Lead Underwriters with such selling agents.

Other than the Joint Lead Underwriters and the Selling Agents, no finders or broker-dealers were engaged by the Issuer or the Joint Lead Underwriters in connection with the sale of the Offer Shares. The Trading Participants Offer Shares will be distributed following the procedures indicated in the implementing guidelines for the Offer Shares to be announced in the PSE EDGE by the PSE. Any requests for shares in excess of [4,870] may be satisfied via the reallocation of any Offer Shares not taken up by other Trading Participants. [Nine hundred ninety] residual Offer Shares, and together with any Offer Shares allocated to the PSE Trading Participants but not taken up by them, will be allocated first to the PSE Trading Participants who subscribed to their allotment and indicated additional demand, at the sole discretion of the Joint Lead Underwriters. The obligations of each of the Joint Lead Underwriters will be several, and not solidary, and nothing in the Underwriting Agreement shall be deemed to create a partnership or joint venture between and among any of the Joint Lead Underwriters. Unless otherwise expressly provided in the Underwriting Agreement, the failure by a Joint Lead Underwriter to carry out its obligations thereunder shall neither relieve the other Joint Lead Underwriters of their obligations under the same Underwriting Agreement, nor shall any Joint Lead Underwriter be responsible for the obligation of another Joint Lead Underwriter.

Manner of Distribution

The Joint Lead Underwriters shall, at their discretion, determine the manner by which proposals for subscriptions to, and issuances of, Offer Shares shall be solicited with the primary sale of Offer Shares to be effected only through the Joint Lead Underwriters and the Selling Agents.

Trading Participant Allocation Process

The total number of Series "A" Preferred Shares to be allocated to each participating PSE Trading Participant (each a "**Participating TP**") in accordance with the following process:

- a) If the total number of Trading Participants Offer Shares requested by a Participating TP, based on its firm undertaking to purchase (the "**Firm Undertaking**"), does not exceed the allocation per Trading Participant, the Joint Lead Underwriters and Joint Bookrunners shall fully satisfy the request of such Participating TP. Each Participating TP is assured of not less than the allocation per Trading Participant. The balance, if any, shall be re-distributed among those who have signified a commitment to purchase more than the allocation per Trading Participant in their Firm Undertaking until all the Trading Participants Offer Shares are fully allocated.

- b) If the total number of Trading Participants Offer Shares requested by a Participating TP exceeds the allocation per Trading Participant, additional shares may be sourced from the Trading Participants Offer Shares not taken up by the other Trading Participants. The Joint Lead Underwriters shall allocate the Trading Participants Offer Shares to Participating TPs by: (i) fully satisfying the orders of those Participating TPs who have Firm Undertakings that are less than or equal to the allocation per TP; and (ii) distributing equitably the remaining Trading Participants Offer Shares to other Participating TPs with orders for additional shares, but only up to their respective Firm Undertakings.
- c) In no case shall any Participating TP be awarded more than the Trading Participants Offer Shares indicated in its Firm Undertaking.
- d) If the aggregate number of Trading Participants Offer Shares requested by all Participating TPs is less than the total Series A Preferred Shares allotted for the PSE Trading Participants, the balance shall be returned to the Joint Lead Underwriters and Joint Bookrunners.

and Joint Bookrunners, or any other entity/person to take up any Offer Shares remaining after the Offer Period;

- (f) Any significant, adverse, and unforeseeable change or development in the Issuer's or any of its Subsidiaries' long-term financial condition, assets, liabilities, results of operations, business, properties, or profitability, which renders the Offer Shares unsuitable for offering to the public;

- (k) Any event occurs which makes it impossible for any of the Joint Lead Underwriters and Joint Bookrunners to perform its underwriting obligations due to conditions beyond their control, such as issuance by any court, arbitral tribunal, or government agency which has jurisdiction on the matter of an order restraining or prohibiting any of the Joint Lead Underwriters and Joint Bookrunners, or directing any of the Joint Lead Underwriters and Joint Bookrunners to cease,

from performing its underwriting obligations;

- (n) Any force majeure event, other than the ones enumerated above, that has material and adverse effect on the Issuer's or any of its Subsidiaries' long-term financial condition, assets, liabilities, results of operations, business, properties, or profitability.

The withdrawal of the Offer by the Issuer in respect of the relevant Joint Lead Underwriter shall not affect the rights and obligations of the other Joint Lead Underwriters under the Underwriting Agreement which shall survive such termination in respect of the Joint Issue Manager and/or the relevant Joint Lead Underwriter.

Pursuant to the Underwriting Agreement, the Joint Lead Underwriters, acting upon the vote of the Majority Underwriters, and upon consultation with all the Joint Lead Underwriters, may cancel or terminate its underwriting commitment thereunder by giving written notice to the Issuer, the SEC and the PSE if the Offer Period has already commenced and, prior to the Listing Date of the Offer Shares, if there is a supervening force majeure or fortuitous event, such as those enumerated above.

The obligations of each of the Joint Lead Underwriters and Joint Bookrunner will be several, and not solidary, and nothing in the Underwriting Agreement shall be deemed to create a partnership or joint venture between and among any of the Joint Lead Underwriters. Unless otherwise expressly provided in the Underwriting Agreement, the failure by a Joint Lead Underwriter to carry out its obligations thereunder shall neither relieve the other Joint Lead Underwriters of their obligations under the same Underwriting Agreement, nor shall any Joint Lead Underwriter be responsible for the obligation of another Joint Lead Underwriter.

For the avoidance of doubt, the Offer shall not be withdrawn, cancelled, suspended, or terminated solely by reason of the Issuer's or the Joint Lead Underwriters' inability to sell or market the Offer Shares or refusal or failure to comply with any undertaking or commitment by the Issuer, the Joint Lead Underwriters, or any other entity/person to take up any shares remaining after the Offer Period.

Notwithstanding the acceptance of any Application, the actual issuance of the Offer Shares to an Applicant shall take place only upon the listing of the Offer Shares on the PSE. Subject to the right of the Issuer or the Joint Lead Underwriters to withdraw or cancel the offer and sale of the Offer Shares prior to Listing Date pursuant to this section and the "*Plan of Distribution-- Withdrawal of the Offer*" of this Prospectus, the Issuer and any of its agents involved in the Offer undertake to comply with all conditions that are within the control of the Issuer and any of its agents involved in the Offer, to ensure the listing of the Offer Shares on Listing Date.

Notwithstanding the foregoing, the Issuer and the Joint Lead Underwriters recognize and acknowledge that the PSE, in the exercise of its authority as a self-regulatory organization and further to its mandate to maintain a fair and orderly market, may impose appropriate sanctions and penalties on the Issuer and/or the Joint Lead Underwriters for the cancellation of the Offer if subsequently, the PSE determines that the termination or withdrawal of the Offer, the underwriting commitment or the Underwriting Agreement after the commencement of the Offer Period and prior to the Listing Date was not warranted based on the facts gathered and properly evaluated by PSE and after due and proper proceedings initiated by the PSE not later than five Business Days after termination or withdrawal.

Secondary Market

CLI intends to list the Series "A" Preferred Shares on the Main Board of the PSE. CLI may purchase the Preferred Shares at any time without any obligation to make *pro-rata* purchases of Series "A" Preferred Shares from all holders thereof.

Registry of Shareholders

The Offer Shares will be issued in scripless form through the electronic book-entry system of the appointed Stock Transfer Agent and lodged with the PDTC as depository agent on Listing Date through PSE Trading Participants nominated by the Applicants. For this purpose, Applicants shall indicate in the proper space provided for in the Application to Purchase the name of a PSE Trading Participant under whose name their Offer Shares will be registered.

After Listing Date, shareholders may request the Stock Transfer Agent, through their nominated PSE trading participant, to (a) open a scripless registry account and have their holdings of the Offer Shares registered under their name ("name-on-registry account"), or (b) issue stock certificates evidencing their investment in the Offer Shares. Any expense that will be incurred in relation to such registration or issuance shall be for the account of the requesting shareholder.

Legal title to the Offer Shares will be shown in the Registry of Shareholders which shall be maintained by the Stock Transfer Agent. Without prejudice to its procedure as may be agreed with the Issuer, the Stock Transfer Agent shall send a transaction confirmation advice confirming every receipt or transfer of the Offer Shares that is effected in the Registry of Shareholders (at the cost of the requesting shareholder). The Stock Transfer Agent shall send (at the cost of the Issuer) at least once every year a statement of account to all shareholders named in the Registry of Shareholders, except certificated shareholders and depository participants, confirming the number of shares held by each shareholder on record in the Registry of Shareholders. Such statement of account shall serve as evidence of ownership of the relevant shareholder as of the given date thereof. Any request by shareholders for certifications, reports or other documents from the Stock Transfer Agent, except as provided herein, shall be for the account of the requesting shareholder.

For scripless shares, the maintenance and custody fee payable to the PDTC shall be for the account of the shareholder.

Initial placement of the Offer Shares and subsequent transfers of interests in the Offer Shares shall be subject to normal Philippine selling restrictions for listed securities as may prevail from time to time.

Philippine law does not require transfers of the Offer Shares to be effected on the PSE, but any off-exchange transfers will subject the transferor to a capital gains tax that may be significantly greater than the stock transfer tax applicable to transfers effected on an exchange, and documentary stamp tax. All transfers of shares on the PSE must be effected through a licensed stockbroker in the Philippines, i.e., PSE Trading Participants.

Legal title to the Offer Shares shall pass by endorsement and delivery to the transferee and registration in the Registry of Shareholders to be maintained by the Stock Transfer Agent. Settlement in respect of such transfer or change of title to the Offer Shares, including the settlement of documentary stamp taxes, if any, arising from subsequent transfers, shall be similar to the transfer of title and settlement procedures for listed securities in the PSE.

Additional Discussions

Net proceeds from the Offer will be used by the Issuer directly. All of the projects identified in the table for capital expenditures or project developments are projects directly under the Issuer, the parent entity, and hence, funds intended for such purpose will be used by the Issuer. Moreover, funds intended for general corporate purposes will be used by Issuer. Hence, no funds from the Offer will be infused into a Subsidiary.

The proceeds of the Offer will not be used for land acquisition but for capital expenditures or project developments and for general corporate purposes as indicated above. The parcels of land for the projects identified have been acquired already and are ready for development.

In addition to the net proceeds of this Offer, the Issuer intends to utilize internally generated funds considering that the projected total funding requirement is greater than the net proceeds of the Offer. Internally generated funds may include cash flows generated from operations (such as from monthly buyer collections as well as balance collections being completed for delivery and turnover) and/or availments from credit facilities provided or as may be provided to the Issuer by various financial institutions.

Pending the deployment of the proceeds from the Offer, the Issuer intends to invest such net proceeds in short-term liquid investments including, but not limited to, short-term government securities, bank deposits and money market placement which are expected to earn at prevailing market rates. Moreover, one of the aspects of general corporate purposes is the tactical management of the Issuer's liquidity, which includes cash sweeps, allocation into various cash or cash-equivalent instruments such as money market and time deposit products, allocation into revolving capital lines and other liquidity management actions. In the event such investments should incur losses, any shortfall will be financed from the Issuer's internally generated funds.

None of the proceeds will be used to reimburse any officer, director, employee, or shareholder for service rendered, assets previously transferred, money loaned or advance or otherwise. None of the proceeds shall be likewise used to repay any credit facilities procured from any of the Joint Lead Underwriters or their respective parent banks.

The foregoing discussion represents a best estimate of the use of proceeds of the Offer based on the Issuer's current plans and anticipated expenditures. In the event there is any change in the Issuer's current plans, including force majeure, market conditions, and other circumstances, the Issuer will carefully evaluate the situation and may reallocate the proceeds at the discretion of the Issuer's management, and/or hold such funds in investments, whichever is better for the Company's and its shareholders' interest taken as a whole. The Issuer's cost estimates may also change as plans are developed further. For these reasons, timing and actual use of the net proceeds, and estimates, may vary from the foregoing discussion.

Disclosures on the Use of Proceeds

Any material deviation, reallocation, or adjustment in the planned use of proceeds, as indicated above, will be approved by the Board of Directors of the Issuer and duly disclosed to the SEC and the PSE, in writing, at least 30 days before such deviation, reallocation, or adjustment is implemented. In addition, the Issuer shall submit via the PSE EDGE the following disclosures to ensure transparency in the use of proceeds:

- (a) material disbursements made in connection with the planned use of proceeds from the Offer;

- (b) quarterly progress report on the application of the proceeds from the Offer on or before the first 15 days of the following quarter;
- (c) annual summary of the application of proceeds on or before January 31 of the year following the offering; and
- (d) approval by the Board of Directors of the Issuer of any reallocation of the planned use of proceeds. The actual disbursement or implementation of such reallocation must be disclosed by the Issuer at least 30 days prior to the said actual disbursement or implementation.

The Issuer shall submit a certification by its Treasurer and external auditor on the accuracy of the information reported by the Issuer to the PSE, as well as a detailed explanation for any material variances between the actual disbursements and the planned use of proceeds in the Prospectus, if any, in the Issuer's quarterly and annual reports as required in items (b) and (c) above. Such detailed explanation will state the approval of the Board of Directors as required in item (d) above.

Dividend Policy in Respect of the Offer Shares

Dividend Payment Dates and Dividend Payment Computation

The Offer Shares will, subject to the Dividend Payment Conditions (see below), bear cash dividends based on the Offer Price, payable quarterly in arrears on each Dividend Payment Date (as defined below).

As and if declared by the Issuer in accordance with the terms and conditions of the Offer Shares, dividends will be payable on [July 12], [October 12], [January 12] and [April 12] of each year (each a "**Dividend Payment Date**"), being the last day of each three-month dividend period (a "**Dividend Period**").

If the Dividend Payment Date is not a Business Day, dividends will be paid on the succeeding Business Day, without adjustment as to the amount of dividends to be paid; provided that if the Issue Date is set at a date other than [April 12, 2024], then the Dividend Payment Dates will be automatically adjusted to the numerically corresponding dates at every three months following the actual Issue Date.

Dividends will be calculated on a 30/360-day basis.

Initial Dividend Rate

As and if cash dividends are declared by the Board of Directors, cash dividends on the Series A-1 Preferred Shares and Series A-2 Preferred Shares shall be at the fixed rates of:

- Series A-1 Preferred Shares: [●]%
- Series A-2 Preferred Shares: [●]%

The initial dividend rate (the "**Initial Dividend Rate**") for each subseries will be computed based on the sum of the three-day simple average of the relevant PHP BVAL reference rate plus a credit spread. The credit spread will be determined via a bookbuilding process.

The PHP BVAL reference rates for each subseries shall be as follows:

- Series A-1 Preferred Shares: Four (4)-year PHP BVAL
- Series A-2 Preferred Shares: Seven (7)-year PHP BVAL

“**BVAL**” means the Bloomberg Valuation Service.

Dividend Rate Step-Up

Unless the Offer Shares are redeemed by the Issuer on these dates pursuant to the applicable optional redemption provisions, the Initial Dividend Rate shall be adjusted:

- (i) in respect of the Series A-1 Preferred Shares, on the 4th anniversary of the Listing Date (the “**Series A-1 Step-Up Date**”), and
- (ii) in respect of the Series A-2 Preferred Shares, on the 7th anniversary of the Listing Date (the “**Series A-2 Step-Up Date**”) (each of the Series A-1 Step-Up Date and Series A-2 Step-Up Date, a “**Step-Up Date**”),

respectively as follows:

- (a) for the Series A-1 Preferred Shares, the higher of the (i) Series A-1 Initial Dividend Rate; or (ii) the Series A-1 Step-Up Benchmark Rate (as hereinafter defined) plus 300 basis points; and
- (b) for the Series A-2 Preferred Shares, the higher of the (i) Series A-2 Initial Dividend Rate; or (ii) the Series A-2 Step-Up Benchmark Rate (as hereinafter defined) plus 300 basis points.

Step-Up Benchmark Rate

The “**Step-Up Benchmark Rate**” will be equivalent to as follows:

- (a) for the Series A-1 Preferred Shares, the simple average of the 7-year PHP BVAL reference rate as published on the website of the Philippine Dealing System, or if unavailable, the Philippine Dealing & Exchange Corp. or PDEX page of Bloomberg (or such successor website or page of the publication agent or electronic service provider) for each of the three Business Days immediately preceding and inclusive of the Series A-1 Step-Up Date (the “**Series A-1 Step-Up Benchmark Rate**”); and
- (b) for the Series A-2 Preferred Shares, the simple average of the 15-year PHP BVAL reference rate as published on the website of the Philippine Dealing System, or if unavailable, the Philippine Dealing & Exchange Corp. or PDEX page of Bloomberg (or such successor website or page of the publication agent or electronic service provider) for each of the three Business Days immediately preceding and inclusive of the Series A-2 Step-Up Date (the “**Series A-2 Step-Up Benchmark Rate**”).

In the event that the BVAL reference rate is replaced by a new benchmark rate as determined by the Bankers Association of the Philippines (“**BAP**”) or the BSP, such new benchmark rate shall be adopted for purposes of determining the Dividend Rate (the “**New Benchmark Rate**”). In the absence of such New Benchmark Rate as determined by the BAP or the BSP and there is a mandatory directive by the BAP or the BSP to no longer use or apply BVAL, the Issuer and the Joint Lead Underwriters and Joint Bookrunners shall exert their best efforts to negotiate and adopt an alternative rate that will serve as the New Benchmark Rate.

Conditions on the Declaration and Payment of Cash Dividends

The Board of Directors of the Issuer has full discretion over the declaration and payment of dividends on the Offer Shares, to the extent permitted by law.

The Board of Directors of the Issuer will not declare and pay dividends on any Dividend Payment Date

where, in its opinion:

- (a) payment of the dividend would cause the Issuer to breach any of its financial covenants; or
- (b) the unrestricted retained earnings available to the Issuer for distribution as dividends are not sufficient to enable the Issuer to pay the dividends in full on all other classes of the Issuer's outstanding shares that are scheduled to be paid on or before any Dividend Payment Date and that have an equal right and priority to dividends as the Offer Shares.

If the unrestricted retained earnings available to distribute as dividends are, in the Board of Directors' opinion, not sufficient to enable the Issuer to pay both dividends on the Offer Shares and the dividends on other shares that have an equal right and priority to dividends as the Offer Shares, in full and on the same date, then the Issuer may:

- (1) *first*, pay in full, or to set aside an amount equal to, all dividends scheduled to be paid on or before that dividend payment date on any shares with a right to dividends ranking higher in priority to that of the Offer Shares; and
- (2) *second*, to pay dividends on the Offer Shares and any other shares ranking equally with the Offer Shares as to participation in such retained earnings *pro rata* to the amount of the cash dividends scheduled to be paid to them. The amount scheduled to be paid will include the amount of any dividend payable on that date and any arrears on any past cumulative dividends on any shares ranking equal in priority with the Offer Shares to receive dividends.

The retained earnings available for distribution are, in general and with some adjustments, equal to the Issuer's accumulated realized profits less accumulated, realized losses, and in general, are subject to the regulations of the SEC.

The Issuer covenants that, in the event:

- (a) any cash dividends due with respect to any Offer Shares then outstanding for any period are not declared and paid in full when due;
- (b) where there remain outstanding arrears of dividends on any of the Offer Shares; or
- (c) any other amounts payable under the terms and conditions of the Offer Shares are not paid in full when due for any reason,

then it will not declare or pay any dividends or other distributions in respect of, or repurchase or redeem, securities ranking *pari passu* with, or junior to, the Offer Shares (or contribute any money to a sinking fund for the redemption of any securities ranking *pari passu* with, or junior to, the Offer Shares) until any and all arrears of dividends and accrued but unpaid cash dividends have been paid to the holders of the Offer Shares (unless such declaration or payment of dividends or distributions in respect of *pari passu* securities shall be in accordance with the paragraph numbered (2) of this section in respect of *pro rata* payment between the Offer Shares and any other shares ranking equally with the Offer Shares as to participation in the retained earnings).

Cumulative and Non-Participating

Dividends on the Offer Shares will be cumulative. If for any reason the Issuer's Board of Directors does not declare a dividend on the Offer Shares for a Dividend Period, the Issuer will not pay a dividend on the Dividend Payment Date for that Dividend Period. However, on any future Dividend Payment Date on which dividends are declared, holders of the Offer Shares must receive the dividends due them on such Dividend Payment Date as well as all dividends accrued and unpaid to the holders of the Offer Shares prior to such Dividend Payment Date.

Holders of the Offer Shares shall not be entitled to participate in any other or further dividends beyond the dividends specifically payable on the Offer Shares.

Payment on the Shares

All payments of dividends and any other amounts under the Offer Shares shall be paid by the Issuer in Philippine Pesos. On the relevant payment dates, the Paying Agent shall make available to holders of the Offer Shares, checks drawn against the Payment Settlement Account in the amount due to each holder of the Offer Shares of record as of the relevant Record Date, either:

- (a) for pick-up by the holder of the Offer Shares or its duly authorized representative at the office of the Paying Agent, or
- (b) delivery via courier or, if courier service is unavailable for deliveries to the address of the relevant holder of the Offer Shares,
 - (i) via mail, at the holder's risk, to the address of the holder of the Offer Shares appearing in the Register of Shareholders, or
 - (ii) deposit and pay the amount due to each shareholder as of the relevant record date to the bank account nominated by the holder of the Offer Shares; provided that such holder has complied with the credit-to-account requirements of the Paying Agent and such holder's nominated bank account has qualified for the credit-to-account facility of the Paying Agent.

In General: Perpetual or No Fixed Maturity

The Offer Shares are equity securities in the capital stock of the Issuer and thus have no fixed maturity or mandatory redemption date.

However, the Offer Shares may be redeemed by the Issuer pursuant to the applicable provisions on redemption (see below sections on "*Optional Redemption and Purchase*" and "*Early Redemption Due to Occurrence of a Tax Event or Accounting Event*"). Based on these provisions, the Offer Shares are not repayable in cash unless the Board of Directors of the Issuer should approve resolutions providing for the optional redemption of the Offer Shares for the cash redemption amount set out in the terms and conditions of the Offer Shares, at the sole discretion of the Board of Directors. Furthermore, holders of the Offer Shares have no right to require the Issuer to redeem the Offer Shares.

Redeemable

Optional Redemption and Purchase

The Issuer has the option, but not the obligation, to redeem in whole (but not in part) any subseries of the outstanding Offer Shares (having given not less than 30 days' prior notice by publication in two national newspapers):

- (a) in respect of the Series A-1 Preferred Shares, on the payment date of the 16th Dividend Period, which indicatively will be on the 4th anniversary of the Issue Date, or on any Dividend Payment Date thereafter, and
- (b) in respect of the Series A-2 Preferred Shares, on the payment date of the 28th Dividend Period, which indicatively will be on the 7th anniversary of the Issue Date, or on any Dividend Payment Date thereafter

(each, an "**Optional Redemption Date**" for each of the Series A-1 Preferred Shares and Series A-2 Preferred Shares).

Exercise of the Issuer's redemption option shall be completed by payment of the redemption price equal to the Offer Price plus any accrued and unpaid dividends after deduction for any tax and customary transfer costs to effect the redemption (the "**Redemption Payment**"). Administrative costs and expenses, including the cost of checks used, supplies, paying agent services, courier and mailing costs in relation to effecting the redemption shall be for the account of the Issuer. The Redemption Payment shall be made to the holders of the Offer Shares as of the Record Date set by the Issuer for such redemption.

In the event the Optional Redemption Date which the Issuer has chosen as the date to redeem any or both of the subseries of the Offer Shares falls on a day that is not a Business Day, the redemption shall be made on the next succeeding day that is a Business Day, without adjustment as to the Redemption Payment, and the amount of dividends to be paid.

Subject to compliance with applicable law, the Issuer may purchase the Offer Shares at any time at any price either through the PSE, by public tender or through negotiated transactions.

Unless the Articles of Incorporation of the Issuer are amended to state that the Offer Shares are not re-issuable, any Offer Shares redeemed or purchased by the Issuer shall be recorded as treasury stock of the Issuer and may be re-issued in the future at such terms and at such time as the Issuer may determine.

Early Redemption Due to Occurrence of a Tax Event or Accounting Event

If a Tax Event or Accounting Event occurs, the Issuer may redeem in whole, but not in part, any subseries of the outstanding Offer Shares at any time (having given not more than 60 nor less than 30 days' prior notice) at the Redemption Payment; provided that if the Tax Event or Accounting Event is specific to a particular subseries, then the foregoing optional redemption may be exercised only with respect to such subseries.

A "**Tax Event**" shall occur if payments on the Offer Shares become subject to additional or higher withholding tax or any new tax for the account of the Issuer (including a higher rate of an existing tax) as a result of certain changes in law, rule or regulation, or in the interpretation thereof, and such tax cannot be avoided by use of reasonable measures available to the Issuer.

An "**Accounting Event**" shall occur if an opinion of a recognized accountancy firm authorized to perform auditing services in the Republic of the Philippines has been delivered to the Issuer stating that the Offer Shares may no longer be recorded as equity in the audited consolidated financial statements of the Issuer prepared in accordance with Philippine Financial Reporting Standard ("**PFRS**"), or such other accounting standards which succeed PFRS as adopted by the Issuer for the preparation of its audited consolidated financial statements for the relevant financial year, and such event cannot be avoided by use of reasonable measures available to the Issuer.

Exercise of the Issuer's redemption option based on a Tax Event or Accounting Event shall be completed by payment of the Redemption Payment. Administrative costs and expenses, including the cost of checks used, supplies, paying agent services, courier and mailing costs in relation to effecting the redemption shall be for the account of the Issuer. The Redemption Payment shall be made to the holders of the Offer Shares as of the Record Date set by the Issuer for such redemption.

No Sinking Fund

The Issuer is not legally required, has not established, and currently does not intend to establish a sinking fund for the redemption of the Offer Shares.

Philippine Taxation

All payments in respect of the Offer Shares are to be made free and clear of any deductions or withholding for or on account of any present or future taxes or duties imposed by or on behalf of Republic of the Philippines, including but not limited to, documentary stamp, issue, registration, value-added or any similar tax or other taxes and duties, including interest and penalties. If such taxes or duties are imposed, the Issuer will pay additional amounts so that holders of the Offer Shares will receive the full amount of the relevant payment which otherwise would have been due and payable; provided, however, that the Issuer shall not be liable for, and the foregoing payment undertaking of the Issuer shall not apply to:

- (a) any withholding tax applicable on dividends earned or on any amounts payable to the holders of the Offer Shares prescribed under the Tax Code including any additional tax on such dividends imposed by changes in law, rule, or regulation;

- (b) any income tax (whether or not subject to withholding), percentage tax (such as stock transaction tax), documentary stamp tax or other applicable taxes on the redemption (or receipt of the redemption price) of the Offer Shares or any liquidating distributions as may be received by a holder of the Offer Shares;
- (c) any expanded value-added tax which may be payable by any holder of the Offer Shares on any amount to be received from the Issuer under the Offer;
- (d) any withholding tax, including any additional tax imposed by change in law, rules, or regulation, on any dividend or amount payable to any holder of Offer Shares or any entity which is a non-resident foreign corporation; and
- (e) any applicable taxes on any subsequent sale or transfer of the Offer Shares by any holder of the Offer Shares which shall be for the account of such holder (or the buyer in case such buyer shall have agreed to be responsible for the payment of such taxes).

All sums payable by the Issuer to tax-exempt entities shall be paid in full without deductions for taxes, duties, assessments or governmental charges provided said entities present proof of such tax-exempt status from the tax authorities and other documents as may be required by the Issuer in its discretion.

Any documentary stamp tax for the recording of the Offer Shares in the name of a holder of the Offer Shares shall be for the account of and paid for by the Issuer. After the Issue Date, taxes generally applicable to a subsequent sale of the Offer Shares by any holder of such Offer Shares, including receipt by said holder of a Redemption Payment, shall be for the account of the said holder.

Liquidation Rights

In the event of a return of capital in respect of the Issuer's winding up or otherwise (whether voluntarily or involuntarily) (but not on a redemption or purchase by the Issuer of any of its share capital), the holders of the Offer Shares at the time outstanding will be entitled to receive, in Philippine Pesos out of the Issuer's assets available for distribution to shareholders (after payment of debts and liabilities to creditors), together with the holders of any other of the Issuer's shares ranking, as regards repayment of capital, *pari passu* with the Offer Shares and before any distribution of assets is made to holders of any class of the Issuer's shares ranking junior to the Offer Shares as regards repayment of capital, liquidating distributions equal to the Offer Price plus an amount equal to any dividends declared but unpaid in respect of the previous Dividend Period and any accrued and unpaid dividends for the then-current Dividend Period to (and including) the date of commencement of the Issuer's winding up or the date of any such other return of capital, as the case may be. If, upon any return of capital in the Issuer's winding up, the amount payable with respect to the Offer Shares and any other of the Issuer's shares ranking as to any such distribution *pari passu* with the Offer Shares are not paid in full, the holders of the Offer Shares and of such other shares will share ratably in any such distribution of the Issuer's assets in proportion to the full respective preferential amounts to which they are entitled. After payment of the full amount of the liquidating distribution to which they are entitled, the holders of the Offer Shares will have no right or claim to any of the Issuer's remaining assets and will not be entitled to any further participation or return of capital in a winding up.

Non-Convertible

Holders of the Offer Shares shall have no right to convert the Offer Shares to any other shares or securities of the Issuer.

For the avoidance of doubt, the Board of Directors of the Issuer has determined that the Offer Shares (which are Series "A" Preferred Shares) **shall not be convertible** to common shares, and accordingly, the reference to "mutually acceptable terms" on convertibility as set out in Article Seven of the Articles of Incorporation of the Issuer, as amended to date, **does not apply** to the Offer Shares.

No Pre-Emptive Rights

Holders of the Offer Shares shall have no pre-emptive rights to subscribe to or purchase any shares

(including, without limitation, treasury shares) that may be issued or sold by the Issuer.

Reissuability

Under the Amended Articles of Incorporation of the Issuer, as amended to date, the Series "A" Preferred Shares are reissuable such that in case of redemption, the Series "A" Preferred Shares shall not be considered retired and may be re-issued by the Issuer on such terms and conditions as may be determined and approved by the Board of Directors.

Nonetheless, the Issuer may subsequently amend its Articles of Incorporation to provide that all the Series "A" Preferred Shares in its authorized capital stock (or only the Offer Shares) shall, upon redemption, be cancellable and retired, in case the Issuer determines that it is more beneficial to it and/or the holders thereof.

Status of the Offer Shares

The Offer Shares will constitute the direct and unsecured subordinated obligations of the Issuer ranking at least *pari passu* in all respects and ratably without preference or priority among themselves and with all other preferred shares issued by the Issuer.

The Issuer is at liberty from time to time without the consent of the holders of the Offer Shares to create and issue additional preferred shares or securities either (a) ranking at least *pari passu* in all respects with the Offer Shares, or (b) upon such terms as to ranking, distributions, conversion, redemption and otherwise as the Issuer may determine at the time of the issue.

Form, Title and Registration of the Offer Shares

The Offer Shares will be issued in scripless form through the electronic book-entry system of the appointed Stock Transfer Agent and lodged with the Philippine Depository Trust Corporation ("**PDTC**") as depository agent on Listing Date through PSE trading participants nominated by the applicants. For this purpose, applicants shall indicate in the proper space provided for in the Application to Purchase (as defined below) the name of a PSE trading participant under whose name their Offer Shares will be registered.

After Listing Date, shareholders may request the Stock Transfer Agent, through their nominated PSE trading participant, to (a) open a scripless registry account and have their holdings of the Offer Shares registered under their name ("name-on-registry account"), or (b) issue stock certificates evidencing their investment in the Offer Shares. Any expense that will be incurred in relation to such registration or issuance shall be for the account of the requesting shareholder.

Legal title to the Offer Shares will be shown in the Registry of Shareholders which shall be maintained by the Stock Transfer Agent. Without prejudice to its procedure as may be agreed with the Issuer, the Stock Transfer Agent shall send a transaction confirmation advice confirming every receipt or transfer of the Offer Shares that is effected in the Registry of Shareholders (at the cost of the requesting shareholder). The Stock Transfer Agent shall send (at the cost of the Issuer) at least once every year a statement of account to all shareholders named in the Registry of Shareholders, except certificated shareholders and depository participants, confirming the number of shares held by each shareholder on record in the Registry of Shareholders. Such statement of account shall serve as evidence of ownership of the relevant shareholder as of the given date thereof. Any request by shareholders for certifications, reports or other documents from the Stock Transfer Agent, except as provided herein, shall be for the account of the requesting shareholder.

For scripless shares, the maintenance and custody fee payable to the PDTC shall be for the account of the shareholder.

Initial placement of the Offer Shares and subsequent transfers of interests in the Offer Shares shall be subject to normal Philippine selling restrictions for listed securities as may prevail from time to time.

Philippine law does not require transfers of the Offer Shares to be effected on the PSE, but any off-

exchange transfers may subject the transferor to a capital gains tax, which may be significantly greater than the stock transfer tax applicable to transfers effected on an exchange, and documentary stamp tax. All transfers of shares on the PSE must be effected through a licensed stock broker in the Philippines.

Title and Transfer

Legal title to the Offer Shares shall pass by endorsement and delivery to the transferee and registration in the Registry of Shareholders to be maintained by the Stock Transfer Agent. Settlement in respect of such transfer or change of title to the Offer Shares, including the settlement of documentary stamp taxes, if any, arising from subsequent transfers, shall be similar to the transfer of title and settlement procedures for listed securities in the PSE.

Governing Law

The Offer Shares will be issued pursuant to, and the terms and conditions of the Offer Shares will be governed by, the laws of the Republic of the Philippines.

Other Rights and Incidents Relating to the Offer Shares

The Revised Corporation Code, other laws and regulations, and the constitutive documents of the Issuer provide for other rights and incidents relating to the Offer Shares.

For example, the Board has the authority to fix in advance the record date for shareholders entitled: (a) to notice of, to vote at, or to have their votes voted at, any shareholders' meeting; (b) to receive payment of dividends or other distributions or allotment of any rights; or (c) for any lawful action or for making any other proper determination of shareholders' rights. Under the By-laws, for the purpose of determining the stockholders who are entitled to notice of, or to vote at, any meeting of stockholders or any adjournment thereof, or to receive payment of any dividend, or of making a determination of stockholders for any other proper purpose, the Board of Directors of the Issuer may provide that the stock and transfer book be closed for a stated period, but not to exceed, in any case, twenty (20) days.

Moreover, the 2015 Implementing Rules and Regulations of the Securities Regulation Code has rules on disclosure obligations of any person who acquires in any manner the beneficial ownership of 5% of any class of equity securities of a listed company and any person who is, directly or indirectly, the beneficial owner of 10% or more of any class of any security of a listed company (among other companies).

In addition, under the Revised Corporation Code, for legitimate purposes, any provision or matter stated in the articles of incorporation of a domestic corporation may be amended by a majority vote of the board of directors or trustees and the vote or written assent of the stockholders representing at least 2/3 of the outstanding capital stock, without prejudice to the appraisal right of dissenting stockholders in accordance with the provisions of the said code.

Prospective purchasers of the Offer Shares are urged to consult their own advisors as to the rights and incidents relating to their holding of the Offer Shares, as set out in this Prospectus, the Issuer's constitutive documents, applicable laws and regulations, and the Transaction Documents.

OTHER SHARES

A Philippine corporation may issue common or preferred shares, or such other classes of shares with such rights, privileges or restrictions as may be provided for in the articles of incorporation and the by-laws of the corporation.

The Issuer is at liberty from time to time without the consent of the holders of the Offer Shares to create and issue common shares. Holders of common shares are entitled to vote at all stockholders' meetings, including in respect of the election of directors.

The Issuer is also at liberty from time to time without the consent of the holders of the Offer Shares to create and issue additional preferred shares or securities either (a) ranking at least *pari passu* in all

respects with the Offer Shares, or (b) upon such terms as to ranking, distributions, conversion, redemption and otherwise as the Issuer may determine at the time of the issue.

Apart from the Series "A" Preferred Shares of the Issuer of which the Offer Shares are a part, its authorized capital stock as set out in its Articles of Incorporation, as amended to date, also comprises partly of the Series "B" preferred shares which shall have the following features, rights, and privileges:

1. Full voting rights, one vote for each share in the holder's name on the books of the Issuer;
and
2. Non-cumulative cash dividends based on the rate of its par value.

For the avoidance of doubt, the features above which pertain to the Series "B" Preferred Shares do not apply to the Offer Shares (or the Series A-1 Preferred Shares and the Series A-2 Preferred Shares).

As mentioned above, holders of the Offer Shares shall have no pre-emptive rights to subscribe to or purchase any shares (including, without limitation, treasury shares) that may be issued or sold by the Issuer.

Strengthening leadership in the Visayas and Mindanao Region

CLI has rapidly grown from its humble beginnings on a single three-ha. land in Balamban. The Company has evolved into a fully integrated real estate developer with a growing, highly varied portfolio of residences, offices, retail spaces, hotels, mixed-use developments, and townships spanning Visayas and Mindanao.

The Company has successfully expanded its residential offerings into the high-end segment with the Premier Masters selections. Its lineup of premium projects includes high-rises such as Base Line Premier, 38 Park Avenue, Astra Center, and Paragon Center, that are designed for holistic living in prime urban locations. Garden Series, which promises open spaces and well-designed homes like Mivela Garden and Velmiro Greens Bohol cater to the middle market. Casa Mira remains to be the Company's flagship business as it caters to the affordable and economic housing sector where demand is most robust and persistent. The Villa Casita line serves the socialized housing market. In 2023, CLI introduced its newest market segment called "Mirani". This brand is designed to cater to the more affordable housing segment with a price range of around ₱1.90 to ₱2.90 million. In June 2023, CLI launched Mirani Steps in Danao, its pioneer project under the newest brand. The project has sold out 48.37% within 3 months of launch.

Venturing into township developments

In 2018, CLI started venturing into bigger ventures with the establishment of Davao Global Township (DGT), a 22-ha estate in Matina, Davao. CLI immediately started land development in 2019 and is currently completed, allowing for the start of Phase 1 operations which includes the City Center, and Cultural Center, Pavilion, the launch and start of pre-selling for East Village condominiums, and lot sales.

To further expand on townships, CLI has also ventured into a reclamation project with the government of Minglanilla, Cebu to reclaim and develop 100 has. of land into a business park that integrates residential, commercial, and light industrial through the Company’s JV project named Ming-Mori Development Corporation (“**MMDC**”). In 2021, CLI increased its stake in MMDC from 20% to 78%. This is expected to streamline CLI’s operations as the developer and project manager of the Minglanilla Techno Business Park (Ming-Mori). In June 2021, MMDC obtained project approval from the Philippine Reclamation Authority (“**PRA**”), which coordinates and administers reclamation projects nationwide. The approval was the culmination of a comprehensive and stringent five-year review. This included the issuance of an Environmental Compliance Certificate (“**ECC**”) by the Department of Environment and Natural Resources (“**DENR**”), which required consultations with a wide range of stakeholders and the submission of development objectives showing its responsiveness to the environment. In October 2021, PRA issued its Notice to Proceed with the reclamation.

In 2021, CLI signed a Memorandum of Agreement (“MOA”) to acquire 14.3 has. of Xavier University – Ateneo de Cagayan’s Manresa Property in uptown CDO. Proceeds of CLI’s purchase will be used by Xavier to develop the new Xavier University Masterson Campus. CLI plans to build developments as an essential part of the master plan, integrated into this university community. The new 21-ha. Xavier University Masterson Campus is envisioned to catalyze further development of CDO as Northern Mindanao’s education hub with a sustainable and New Normal-ready Campus Master Plan. In 2023, CLI obtained the ECC from the DENR to proceed with the development. Immediately, bidding for the land development is currently underway, while construction is forecasted to start in the middle of 2024.

Furthermore, the Company is actively engaged in ongoing negotiations with landowners in Cebu, Iloilo and Bacolod, underscoring its commitment to fortify its presence in estate developments. This proactive approach reflects the Company’s strategic vision for more estate development projects in the future.

Distribution methods of the products or services

Residential products from the Company are offered to a broad variety of customers by several sales teams and accredited brokers and agents.

CLI has one of the industry-leading sales support teams. With over 73 sales support personnel, this team collaborates, coordinates, and supports the over 11,000-strong accredited broker/agent network of CLI. This is CLI’s strategy in working harmoniously with the seller community by assisting the brokers 24/7 from sales origination to closing. CLI works alongside brokers in addressing the client inquiries until closing.

Completed Projects

Vertical and horizontal residential, mixed-use, office, hotel, and retail projects make up the 37 completed developments of the Company.

The Company has successfully completed 32 residential projects in Cebu, Bacolod, CDO, and Davao. One of these projects, the three-tower MesaVerte Garden Residences, marked its first expansion outside of its base in Cebu, and it was turned over in starting 2020. Other projects, such as MesaTierra Garden Residences in Davao, MesaVirre Garden Residences A & B in Bacolod, and 38 Park Avenue in Cebu, among others, started their buyer turnovers in 2021 and 2022. Throughout the year, CLI has been turning over projects in Cebuluding Casa Mira Towers Guadalupe, Baseline Prestige, and Mivela Tower 1. As of December 31, 2023, its completed residential developments were 99% sold out.

In addition to its residential developments, the Company owns three operational office buildings and various leasable spaces, with Park Centrale in IT Park, Cebu serving as its headquarters. This development has maintained full occupancy since completion and received the prestigious Best Commercial Development in Cebu award from the Philippine Property Awards in 2014.

Latitude Corporate Center, a 24-storey structure completed in 2020, stands tall in the heart of 'Cebu's business district. Benefiting from the return of sectors like IT-BPO to office spaces, the Company is confident that this 5-Star BERDE-certified green building, is positioned well to meet such a rebound.

In terms of retail as of the first nine months of 2023, CLI has significantly expanded its GLA to 35,772 sq.m., a 19% increase from the previous quarter's 30,006 sq.m. This growth is attributed to the successful turnover of Banilad Highstreet, 38 Park Avenue retail, Baseline Center phase 2, and Drive-Thru spaces in Davao Global Township.

Diversifying its portfolio, the Company entered the hospitality sector in 2019 with the opening of Citadines Cebu City, a 180-room serviced residence in partnership with The Ascott Limited as the hotel manager. Situated strategically within the Company's mixed-use lifestyle hub, Base Line Center, this project reflects its strategy to broaden its product scope and create reinforcing value across business units.

As of December 31, 2023, the Company's completed projects are 99% sold-out, with only ₱951.86 million remaining in inventory in terms of sales value. Looking ahead, CLI is preparing to grow within the VisMin real estate market, with plans to introduce new projects in key locations, expand into new markets, and cater to diverse demographics.

The Company leverages on this market absorption of its products to cultivate the 1,795 accredited real estate brokers and 11,000 sales agents across the VisMin region who continuously support CLI.

Investing in capital to support recurring revenue from both hospitality and leasing businesses is one of the strategies CLI is currently aggressively pursuing banking on the region's future growth. CLI's long-term strategy is to build up its office, retail, and hospitality portfolio's GLA to 200,000 sq.m. – eventually contributing to 10% of the growing top line within the next five years.

The Company is currently constructing nine hospitality projects with a total of 1,543 room keys and various office and commercial projects totaling over a GLA of 75,000 sq.m. More projects are in the pipeline at the planning and design stage to meet CLI's strategy to continue its build-up of its recurring income portfolio.

Newly launched and Pipeline projects for 2023

During the first nine months of 2023, CLI launched a total of eight projects valued at ₱15.00 billion. Part of the launch is the introduction of the Mirani brand addressing the needs of the lower-income segment, offering residences priced at around ₱1.90 million to ₱2.90 million. Another notable project launch is Mindara Residences in Davao with almost 546 of its units being sold out, amassing ₱2.50 billion in sales within the first week of its launch. CLI also introduced its first house and lot project in Davao, Casa Mira Davao, is now 95% sold out. Other project launches include Casa Mira Towers Mandaue T1, Mandra T2, CMT Palawan T4, CMT Bacolod T4, Casa Mira Homes Davao, and Costa Mira Panglao T3. This substantial fresh inventory, coupled with the continued high demand for the established Casa Mira brand, propelled CLI to achieve its highest nine-month reservation sales figure, up by 25% to reach ₱17.00 billion versus the same period in 2022.

As of December 31, 2023, CLI has successfully sold out 59% of its inventory from newly launched projects, underscoring its ability to capture demand where it competes. CLI aims to sell the remaining units over its construction period.

Looking ahead to the coming months, CLI plans to launch more developments from its 11 pipeline projects, with an aggregate sales value of ₱23.00 billion.

CLI will be selective in acquiring high potential landbank to drive sustained revenue growth in the future. During the nine months of 2023, the company recorded 112.5 has of land for development across VisMin locations. During the year, CLI further expanded in Mindanao with its most recent purchase of 21 hectares in General Santos City, increasing its landbank to a value of ₱9.8 billion.

Residential Developments

Residential developments constitute the cornerstone of the Company's operations and project portfolio. CLI's overarching goal is to meet the persistently unmet demand for quality-built, cost-effective housing, and well-planned communities that align with the needs of the market. In response to the housing backlog and the heightened desire for safe and secure homes, the Company consistently launches new housing projects.

To effectively address diverse market segments, the Company categorizes its housing developments into distinct brands. The largest contributing brand is Casa Mira, which has emerged as the fastest growing and most popular brand in VisMin. Starting with a typically priced at ₱120,000.00 per sq.m. or ₱2.00 million per housing unit, Casa Mira caters specifically to the economic market. Over time, the Casa Mira series has become a pivotal asset, securing the largest residential market share in Visayas

and Mindanao. Its success can be attributed to its value proposition, providing residents with reasonably priced homes in aesthetically pleasing communities, complete with several amenities more associated with higher-priced developments. These include a clubhouse with multi-purpose halls, a chapel, swimming pool, multiple basketball court, tennis courts and children's playground.

In a strategic move to grow the Company into more segments, CLI introduced the “Mirani” brand last July 2023. Designed to cater to the more affordable housing demand within the market spectrum with a price point of around ₱1.90 million, the Mirani brand debuted with Mirani Steps in Danao in June 2023. and is 48.37% sold out in 3 months.

The Garden Series, targeting the mid-market segment, features selling prices starting at ₱140,000.00 per sq.m., with each housing unit price ranging from ₱2.50 million to ₱3.20 million. Subdivisions under this brand are known as Velmiro, while condominium projects go by the name Garden Residences. The Garden Series distinguishes itself by offering an upgraded array of amenities over the economic segments, including a swimming pool, multi-level clubhouse with function rooms, fitness gym, basketball court, and playgrounds situated in expansive landscaped park.

Strategically, CLI offers Premier Masters, the high-end residential buildings with prices starting at ₱180,000.00 up to ₱300,000 per sq.m. These luxurious developments, located in prestigious urban areas, include Terranza Residences in Iloilo, Costa Mira Mactan, the two Baseline condominiums and 38 Park in I.T. Park Cebu.

Lastly, Villa Casita represents CLI's business in socialized housing, offering units at a price of ₱580,000.00. Through these socialized housing projects required under specific compliance terms, the Company endeavors to provide decent and affordable housing to the market segment. On the average, CLI can convert raw land to a turned-over project in less than two to three years, depending on the project size. CLI's condominium developments BaseLine Residences, Park Centrale Tower, Mivesa Garden Residences, Midori Residences, and Casa Mira Labangon were delivered to the buyers in two years, as committed by the Company in its marketing materials.

The Company adopted a rigorous project management team approach, wherein key personnel from each business unit are given a regular platform to monitor project milestones and discuss important synergies and shared deliverables among business units.

Average turnaround time of **6-9 MONTHS** from land acquisition to project launch

CLI has shown its capacity to execute project delivery during the height of the COVID-19 pandemic. Construction activity at the Company's 24 locations continues to advance at a modest pace while following local health protocols and required permitting to continue its site operations. This effort is motivated by the Company's dedication to deliver quality real estate developments on schedule to its customers.

By the end of 2021, the economy had gradually reopened, allowing CLI to resume full swing in construction, with catch-up measures being implemented to make up for any delays brought about by the pandemic lockdowns.

Strategic location selection to provide value-for-money proposition to customers

The criteria for choosing a location for CLI are very rigid. The Company continues to be on the lookout for properties of high value appreciation potential. CLI's site quality has always been a catalyst for its excellent sales success, whether for a high-end condominium project or an affordable housing project. CLI has projects in the region's most valuable real estate major key areas in Cebu, Iloilo, Bacolod, CDO, and Davao. The Company looks at locations within a two-kilometer radius of the closest highway for its mid-market and affordable housing developments. The Company has enhanced the facilities in the neighborhoods where its housing developments are located. This has always proved to be a win-win for the residents as well as the local neighborhood.

CLI's experience with the city and its communities, as a native developer, allows the Company to choose the best locations for its projects and to cater to the market's needs and tastes. San Jose Maria Village, Balamban, CLI's first project, was established when CLI's founder, Mr. Jose R. Soberano III, recognized that there was a ready demand for affordable housing among employees of Balamban's manufacturing companies.

Because of CLI's proven track record, landowners who wish to sell or develop their properties jointly find it easier to approach and work together with the Company. This is evidenced by the number of proposals from landowners regularly received by CLI to buy or develop their properties.

CLI gives its clients more value for their investments. Its properties are distinguished by the quality of its locations, award-winning planning and design, generous amenities, timely and quality construction, and industry-best customer service, after-sales, and property management support at very competitive prices. The Company has a strong pipeline in various affordability levels and will strive to continuously improve its products' value proposition. As a success criterion and as practiced, CLI has always projected its initial pre-selling prices to appreciate by at least 20-25% by the time the construction is completed. As an indication of the positive market response, a number of its projects have set selling records in the markets where they are launched, and 98% of the inventory from its completed projects has been sold out.

Highly diversified and expanding project portfolio and socio-economic markets

CLI is a fully integrated real estate developer with a highly diversified expanding portfolio of residences, offices, retail spaces, hotels, mixed-use developments, and a township across 10 major locations in VisMin – Greater Cebu, Bohol, Dumaguete, CDO, Davao, Iloilo, Bacolod, Ormoc, Butuan, Palawan, and Gensan.

During the pandemic, the Company was able to maintain earnings stability because of its wide portfolio

of projects that addressed the demands of consumers from various socioeconomic strata. In 2020, CLI expanded its affordable housing offerings to address the rising need for high-quality housing where everyone can feel safe and comfortable in their residence, which serves as a hub for work, school, and recreation.

With the market's growing need for safe and secure homes, CLI launched the "Embrace Home" campaign to emphasize the value of homes. CLI also quickly made available online platforms where buyers can purchase quality homes under flexible and comfortable payment terms and enticing promos. Continued from 2020, a year to reflect and adapt, and as for CLI—the Company took prompt action to continue its excellent services to its stakeholders, homeowners, and surrounding communities—through technology. CLI quickly adapted to change to strengthen the Company's digital presence, to attend to the stakeholders' concerns despite all the limits COVID-19 has given.

Experienced management team and organizational culture

The Company aims to grow its workforce in line with high standards of professionalism, as it has over the last 20 years. The Group has grown from two employees to a dynamic team of 914 executives, managers, officers, and staff, with an average age 46 and over 250 years combined cumulative professional experience in their respective fields, who have contributed to the Company's culture of excellence and strong corporate governance. CLI's customer-first attitude and family-oriented team enables it to achieve high stakeholder satisfaction and establish strong brand equity.

CLI is led by a family of real estate professionals. Its founder, Chairman of the Board of Directors, President and CEO, Jose R. Soberano III, was a former executive at Ayala Land, where he played an integral role in the development of Cebu Business Park and Cebu IT Park, the two most valuable commercial districts in Cebu City up to this day. CLI has grown its talent pool with the addition of knowledgeable accounting and finance, business development, engineering, legal, marketing, and sales professionals with extensive experience and success in their respective professional careers. CLI's key executives have had prior experience in reputable companies from related industries such as real estate development, construction, power, banking, business process outsourcing, consulting, and others.

Corporate Social Responsibility

CLI's corporate social responsibility agenda is pursued through the Cebu Landmasters Foundation, Inc. ("**CLFI**"), the CSR arm of the company, with focus on 1) Socialized Housing and Integrated Social Development, 2) Environment, 3) Education, and 4) Livelihood/Enterprise Development.

Socialized Housing Development and Integrated Development

CLI, through its socialized housing projects, provides decent and affordable housing to hundreds of homeless and informal settler families. Currently, CLI's completed projects include Villa Casita Balamban, Pinamalayan Housing, and Villa Casita North. The Company has also contributed to public infrastructures such as access roads, drainage systems, public markets, and transport terminals.

To better tackle every growing housing backlog in the country and to incorporate more sustainable socialized housing projects within the city, in 2021, CLFI team created a three-way collaboration among the Company, the Cebu City local government, and the Philippine National Government through the DHSUD in developing a five-storey, 100-unit housing project for informal settlers, called Sugbo Walk up One. located in Lorega San Miguel, Cebu City. Each dwelling unit has an area of 23.75 sq.m. Beneficiaries are informal settlers who live along rivers, creeks, coastal areas, and other danger zones.

Going beyond construction, CLI assisted partner LGU with the beneficiary selection, social preparation, and provided training in property management to prepare them for turnover and better integrate social development. The Company continues to assist the LGU in the pre-settlement process, providing guidance as the beneficiary community transitions from horizontal to vertical living. As of 2023, CLI has developed and turned over one mid-rise building to Cebu City LGU and has started constructing the next building with 90 units that will benefit informal settler families hit by a major fire incident in 2019 in Brgy. Tipolo, Mandaue City. CLI plans to develop more socialized housing projects in the Visayas-Mindanao region.

Education: Leap Scholarship Program

In the area of education, the Company, through its corporate foundation, CLFI, launched the Leadership and Educational Assistance Program (LEAP) targeting CLI employee dependents. At present, CLI has 13 scholars taking up Architecture, IT, Engineering and Business courses at the University of San Carlos. CLI continues to expand its education program to include community-based skills training for livelihood and employment for identified beneficiaries.

Environment: Ecosystems Protection

On the aspect of biodiversity management, CLI through its partnership with LGU and a Civil Society Organizations (CSO), has planted 242,335 trees, as of end of 2023. The tree-growing program serves to enhance local forest and mangrove sites and supports the livelihood of farmers and fisherfolks in various locations. In addition, CLI assisted coastal barangays in the Municipality of Minglanilla to fabricate and deploy trash trap systems in the area's major riverway, which has helped prevent waste from reaching the coastal waters. CLI continues to engage and support farmers and fisherfolks organizations through its tree growing and other environmental initiatives under the Green Resources and Opportunities for Work (GROW) program.

Enterprise Development / Livelihood

CLI, through the foundation's program known as Livelihood Assistance for Multi-sectoral Beneficiary Organizations (LAMBO), provides assistance to local start-up small businesses in some of the Company's neighbouring communities. In 2022, the foundation assisted one of the homeowners' associations in a relocation site in Brgy. Paknaan, Mandaue City through the formation of a consumer's cooperative. CLI provided guidance on the coop formation requirements and livelihood training sessions to prepare the coop for its small business. In 2023, CLI assisted a vegetable farmers' cooperative BUKID-Multi-purpose Cooperative in Brgy Sunog, Balamban, Cebu by providing resources and by promoting and patronizing their farm-fresh produce. The coop has benefited from the monthly '*Tabo sa CLI*' events that cater to the needs of CLI employees, customers, and homeowners. This farm-to-market program benefited the farmers with higher income and is expected to expand with more residential communities to be served. Brgy. Punta Engano is also among the communities assisted by the foundation by organizing the womenfolk into a barangay-registered organization which will be the Company's beneficiary for livelihood programs in Lapu-Lapu City, Cebu. CLI provided seed funds for livelihood through its Community Entrepreneurial Challenge benefiting two communities in Mandaue City and one in Punta Engano, Lapu-Lapu City.

CLI continues to create value for its communities as it strengthens its relationship with 21 key cities and municipalities, particularly in 48 barangays across the Visayas and Mindanao regions.

Strategic JV partnerships

CLI takes pride in its ability to collaborate with and deliver great value to its JV partners. CLI is the project manager and developer in all its JVs. These JVs enable the Company to position itself in strategic locations such as Cebu Business Park through BL CBP Ventures, Inc., and Cebu IT Park through El Camino Developers Cebu, Inc.

CLI's JV partnerships are typically of a closer and more collaborative nature than the norm, where it treats its JV partners as true and equal business partners. Its collaboration results in better-suited products in the markets they are launched in, while benefiting from the market intelligence of its partners. Product execution and delivery are also improved by leveraging the professional and regulatory networks of its partners.

Collaborating with a JV partner also facilitated the Company's forays into new markets such as Davao, Bacolod, and Iloilo. After the success of MesaTierra, the Company entered into new partnerships with YHES to develop Paragon Center and with YHEST to develop Davao Global Township, both in Davao.

Another JV company, Cebu Homegrown Developers, Inc. with Ixidor holdings as a partner, is set to develop a mid-market, mixed-use, multi-tower condominium project in Mandaue City, Cebu as its first

project. It is called Mandtra Residences. It has also acquired a strategic landbank in Talamban, Cebu, just outside the prestigious Prisinta North subdivision, from Aboitiz Land. The plan is for a high-end mid-rise mixed-use development that is in the planning and design stages.

After the success of Latitude Corporate Center, CLI and Borromeo Bros. partnered afresh to develop another project in another prime location within Cebu City. Cebu BL-Ramos Ventures, Inc. was incorporated in 2020 to develop a mixed-use multi-tower residential condominium in Ramos Cebu City.

Additionally, CLI recently signed a JV agreement with prominent Iloilo businessman Alfonso Tan, chairman of International Builders Corporation, for a high-rise residential tower on a prime corner lot in Iloilo City's downtown area. The tower will be the first condominium offering in the highly accessible location.

CLI created two JV partnerships in 2021. Sugbo Prime Estate, Inc. was formed to build the 7,500-sq.m. property. A great location along Banilad Cebu City will be transformed into a mixed-use development with retail spaces and a 300-room dormitory. In addition, the Company formed CLI-LITE Panglao Inc., a JV with Jun Lim of Lite Shipping Corp., to develop 4 has of property in Panglao, Bohol, into a residential condominium project launched in 2022 and 2023.

In October 2023, CLI entered into a partnership with NTTUDA, an international developer known for commercial properties, including office buildings, residences, and mixed-use developments in Southeast Asia. This JV is geared towards the development of premium-grade residential towers in the heart of Cebu City.

The Company's successful JV partnerships in its past and present projects underscores CLI's prominence as a preferred JV partner because of the priority it gives to its partners, its transparency in terms of project planning and accountability, and its quick execution and delivery of projects. The fast business development cycle it implements makes the Company attractive to its current and future JV partners.

Financial strength: Strong profitability, prudent financial management and a healthy balance sheet

CLI's net income to its shareholders has increased at a compound annual growth rate of 26% from its first public offering in 2017 to the recent full year 2022. The Company has continually proven great profitability and prudent financial management throughout its expansion. CLI's gross profit and net income increased steadily while maintaining good margins and debt management discipline.

CLI ended the pandemic year 2020 with a Consolidated Net Income of ₱2.08 billion and Net Income attributable to equity shareholders of ₱1.85 billion, a slight decline of 8% y-o-y from ₱2.01 billion in 2019, based on its audited financial statements. The modest earnings results were due to the reduced construction operations caused by the lockdown measures imposed by the government during the enhanced community quarantine period. In 2020, CLI was able to benefit from the attractive interest rate environment as it raised a total of ₱8.00 billion in March, which was completely subscribed by several financial institutions at an average fixed rate of 4.15%.

For the year ended 2021, CLI recorded ₱2.61 billion net income attributable to CLI shareholders in 2021, an increase of 42% from ₱1.85 billion y-o-y. CLI's topline grew by 35% to ₱11.16 billion from 2020's ₱8.30 billion driven by significant construction accomplishments and robust sales, which have further resulted in a ₱25.00 billion or 23% increase in unrecognized revenue for future recognition, based on its audited financial statements. The Company also maintained prudent debt management during the year. The Net Debt to equity ratio remained at modest levels standing at 1.72x while lowering down cost of borrowing to 4.75% from 4.96% in 2020.

In 2022, CLI recorded Normalized Net income to parent shareholders of ₱3.17 billion, an increase of 21% from ₱2.61 billion in 2021, the remainder after tax adjustments for the year were factored out.

As of September 30, 2023, the Company's consolidated net income increased to ₱3.02 billion, a y-o-y 28% increase from ₱2.37 billion. While net income to parent posted a solid 9% increase to reach ₱2.39 billion from ₱2.20 billion. Earnings grew as a result of strong performance across all revenue streams, which led to CLI's consolidated revenue to increase by 18% to ₱12.93 billion from ₱10.96 billion the

previous year. This is supported by higher construction progress and take-up of new launches that also led to record-breaking nine-month reservation sales, which also grew 25% y-o-y.

The Company also prides itself in its cost discipline. While CLI utilizes contractors for its projects, it purchases its own raw materials and employs a dedicated project management team to ensure that quality and costs meet the Company's requirements.

CLI also has one of the most organized and responsive accounts receivable and customer support departments in the industry. The delinquency rate improved to 1.15% in September 2023 from 3.82% in 2022, and 5.21% in 2021.

CLI also has a dedicated accounts management team who facilitates the take-out process, whether through a bank mortgage or a cash payout for the contract balance.

In respect of its debt management, CLI endeavors to match its debt maturity profile with that of the cashflow it is generating from the very projects being funded. CLI's cash cycle is typically four to five years depending on the project type. So especially in a rising interest rate environment, the proceeds to be raised from the Bonds are intended to be a means to carry out CLI's ongoing strategy of moving its debt maturity profile towards the longer end of the curve and at the same time mitigating the impact of higher borrowing costs since the Bonds involve fixed interest rates.

Operational excellence

CLI has a fully integrated real estate set-up encompassing different areas, namely, acquisitions, business development, technical planning, engineering and project management, sales and marketing, documentation and licensing, legal services, customer service, and property management. The Company prides itself on its hands-on and personalized approach, which allows itself to respond effectively to its clients and industry partners.

Construction

For each horizontal and vertical development, CLI engages various general and specialty contractors with both local and national experience. With over 170 engineers in its roster, CLI handles the project and construction management aspect of every project and manages the various contractors and sub-contractors that are utilized. As the project manager, CLI controls the delivery of its projects with priority on promptness, quality, and professionalism. CLI does not have any in-house construction or any affiliated general contracting business.

Sales

CLI has one of the industry-leading sales support teams. With over 73 sales support personnel, this team collaborates, coordinates, and supports the over 11,000-strong accredited broker/agent network of CLI. This is CLI's strategy in working harmoniously with the seller community by assisting the brokers 24/7 from sales origination to closing. CLI works alongside brokers in addressing the client inquiries until closing.

("**CLPM**"), a wholly owned subsidiary of the Company, was incorporated to provide property management services to housing, condominium and office projects developed by the Company. With the goal of making CLPM a self-sustaining and revenue generating business unit, CLPM is envisioned to eventually offer and expand its services to outside clients. During the first nine months of 2023, property management fees increased by 14% to ₱46.48 million, from

₱40.86 million in the same period last year, reflecting an increase in managed projects by CLPM.

Growth of economic housing brand (Casa Mira)

The Casa Mira brand of CLI is designed to answer the underserved demand in the affordable housing sector. And even after the pandemic, Casa Mira remained CLI's fastest selling and most sought-after brand. Unit prices range from ₱1.80 million to ₱3.00 million. Correspondingly, the monthly amortizations range from as low as ₱6,000.00 to as high as ₱15,000.00. This caters to households with monthly incomes of ₱15,000.00 to ₱30,000.00.

Despite the pandemic, strong housing demand in VisMin enabled CLI to sell a number of housing units from Casa Mira which accounted for 69% of the Company's reservation sales in 2020 amounting ₱14.23 billion. In 2021, as the economy reopens, demand for the Casa Mira brand remains resilient, accounting for 41% of the ₱16.52 billion reservation sales that the Company recorded during the year. In 2022, Casa Mira accounted for 32% or ₱5.88 billion of the total reservations sales for the year. With the new launches in 2023, Casa Mira segment led the sales with 52% of total sales during the nine months of the year, primarily from Casa Mira Davao, Casa Mira Danao, and Casa Mira Towers in Palawan and Bacolod.

Currently, there are 15 Casa Mira communities and a total of 16,879 housing units in VisMin namely: (1) Casa Mira Linao, (2) Casa Mira South, (3) Casa Mira Towers Guadalupe, (4) Casa Mira Towers Labangon, (5) Casa Mira Towers Mandaue, (6) Casa Mira Coast, (7) Casa Mira Bacolod, (8) Casa Mira Towers CDO, (9) Casa Mira Iloilo, (10) Casa Mira Dumaguete, (11) Casa Mira Towers LPU, (12) Casa Mira Ormoc, (13) Casa Mira Towers Bacolod, (14) Casa Mira Towers Palawan, and (15) Casa Mira Davao.

By 2024 onwards, CLI will roll out this brand in its newly acquired expansion sites in Butuan and Gensan. The Company sees this as a great opportunity to tap into the classes B, C, and D markets where most of the working population belongs to. With the Philippines' young and growing workforce, the need for affordable permanent housing options will continue to escalate.

Capitalizing on pipeline projects

CLI continues to position for growth with a robust pipeline of over 11 projects valued at ₱27.6 billion slated for the upcoming year. In the initial nine months of 2023, CLI strategically secured a total landbank of 112.5 has across key VisMin locations, laying the groundwork for future development initiatives. Notably, a portion of this land comprises gestating township projects, offering a potential source of landbank for up to five years. Underlining its commitment to expansion, CLI continues its proactive search for high-potential landbank across VisMin, ensuring a continuous and strategic approach to securing opportunities for future development. This foresighted land acquisition approach solidifies CLI's position for sustained growth and innovation in the real estate sector.

Establish and leverage strategic partnerships, alliances, JVs, and cooperation

CLI will also continue to pursue local partnerships that will serve to enhance its expansion plans. The Company has proven that strategic alliances can provide a winning formula for securing strategic locations and entering new markets for as long as the JVs are executed with best practices. Real Estate Landscape in Visayas and Mindanao

Based on Colliers Philippines' 2023 Real Estate Market Study, it was reported that CLI remained as *"The Leading Residential Developer in VisMin"*, with the largest market share among real estate firms that provide condominiums and house and lot projects in the region. The 2023 study shows that CLI leads the residential market with a 23% market share (vs. 18.3% in 1H 2022) in terms of net take-up from 4,233 units across key VisMin cities.

The real estate industry in VisMin and its trend

There is a decline in both launches and take-up due to limited supply and increasing prices of both land and units. In the condominium sector, despite the decline, the figures still show a faster pace compared to the pandemic figures (2020-2021). Conversely, for the house and lots segment, there is a downward trend since 2019 due to higher land prices and an increase in mortgage rates. Thus, several developers have been holding up launches of new horizontal projects.

Bulk of supply comes from the lower-mid income segment for condominiums and affordable segment for house and lots. A recent directive issued by the DHSUD adjusted the price ceiling of economic housing projects, increasing it from ₱1.70 million to ₱2.50 million. Consequently, these projects now fall within the purview of the affordable housing segment.

There is a total of 5,773 condominium units net take-up for VisMin with only Puerto Princesa showing positive take-up growth at 253% y-o-y. The highest average total contract price is Davao at ₱5.30 million, though significantly lower than Metro Manila at ₱9.90 million.

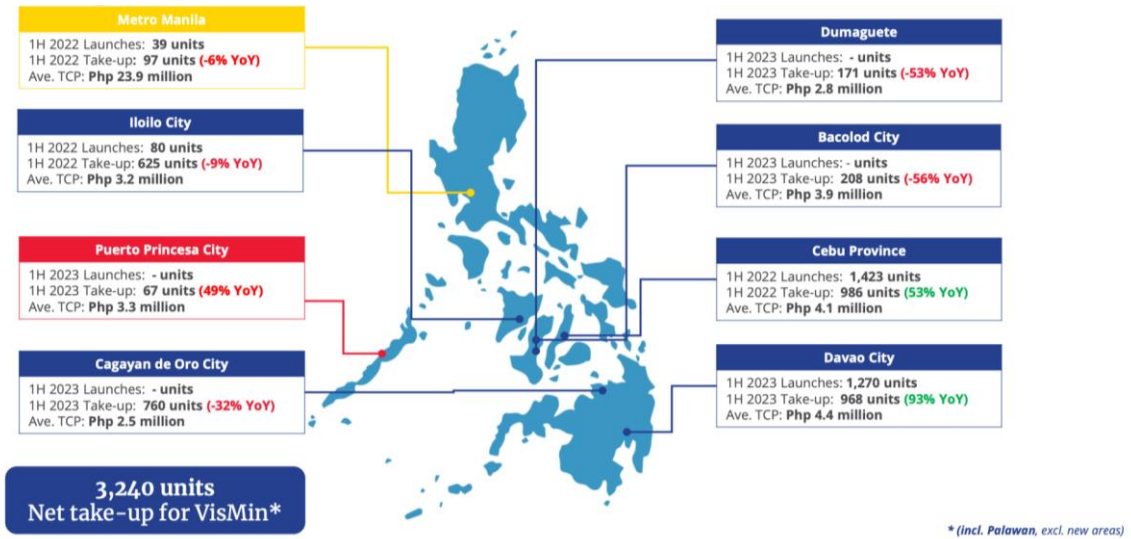

There is a total of 3,240 house and lot units' net take-up for VisMin with only Cebu and Davao showing positive take-up performance versus previous year. The highest average total contract price is in Davao at ₱4.40 million, though significantly lower than Metro Manila at ₱23.90 million.

Hospitality Market in Cebu, Bacolod, and Davao

The increase in the tourist activity all over the Philippines has been driving the increase in occupancy levels for the hotel market in Cebu City, Bacolod City, and Davao City, with 60-80% occupancy rates. Hotels have reported higher bookings and are expected to reach above 70% in Q4 2023. Resorts, more specifically, have been driving the increase in room rates as these hotels expect foreign vacationers to start coming as the peak season begins.

Competitors

CLI is within the field of top industry players and local developers across its product range. The Company goes head-to-head with national players such as Vista Land, Megaworld Corporation, SM Development Corporation, Ayala Land Inc., 8990 Holdings, AboitizLand Inc., and DMCI Holdings Inc.

The Company also competes with established local developers in Cebu, and other parts of VisMin, like Profriends Inc., Primary Homes Inc., Wee Community Developers Inc., Johndorf Ventures Corporation, and Grand Land Inc.

The Company's direct competitors in the different markets tend to be the local developers entrenched in those cities. But the Company's advantage is the breadth and quality of its offerings while delivering them at the same competitive price points in their respective markets.

CLI uses its fundamental competencies – hands-on personalized service, local (*i.e.*, VisMin) real estate experience, strategic location selection, and responsible development – as well as its aggression, business productivity, and best value projects – to leverage itself against competitors.

Suppliers

Through a pre-qualification and bidding procedure, CLI obtains construction materials and services from third-party suppliers and partners both locally and nationally that fulfill the Company's stringent quality requirements. The Company does not foresee a shortage in raw materials or services for its operations as it establishes strong partnership with various stable and resilient suppliers and contractors.

The Company evaluates suppliers who can deliver the best value at the highest quality and at the lowest cost through its supply chain management team. CLI also selects suppliers that can provide safe and on-time delivery, as well as the ability to adapt and innovate in order to suit the Company's needs. Simultaneously, the Company has the appropriate internal controls, organizational structure, and financial sustainability to ensure the supplier's continued delivery as contracted.

On a project-by-project basis, the Company engages contractors to do land development and project construction. While CLI used to outsource architectural and engineering services for all its projects, the Company began undertaking engineering and architectural design to be developed internally allowing the Company to save on costs.

Construction Contracts

For each horizontal and vertical development, the Company engages various general and specialty contractors with both local and national experience. Majority of the Company's construction contracts pertain to general construction works and house construction. For this purpose, the Company executes standard construction contracts which contains provisions governing the relationship, rights, and obligations of the parties, including the contractor's scope of work, bonds and insurances, completion time, and responsibility of the contractor for any damage or destruction of works until final acceptance.

With over 170 engineers in its roster, the Company handles the project and construction management aspect of every project and manages the various contractors and sub-contractors that are utilized. As the project manager, the Company controls the delivery of its projects with priority on promptness, quality, and professionalism. The Company does not have any in-house construction or any affiliated general contracting business.

Customers

CLI caters to several real estate categories – residential, retail, offices, and hotels. Among the four categories, the Company’s experience in the industry has been primarily focused on residential development which comprises 98.5% of total current projects.

Of the Company’s real estate developments, 28% of CLI’s horizontal and vertical projects serve the needs of the mid-market. Fast-selling projects like Midori Residences, Midori Plains, Velmiro Heights, Mivesa Residences, MesaVerte Garden Residences, Velmiro Uptown CDO, and Mivela Garden Residences show the growing demand for new, well-built, well-planned, and strategically located homes for the mid-market segment. CLI’s mid-market clients are those who can afford a monthly equity payment of ₱8,000.00 to ₱15,000.00 and an annual income of ₱400,000.00 to ₱800,000.00.

The Company also caters to the upper-mid market segment who can afford a monthly equity of ₱15,000.00 to ₱20,000.00 and earning ₱1.00 million to ₱3.00 million annually. These market segments prefer units at a price range of ₱5.00 million and above.

Employment Profile	%	Citizenship	%	Marital Status	%
Locally employed	58%	Filipino	97%	Married	43%
OFW	30%	Foreigner	3%	Single	50%
Self-Employed	12%			Others	7%

For its leasing business, the Company’s top lessees include BPO companies, supermarkets, service providers and food establishments.

CLI is committed to continuously addressing the growing needs and demand of the market in each segment the Company caters to. CLI aims to constantly innovate, and remain consistent with the quality of the developments, the selection of location and the hands-on service that goes along with it.

The Company has over 216,000 different live sales contracts and no single contract accounts for 20% or more of CLI’s sales. These are all different and distinct individual buyers.

CLI has a wide customer base and thus, is not dependent on a single or a few customers. Consequently, the Company is of the view that the loss of one or a few customers (e.g., cancellations of purchase, lease contracts) will not have a material adverse effect on the Company and its Subsidiaries.

CLI uses standard Contracts to Sell for the sale of its units, whether house and lot, condominiums, condotels, or offices. It contains all the necessary terms and provisions until such time that a deed of absolute sale can be executed by both parties. A deed of absolute sale is executed upon the complete submission of necessary documents, full payment of the purchase, the proper subdivision of the mother titles and other such necessary administrative procedures to ensure the eventual transfer of the individual title to the respective buyers. No one sales contract contributes to more than 1% of the Company’s overall revenues.

Leases for retail spaces within CLI’s mixed-use developments, as well as office spaces within its office developments are generally short-term ranging from one to three years, with renewability clauses. Leases are fixed rates with predetermined escalation clauses. No one leasing contract or tenant group contributes to more than 1% of the Company’s overall revenues.

The Office of the CFO, together with the Compliance Officer, undertakes regular identification, review, and evaluation of the Company's related parties and related party transactions, which are submitted to the Board RPT Committee either for information or approval, depending on whether the related party transaction breaches the RPT threshold set by the Company or is otherwise a Material RPT.

For the period ending December 31, 2023, this included the approval of shareholder advances to related party JV entities, real estate purchases from related party JV entities, and procurement of contracted services from other related parties.

Other RPTs not breaching the ₱50.00 million RPT threshold, or the 10% Materiality threshold are still required to be disclosed and reported to the Board RPT Committee through quarterly RPT reports prepared and presented by the CFO and the Compliance Officer, for information purposes only. Health, Safety, and Environmental Matters

The Company is subject to a number of laws and regulations relating to the protection of the environment and human health and safety, including those governing air emissions, water, and wastewater discharges, and odor emissions and the management and disposal of hazardous materials. The Company applies its quality standards uniformly across all its production and distribution facilities.

Effect of Compliance

Companies are faced with a high cost of compliance, but in general the benefits outweigh the cost. For FY2023, the costs of compliance with environmental laws and development of green features and other

initiatives to mitigate environmental impacts amounted to more than ₱40.33 million recorded as part of operating expenses and as project cost. The capitalized costs primarily pertain to costs on sewage treatment plants electro-mechanical system works, green building certifications, construction of material recovery facility, solid waste recycling, topographic survey, geotechnical investigation/engineering and geohazard assessments, soil investigation, drainage impact assessment, tree growing program and other expenses related to the ECC post conditions compliance requirements, while the operational costs pertain to permits and licenses. .

Given the scale of the Company's operations, environmental compliance is a means for CLI to ensure that impacts of environmental risks are mitigated. The Company's land development activities have direct impacts on the environment. The Company's use of materials, water, and waste can affect soil and water as well as biodiversity and habitats while emissions from construction and operations have an impact on air quality.

In response to the Company's potential environmental impacts, CLI established a team dedicated to managing and monitoring compliance. The External Affairs / Permits and Licenses Department, the Company's Strategic Business Units, and CLI Property Management and Engineering ensure that the Company complies with relevant environmental laws. The Company's in-house Pollution Control Officers submit a quarterly Self-Monitoring Report and bi-annual Compliance Monitoring Report to the DENR-EMB.

The Company neither had recorded cases of nor received sanctions for non-compliance with environmental laws and/or regulations in 2023. This attests to the effectiveness of the Company's mechanisms in ensuring compliance. In the future, the Company aims to improve its system by investing in internal training and third-party advisories to monitor full compliance to the environmental laws and regulations and correct any non-compliance issues that may occur.

For CLI, compliance to sustainability, particularly environmental, social, and governance standards and regulatory requirements has helped the Company make better and more efficient decision making. This exercise has served to reinforce CLI's risk assessment and management. Social and environmental data baselining and compliance monitoring have supported the establishment of the Company's sustainability strategy aligned to its enterprise risk management.

CLI continues to work towards business process improvement and business model innovation and explore strategies on how sustainable practices can best be applied or embedded in the value creation process. All these add value in the process of risk identification and mitigation, thereby reducing identified corporate risks.

ESG Reporting Process and Governance

CLI'S STATEMENT OF COMMITMENT AND 5-PILLAR SUSTAINABILITY STRATEGY

CREATING LASTING IMPACT

We are committed to creating long-term value for our business and stakeholders by driving innovation and improving the quality of life of our people, customers and communities while we strive to manage our environmental impacts responsibly, ethically and with transparency.

Being a publicly listed company, CLI has complied with the requirements of the Securities and Exchange Commission on the aspect of Sustainability and Environmental, Social and Governance (“ESG”) reporting. CLI published its first Integrated Report covering 2022 performance. Having been able to systematically account its positive and negative impacts, the Company’s financial, natural, social, manufactured, and human capitals and other non-financial metrics have driven the Company to identify aspects that are most material to the business and to its stakeholders, thereby having the mindset of going beyond compliance --- through process improvements that allow the Company to reduce its negative impacts and increase its economic contribution in the local communities where it conducts business.

Enhancing Brand Value and Market Leadership

Reporting on financial and non-financial metrics draws the attention not just of investors but also of consumers. The Company recognizes that society demands more companies serve a higher purpose than just delivering a strong financial performance. By complying with the requirements of balanced reporting, the Company’s stakeholders and the external public are informed about its impacts, performance, and contributions. Compliance with social, environmental, and other regulatory and statutory requirements has propelled CLI to develop more products, more than half of which are addressing a housing demand in the VisMin region. CLI believes that its compliance submissions have helped it to maintain a strong presence in the VisMin markets.

With the Company’s strong relationships with partner LGUs, broker community, and its JV partners, CLI is considered a trusted brand. CLI has 23% market share in the Visayas and Mindanao in terms of overall net-take up of residential units for vertical and horizontal developments, according to a survey undertaken by Colliers Philippines in the first half of 2023. As a result, CLI has strengthened its position as the leading residential developer in the VisMin region.

CLI has responded well to the increasing market demands of VisMin, outpacing other developers in finishing construction and delivering completed units to its customers.

As a result of the Company’s initiatives, CLI was recognized as one of the BCI Asia’s Top 10 Developers in the Philippines for 2018 to 2023. The BCI Asia Awards seeks to recognize top developers and architects that have ‘the greatest impact on the built environment in Southeast Asia’. The top 10 developers are identified as ‘the firms with the aggregate value of projects under construction by the extent of their sustainability and confirmed green building ratings’.

In addition, CLI won several awards during the Annual PropertyGuru Philippines Property Awards with its CEO, Jose Soberano III, honored as the Real Estate Personality of the year 2023.

CLI also received a two-Golden Arrow Recognition in 2023, given by the Institute of Corporate Directors to top Philippine publicly listed companies and insurance companies in corporate governance, based on the 2022 ASEAN Corporate Governance Scorecard and Corporate Governance Scorecard Assessment Results, respectively.

CLI Workforce, Customers, and Communities

On the aspect of talent acquisition, being purpose-driven and compliant to regulatory and statutory requirements, especially on labor laws, has definitely given CLI a competitive advantage. By defining the Company’s priority areas through a materiality process, CLI is provided guidance and as a result the Company is able to attract and retain top caliber talents. Employee engagement activities use themes that relate to sustainability, safe, and healthy workplace practices, and cultivating a culture of innovation among departments and cross-functional teams. All these programs help attract, continue to develop, and retain talents within the organization.

On the aspect of health and safety, CLI recognizes that consumer behavior has dramatically changed in recent years --- especially with the onset of the pandemic. Society has been driven to pay more attention to health, safety, and environmentally healthy lifestyle. Compliance and reporting on DOLE-mandated safety protocols and other pandemic response programs have resulted in better work conditions, lesser exposure to diseases and COVID-19 cases, reduced absences and therefore, better productivity which result in better operational and financial performance.

While CLI grows its business, it has built and strengthened its relationships by partnering with local communities and complying with requirements of local government units and national government agencies. This serves as the Company’s social and relationship capital that gives it social license to do business in the local area.

Resource Use, Managing Impacts, and Biodiversity Management

With the significant increase in oil price brought about by the Russia-Ukraine war and with continuing water supply issues in the local areas, there is a need to reduce the Company’s resource consumption, including the need to be less energy-dependent. The necessity of introducing energy and water saving initiatives was further driven by the Company’s data management tools that will allow it to target reduction of energy and water use in its real estate project developments. In addition, compliance with environmental laws and standards has propelled the Company to introduce product design innovations or the application of green building features in its projects that will help reduce consumption. In addition, compliance to post-conditions of its ECCs have driven the Company to assess, protect, and enhance its ecosystems within or adjacent to its developments and even focus on climate change-related financial impacts as the Company develops more projects in the future.

Contribution to United Nations’ Sustainable Development Goals (“UN SDG”)

Focus on UN SDG contributions ensures that CLI’s products, programs, and initiatives contribute to the alignment and achievement of global sustainability goals. This means that the Company’s products, programs, and initiatives address local issues and contribute to the local economic development of the area where the Company does business, without losing sight of the overall global issues that face the world today.

Efforts to professionalize the Company over the last 18 years are evident as the Company has grown from two employees to a dynamic team of executives, managers, officers, and staff instilled with the Company's brand of professional work ethics and strong corporate values.

The Company has 914 number of full-time employees as of end 2023, across all business segments and administrative functions. The Company anticipates that it will have around 1,000 full time employees within the next 12 months.

CLI employees are not subject to collective bargaining agreements. Its employees have not been on strike in the past three years, nor are they threatening to strike.

The Board of Directors of CLI, during its Special Board meeting on October 6, 2021, approved the Executive Stock Option Plan ("ESOP") for qualified officers. This is a type of performance incentive, where options are granted to purchase the shares of the Company at a discount. There are no other rights and benefits granted to the subscribers of shares under the ESOP other than the typical rights and benefits available to ordinary shareholders.

The shares that may be exercised from these options will be sourced from the treasury shares of the Company or from publicly traded shares. The objectives of the plan are: (a) to attract, retain, and motivate talented and key employees; (b) to encourage employees to align individual performance with Company objectives; and (c) to reward employee performance with stockholdings in proportion to their contribution to the Company.

Each level has a predetermined number of shares exercisable per year with a four-year vesting period. The exercise price is the higher of ₱2.25 or current market price with a 15% discount. The current market price is computed as the average closing price for the last five trading days.

Shares bought under the ESOP cannot be sold, assigned, or transferred in any manner for at least six months from the exercise date.

Voting and dividend rights vest upon the issuance of the shares to the employees.

Other than the ESOP, CLI also has a Savings Program Prior to Normal Retirement (“**SPP**”) which is incorporated in its Amended Retirement Plan. The SPP serves as the retirement plan for all CLI regular employees who resign prior to the optional retirement age of 60 years old or the mandatory retirement age of 65 years old. The equivalent of 5% of the employee’s basic salary is set aside by CLI every month while the employee remains in the employ of CLI.

Upon resignation, the employee will be entitled to his or final balance as follows:

Vested Benefit %	Number of Continuous Service (from January 01, 2015)
0%	Less than 5 years
50%	5 years
60%	6 years
70%	7 years
80%	8 years
90%	9 years
100%	10 years and above

Given the above, a qualified CLI employee will be entitled to and avail either the 1) Normal Retirement benefits as mandated by law or 2) the Vested Benefits under the SPP, whichever is higher.

Sixty days' notice is required from tenants for the extension or pre-termination of their leases, and a two-month security deposit is paid at the commencement of the lease. The Company charges rent as a fixed rent per sq.m., which may be subject to an escalation clause.

In its leases with its related entities, the Company observes arm's length commercial terms and considers the current rentals payable by tenants of the condominium units and parking slots that are operational at presently reflect prevailing market rents.

Leased Properties

The Company leases, from third parties, properties for use as office space and staff houses of its employees located on sites outside of Cebu.

In 2019, with the approval of the National Historical Commission of the Philippines, CLI entered into a 40-year lease contract with the Archdiocese of Cebu to redevelop Patria de Cebu, a 6,670 sq.m. property in downtown Cebu. This mixed-use development's concept and design is inspired by Filipino-Spanish culture, history, and architecture.

In 2020, the Company signed a 43-year lease contract to develop Masters Tower Cebu, a mixed-use tower located at Cebu's preferred business address, Cebu Business Park. The project will be on a 2,840 sq.m. property and will offer prime office and retail spaces and the first five-star luxury hotel in Cebu City. Sofitel, Cebu City will be operated by multinational chain Accor, a world leading hospitality group headquartered in France.

Sugbo Prime Estates, Inc. was formed in 2021 by CLI and the Farrarons family as a joint venture. The joint venture will build a mixed-use development on a leased property with a 22-year term remaining. The project, now named Banilad High Street, will include retail areas as well as a 300-room dormitory.

The properties being leased by the Company and its subsidiaries are summarized as follows:

Mortgage, Liens, and Encumbrances

CLI has 58 principal owned properties valued at ₱19.58 billion and located across VisMin with 38 being located in Cebu, six in Bacolod, four in Davao, three in CDO, two in Iloilo, two in Dumaguete, one each in Bohol, Ormoc, and Mindoro. Of these properties, ₱17.03 billion are mortgaged with different local bank partners whose development loans are not yet fully paid while ₱2.55 billion are clean and free of any lien.

In Billions ₱	Mortgaged	Clean	Total
Real Estate Inventories	9.51	1.22	10.73
Property and Equipment	0.62	0.09	0.71
Investment Properties	6.90	1.24	8.14
Grand Total	17.03	2.55	19.58

Please see above table under the heading “*Land Inventory*” in this section “*Description of Property*” for the parcels of land subject of a security interest.

Under Section 18 of Presidential Decree No. 957, no mortgage on any unit or lot shall be made by the owner or developer without prior written approval of the HLURB (now DHSUD). Accordingly, before the Company mortgages properties being used for its condominium or subdivision projects, it ensures compliance with the said law and its implementing regulations.

Properties of the Company and its Subsidiaries, in which particular projects have been developed, are also subject to restrictions arising from the nature of such projects. For instance, certain properties over which a condominium building project has been constructed would have restrictions annotated on the title of such property arising from the Master Deed restrictions on the use of the property for condominium use.

Property under mortgage restricts the debtor from selling, alienating, incurring, taking on, or allowing to exist any other mortgage, lien, pledge, or other charge or encumbrance upon or with respect to any or all of the debtor’s present or future fixed assets, machineries, and equipment other than in the normal course of its business. Additionally, in order for a property to be free of restrictions, the debtor is required to obtain prior approval from the bank (creditor) and the related loan obligation on which the property is mortgaged must be fully satisfied.

Within the next 12 months, the Company intends to purchase parcels of land for expansion projects in the cities of Naga, San Fernando, Cebu, Magtuod, and Iloilo, which are still pending negotiations with their respective landowners. Acquisition prices are still being negotiated and will be determined in full after the contracts are executed. These sites will be purchased with funds that CLI has generated internally.

Likewise, properties being leased by the Company are subject to typical lease-related limitations on usage, *i.e.*, for office use only.

Insurance

CLI procures insurance coverage required by relevant laws and regulations for its real and personal properties and requires contractors to submit performance Offer Shares, marine insurance policies, and other sureties for its covered activities. Throughout the construction stage, the Company also maintains a contractor’s All-risk Insurance for each of its projects, subject to customary deductibles and exclusions. For completed projects, the Company likewise requires homeowner’s associations and condominium corporations to obtain fire and allied risks insurance as part of the master deed for these projects.

Intellectual Property

CLI ensures compliance with intellectual property laws and regulations, including guidelines and issuances of the Intellectual Property Office of the Philippines (“**IPOPHL**”). CLI recognizes the importance of its trademarks as among its valuable assets and help distinguish CLI’s products and services from competitors. Thus, protection of its trademarks is a priority of CLI.

Atty. Ricardo Abangan Boligao, Jr., independent external counsel for CLI, has examined the above-mentioned permits and licenses. In his examination, he assumed the genuineness and authenticity of all documents submitted to him as originals. He also relied upon the certification and representations of CLI's officers and other authorized representatives. On the basis of such examination, Atty. Boligao is of the opinion that: (i) CLI and its subsidiaries have secured (or in the process of securing) all the mandated permits and licenses which are material and necessary to operate its business as currently conducted; and (ii) the permits that have been secured by CLI and its subsidiaries are valid and subsisting.

LEGAL PROCEEDINGS

As of date of this Prospectus, the Company and its Subsidiaries are not a party to, nor are any of the Company's or its Subsidiaries' properties the subject of any pending material litigation, arbitration, or other legal proceeding, and no litigation or claim of material importance is known to the management and the directors to be threatened against the Company, its Subsidiary or any of its properties, except for the civil cases involving the Company, as summarized below and as disclosed in the Certification dated January 11, 2024 in respect of ongoing legal proceedings involving the Company.

CASE NAME	DATE INSTITUTED	COURT / AGENCY	RELIEF SOUGHT	SUMMARY AND LATEST STATUS
Wood Innovation Trading, Inc. v. Sps. Bouffard and Cebu Landmasters, Inc.	November 2017	RTC Br. 41, Dumaguete City	Annulment of Sale, Certificates of Titles, Tax Declarations, with Recovery of Ownership and Damages	The Plaintiff alleged that it had prior rights over two properties that the Company acquired in March 2017. Accordingly, the Plaintiff is seeking ₱10.70 million in damages and cancellation of the titles issued to the Company. CLI maintains its defense that there is no double sale and that it had no knowledge of its co-defendant's alleged prior transaction with the Plaintiff. On August 20, 2019, the Regional Trial Court in Dumaguete City dismissed the Plaintiff's claims. Nonetheless, the case remains pending as the Plaintiff refiled the case and the Company pursued its counterclaim of ₱800.00 million against the Plaintiff. Currently, the case is on trial, and for CLI to present its witnesses.
Pag-IBIG FUND – WTC Condominium Corporation v. J.E. Abraham Lee Construction, Cebu Landmasters, Inc., and BLCBP Ventures, Inc.	July 2022	RTC Br. 9, Cebu City	Easement of lateral and subjacent support and damages	CLI received the summons for this complaint instituted by Pag-IBIG FUND – WTCI Condominium Corporation on July 7, 2022. The Plaintiff alleged that the construction of BLCBP Ventures, Inc.'s building adjacent to that of the Plaintiff's caused cracks in the basement of the latter. CLI maintains as its defense that there is a lack of cause of action against CLI and it is being impleaded as a defendant merely by being a managing partner of BLCBP Ventures, Inc. Currently, the case is approaching the trial stage. Despite this, the Parties are still open to signing a compromise agreement.

Sanford Marketing Corporation v. Cebu Landmasters, Inc. and Carwill Construction Incorporation	November 2022	RTC Br. 39, Cagayan de Oro City	TRO, preliminary injunction, and damages	CLI received the summons for this Complaint on November 28, 2022. This case was filed by the Plaintiff who owns a building adjacent to CLI's residential development in Cagayan de Oro City. The Plaintiff alleged that falling debris and a fire in the Plaintiff's warehouse were caused by CLI's construction activities. CLI, on the other hand, raised procedural issues on the complaint such as the improper joinder of parties and lack of jurisdiction, and alleged that the Plaintiff has not sufficiently substantiated their allegations. The Judge deferred the trial and has only set status hearings with CLI's general contractor, Carwill, which has undertaken to improve safety on the site.
Sps. Villacarlos v. CLI	March 2022	HSAC 1 st Division (HSAC-RAB VII)	Specific Performance	This case was filed by spouses-buyers in a residential development of the Company in Cebu City on 3 March 2022 with the Human Settlements Adjudication Commission (HSAC). The Complainants alleged that they have established interest and rights over a particular parking unit in the development. CLI maintains as its defense that the complainants' occupancy of the subject parking unit was merely temporary and tolerated; moreover, the slot had been already sold to another buyer. HSAC ruled against the Complainants, but they have opted to appeal. Currently, the case is before the Court of Appeals.

During the first nine months, CLI launched a total of eight projects valued at ₱15.00 billion. Part of the launch is the introduction of the Mirani brand addressing the needs of the low-income segment, offering residences priced between ₱1.90 million to ₱2.90 million. Another notable project launch is Mindara Residences which experienced an exceptional market response, selling out nearly 546 of its units and amassing ₱2.50 billion in sales within the first week of its launch. CLI also introduced its first house and lot project in Davao, Casa Mira Davao, which has achieved an impressive 95% sales milestone. Other project launches include Casa Mira Towers Mandaue T1, Mandra T2, CMT Palawan T4, CMT Bacolod T4, Casa Mira Homes Davao, and Costa Mira Panglao T3, further diversified CLI’s offerings. This substantial fresh inventory, coupled with the continued high demand for the acclaimed Casa Mira brand, propelled CLI to achieve its highest 9-month reservation sales figure, surging by 25% to reach ₱17.00 billion during this period.

Davao projects accounted for the majority of the sales with 42% of the total sales, Cebu with 26%, Bohol with 13%, Bacolod with 9% and Palawan with 7% while Dumaguete, Iloilo, Ormoc, and CDO contributed the remainder of the total sales.

In terms of market segment, Casa Mira - Economic brand led the market with 52% of total sales, primarily from Casa Mira Davao, Casa Mira Danao, and Casa Mira Towers in Palawan and Bacolod.

To date, CLI has already sold out 93% of its inventory across all projects in various phases of development, enabling the Company to hike its unrecognized revenue to ₱30.00 billion, up from ₱29.30 billion as of the end of 2022.

For the remaining months in 2023, CLI will be launching two more developments to account for the 10 pipeline projects worth ₱18.30 billion for the year.

The Company has invested ₱10.40 billion in capital projects so far as of nine months 2023, 86.7% of which went towards project development, and 6.2% spent for land acquisition, CLI is expanding in Mindanao by most recently purchasing 21 hectares in General Santos City, increasing its landbank to 112.5 hectares with a total value of ₱9.80 billion. With this acquisition, CLI is serving the region’s robust and consistent housing demand, being present in 16 key VisMin cities.

In October 2023, CLI entered into a partnership with NTTUDA, an international developer known for commercial properties, including office buildings, residences, and mixed-use developments in Southeast Asia. REVIEW ON THE COMPANY'S RESULTS OF OPERATION

January 1 to September 30, 2023 vs. January 1 to September 30, 2022

For the third quarter of 2023, CLI showcased a commendable financial performance, reporting a consolidated net income of ₱3.03 billion. This figure reflected a significant y-o-y increase of 28% from the previous period's ₱2.37 billion. Furthermore, the Net Income After Tax ("NIAT") attributable to the parent company of CLI demonstrated a solid growth of 9%, reaching ₱2.39 billion compared to ₱2.20 billion of the same period last year. The notable earnings expansion can be attributed to the Company's robust performance across all revenue streams which led to CLI's consolidated revenue increasing by 18% to ₱12.93 billion from ₱10.96 billion the previous year. This is supported by higher construction progress and higher sales take-up. Using the weighted average of 3,465,201,467 shares, EPS was ₱0.69 for the first nine months of 2023 as compared with the same period last year of ₱0.64, an 8% increase.

REVENUES

Real estate sales

Real estate sales recorded a significant 17% y-o-y increase in revenue to ₱12.70 billion from ₱10.81 billion. Higher construction progress and more units that qualified for revenue recognition were the causes of the reported improvement.

In terms of location, Cebu still is the strongest contributor of revenue which accounted for 47% of its overall figure. Visayas (ex-Cebu) and Mindanao contributed 26% and 24%, respectively. The increase in share in revenue outside Cebu was driven by new projects such as East Village Residences, Casa Mira Towers Bacolod, Casa Mira Towers Palawan, and Costa Mira Beach Panglao.

Revenue per Market segment reported the following performance:

Premier Masters (Premier market) recorded revenue of ₱ 3.94 billion, an increase of 63% y-o-y from ₱2.04 billion mainly driven by the new revenue qualifications from Costa Mira Beachtown Mactan and Panglao, Calle 104, Citadines Paragon, and One Paragon Place.

Garden Series (Mid-market), likewise grew 10% y-o-y from ₱3.30 billion to ₱3.63 billion. The increase was steered by The East Village, the first residential project of CLI's Davao Global Township ("**DGT**") and Mandra Residences in Cebu.

Casa Mira Series (Economic market) reported a stable revenue of ₱5.00 billion, driven by Casa Mira South Ph3A2, Casa Mira Towers LPU Davao, Casa Mira Iloilo, Casa Mira Towers CDO, and Casa Mira Towers Mandaue.

The Company expects to grow real estate revenue contribution from projects newly launched during the period.

Leasing

The company experienced a substantial growth in rental revenues, reaching ₱77.32 million, a notable 43% y-o-y surge from ₱54.08 million. This upturn was predominantly driven by a blend of augmented lease rates and the revenue influx from recently completed projects. Notably, as of the nine months of 2023, CLI has significantly expanded its GLA to 35,772 sq. m., marking a remarkable 19% increase from the previous quarter's 30,006 sq.m. This surge is attributed to the successful turnover of Banilad Highstreet and Drive-Thru spaces in DGT, currently boasting impressive lease rates of 70% and 100%, respectively. These developments stand as pivotal contributors to CLI's upward trajectory and burgeoning success in the market.

Hotel operations

The resurgence in the travel and leisure sector served as a powerful catalyst for CLI's hotel operations, resulting in a remarkable upsurge in revenue. Notably, the hotel operations soared to generate ₱98.17 million, a striking leap from ₱55.01 million during the same period in the previous year, marking a robust 78% growth. This impressive increase was primarily fueled by a surge in bookings and elevated room rates, particularly evident in Citadines Cebu City.

Looking ahead, in the upcoming fourth quarter of 2023, the Company is slated to turn over a portion of rooms from The Pad and Baseline Lyf. This move is anticipated to significantly bolster the hotel's keys, escalating from 180 to 338. The remaining hotel keys of The Pad and Baseline Lyf are scheduled for completion in the first quarter of 2024, promising a substantial increase in revenue for the hotel operations in the following year. Furthermore, with seven additional hotels currently under construction, CLI is strategically positioning itself to further capitalize on the burgeoning opportunities within the hospitality sector.

Property Management

This included the project management fee that CLI charges for being the project manager on joint venture projects and the property management fee for CLI Property Management (CLIPMI) services provided to CLI's completed projects. During the year, the parent company's project management revenue reached ₱113.60 million, these are fees charged to CLI's joint venture companies for managing the development of the project. On the other hand, property management fees increased by 14% to ₱46.48 million, from ₱40.86 million in the same period last year, reflecting an increase in managed projects by the property arm.

COST OF SALES AND SERVICES

In line with the growth in revenue performance, the Company's cost of sales for the nine months ending September 30, 2023, was reported at ₱6.79 billion, a 12% y-o-y increase from ₱6.07 billion.

OPERATING EXPENSES

Total operating expenses during the period amounted to ₱1.89 billion, a 19% y-o-y increase from ₱1.59 billion of the same period in 2022. The increase was mainly driven by commissions and incentives which grew by 30% to ₱742.53 million in line with the increase in revenue from real estate sales and robust sales performance during the period.

The Company carefully balanced its debt mix of 65% fixed and 35% floating rates. Due to this, CLI is able to maintain its competitive rate of 6.46% despite an increase in benchmark rates. The stated rate, while being higher than the previous year, is nonetheless competitive when compared to current capital raising rates charged in the sector.

On October 7, 2022, CLI issued its inaugural fixed rate bonds with a total issue size of ₱5.00 billion across the following tenors:

- Series A with a tenor of 3.5 years with a fixed rate of 6.4222%
- Series B with a tenor of 5.5 years with a fixed rate of 6.9884%
- Series C with a tenor of 7 years with a fixed rate of 7.3649%.

The foregoing bonds comprised the first tranche of CLI's ₱15.00 billion shelf program for bonds. The purpose of the 2022 bonds was to raise funds to extend the debt maturity of the company and lock in rates to address any interest rate risk brought about by the challenging macro environment.

NIAT ATTRIBUTABLE TO NCI

For the period ended September 30, 2023, NIAT attributable to NCI increased substantially to ₱636.32 million from ₱169.10 million for same period in 2022. This growth is due to increasing contributions from new joint venture projects such as The East Village T1-T4 (YHEST) in Davao, Calle 104 T1-T2 (BL RAMOS) in Cebu, and Costa Mira Beachtown Panglao in Bohol.

CLI launched Masters Tower Cebu on February 19, 2021, with a target completion date of 2025. The project will include prime office and retail space as well as the Queen City of the South's first five-star luxury hotel. The Sofitel Cebu City will be managed by Accor, a global hotel company with headquarters in France. The construction, which is expected to cost ₱4.00 billion, would be built by EEI Corporation on a 2,840 sq.m. plot in Cebu Business Park, the city's preeminent central business area.

In March 2021, CLI signed a new ₱360.00 million joint venture focused on filling a rapidly rising demand for co-living spaces that deliver affordable, safe transient housing in Cebu for young professionals and students seeking quick access to strategic business centers. Named Sugbo Prime Estate Inc., the

partnership will kick off with a 7,500 sq.m. prime property along Banilad Road and is walking distance to the Cebu IT Park where many BPO firms are located. With renewed BPO interest in Cebu, areas like Banilad surrounding the BPO hubs have become highly in-demand. The mixed-use development will have retail spaces, over 300 dormitory rooms, and a self-storage facility. The project is to be completed by 2023 and primarily targets young professionals and students returning to work and schools, respectively.

In April 2021, CLI broke ground for Patria de Cebu, a new mixed-use development offering 21,000 sq.m. of gross floor area and a 182-room Mercure Hotel at the heart of downtown Cebu City's heritage trail. Patria de Cebu's redevelopment will offer 4,320 sq.m. of food, dining and entertainment spaces and 4,400 sq.m. of office space. The balance will be taken up by Mercure Cebu Downtown set to open in 2025 to be operated by French multinational chain Accor, a world leading hospitality group.

CLI's collaboration with the Archdiocese of Cebu covers the development and operation of the mixed-use project for 40 years.

In May 2021, CLI continued its partnership with BPI Investment Management, Inc.'s ("**BIMI**") managed money market funds by entering into another notes facility agreement worth ₱3.00 billion. The facility was arranged by BPI Capital, which also arranged the initial ₱2.00 billion facility issued last October 2019.

CLI received PRA approval in June 2021 to reclaim and develop the 100-hectare Minglanilla techno business hub in Cebu. Following that, CLI increased its ownership share from 20% to 78% in order to streamline CLI's operations as the development's developer and project manager. During the year, PRA issued a Notice to Proceed for the reclamation. In October 2021, CLI broke ground to begin its development.

In July 2021, CLI revealed its very first resort development – the ₱2.50 billion Abaca Resort Mactan. The 125-room all-suite accommodation will feature stunning panoramic ocean views and will rise 17-stories high on a 4,500 sq.m. property formerly occupied by the multi-awarded Abaca Boutique Resort in Punta Engaño, Lapu-Lapu City, a tourism growth center. CLI purchased the property in 2019 and has signed up with The Abaca Group to continue operating the hotel and providing luxury experiences tailored for local and global tourists when it reopens. To design the resort, CLI tapped internationally renowned architectural firm Büro Ole Scheeren whose projects have won numerous global awards.

On July 14, 2021, CLI distributed 1,909,451,997 new common shares as stock dividends, or 123 new shares for every 100 existing shares. This resulted in an increase in outstanding common shares to 3,461,851,997.

In August 2021, CLI signed a Memorandum of Agreement to acquire 14.3 has of Xavier University – Ateneo de Cagayan's Manresa Property in uptown Cagayan de Oro. CLI's acquisition, named Manresa Town, will be developed with condominiums, dormitories, retail, and commercial spaces that will be an integral part to the masterplanned township of Xavier University Cagayan de Oro. Proceeds that Xavier University will be receiving will be used to develop the new Xavier University Masterson Campus, which at 21 will be three times larger in area than the current campus. Provisions in the agreement prepared by Xavier University and endorsed by Jesuit leaderships in the Philippines and in Rome were approved by the Vatican after a thorough two-year review process. The new 21-ha Xavier University Masterson Campus is envisioned to catalyze development in Northern Mindanao with a Sustainable and New Normal-ready Campus Masterplan. The masterplan of the Xavier University Masterson Campus will blend seamlessly with the adjacent Manresa Town to be developed by CLI, a 14.3-ha mixed-use university town that provides Xavier University students convenient and safe residential options, easy access to commercial establishments and future-ready offices.

In December 2021, CLI and Borromeo Brothers Estate Inc. inaugurated the ₱1.20 billion 4-Star BERDE-certified commercial tower Latitude Corporate Center, increasing CLI's office GLA to over 29,000 sq.m. from 14,000 sq.m. y-o-y. The hybrid office building standing 24-stories high with designated spaces for BPO offices (eighth – 12th floors), Enterprise offices (14th – 16th floors), Executive offices (17th-24th floors) and a retail concept (first and second floors) is strategically located in Cebu Business Park and is among the tallest buildings in the business district. REVIEW ON THE COMPANY'S RESULTS OF OPERATION

FY 2021 vs. FY 2020

CLI recorded net income to parent shareholders of ₱2.61 billion, an increase of 42% from ₱1.85 billion in 2020. The significant increase was driven by the strong topline growth and one-time tax adjustment amounting to ₱293.50 million brought about by the implementation of CREATE Act.

As a result of the application of CREATE Law, lowering RCIT rate of 25% starting July 1, 2020, the current income tax expense and income tax payable, as presented in the 2020 annual income tax return of the Parent Company and the subsidiaries, was lower by ₱11.81 million than the amount presented in the 2020 AFS and such amount was charged to 2021 profit or loss.

In 2021, the recognized net deferred tax liabilities as of December 31, 2020 was remeasured to 25%. This resulted in a decline in the recognized deferred tax liabilities in 2020 by ₱280.80 million and such was recognized in the 2021 profit or loss and in other comprehensive income.

EPS in 2021 was ₱1.04 computed as net income attributable to CLI shareholders amounting to ₱2.61 billion divided by weighted average number of shares of 2,507,833,165, while EPS in 2020 was ₱1.15 computed as net income ₱1.85 billion divided by weighted average number of shares of 1,605,279,067.

The Company’s Gross Profit Margin is dependent on the mix of revenue during the period. For the first nine months of 2023, CLI’s Gross Profit Margin increased from 47%, this is due to the higher contribution of premier projects which generated higher margins (31%) compared to only 24% in 2022. Additionally, recurring projects posted lesser revenue contributions during the year, these projects have Gross Profit Margins with over 50% to 60%. Meanwhile, Net Income Margin remains healthy at 23%.

For the period ended September 30, 2023, all other ratios remain healthy with Return on Assets at 3% and Return on Equity (Parent) at 17%. Net Debt to Equity ratio improved to 1.82x from 1.84x because of capital infusions attributed to joint venture projects. The Company’s current ratio projects ample liquidity at 1.56x.

Management together with key officers continue to effectively handle their respective operations and financial requirements despite the pandemic. As a result, CLI’s financial position remains liquid and strong.

CORPORATE GOVERNANCE

Compliance Policy and Evaluation System

In accordance with the State's policy to actively promote corporate governance reforms aimed to raise investor confidence, develop capital market and help achieve high sustained growth for the corporate sector and the economy, the Board of Directors, Management, and Employees of CLI commit to the principles and best practices contained in the Manual on Corporate Governance (the "Manual"), a copy of which had been duly filed with the SEC in 2017 as an attachment of the Registration Statement filed by CLI for its Initial Public Offering.

The evaluation system established by the Company in measuring and determining the level of compliance with its Manual of Corporate Governance includes the conduct of annual board and committee assessments. In adherence with its Manual on Corporate Governance and Board Charter, the Board conducted its annual performance evaluation and assessment which includes a review and rating of the performance of the Board, individual directors, board committees, and the management team led by the CEO. In coordination with CLI's I.T. Department, the Compliance Officer rolled out the digitalized performance evaluation and assessment forms, for accomplishment by the required respondents. CLI's evaluation and assessment utilized a 5-point scale rating system, with zero (0) being the lowest (representing "Strongly Disagree" as a response to the statement), and the highest being 5 (representing "Strongly Agree"). The duly accomplished assessment forms were then reviewed, verified, and tabulated by the Office of the Compliance Officer. A summary of the results of the assessments, including the various performance ratings and comments of directors and committee members, were presented and discussed during the respective Corporate Governance Committee and Board meetings.

Measures Undertaken to Comply with Leading Practices on Good Corporate Governance

CLI is in full compliance with the Code of Corporate Governance and continues to undertake measures to comply with the adopted leading practices on good corporate governance. The Board of Directors and management team of CLI have promoted and implemented various principles and recommendations under SEC Memorandum Circular No. 19, series of 2016 (otherwise, the Code of Corporate Governance for Publicly-Listed Companies), PSE CG Guidelines, as well as recommended practices under the ASEAN Corporate Governance Scorecard. These are all reported by CLI through its comprehensive Integrated Annual Corporate Governance Reports (I-ACGRs) which are submitted to the SEC, uploaded to PSE EDGE, and posted on CLI's website. CLI's improved and enhanced I-ACGRs continue to provide a clear and succinct picture of its compliances with the recommended principles and best practices in corporate governance, at par, if not exceeding industry standards.

In 2021, CLI established and fully implemented its Enterprise Risk Management (ERM) Framework. CLI's ERM Framework is based on ISO 31000:2018, which aims to provide a foundation for effective planning, implementation, monitoring, review, and continued improvement of the organization's risk management. It establishes a methodology for the identification, assessment, and management of risk, responsibilities for risk management, accountabilities for good governance, and mechanisms to report risk-related information.

In 2022, CLI published its first-ever integrated sustainability report in accordance with globally accepted systems and standards for sustainability and corporate disclosure. CLI cross-referenced general and material disclosure topics on the most widely adopted Global Reporting Initiative standards (GRI Standards), the Sustainability Accounting Standards Board (SASB) and the International Integrated Reporting Council (IIRC). CLI's Sustainability Framework interconnects all the aspects of the Company's operations and provides a snapshot of its EESG profile. It defines the Company's sustainability vision and strategy, goals and objectives, and their alignment and contribution to the UN Sustainable Development Goals (SDGs).

Over the years, CLI has exerted conscious and considerable efforts in enhancing and improving its corporate governance and compliance reporting and disclosures. Primary of which is CLI's I-ACGRs. The improvement of the disclosures in CLI's I-ACGRs was cited by ICD as among the key factors in the improved corporate governance rating of CLI over the past couple of years, culminating in the conferment of the Company's first-ever Golden Arrows. In addition to the revamped I-ACGRs, CLI has

also made conscious and concerted efforts to ensure that the corporate governance disclosures in its structured and unstructured reports, including its Annual Reports, are aligned with the recommended best practices of SEC, ICD, and ACGS standards.

As of the date of this Prospectus, CLI believes that it remains to be substantially in compliance with and has no material deviations from its Manual and as such, no sanctions were imposed on any director, officer or employee on account of non-compliance with the same.

Continued improvement of CLI's Corporate Governance

Recognizing and understanding that good corporate governance is essential to sound strategic business management and sustainable growth and development, CLI fully commits and undertakes to continue to bolster and enhance its corporate governance, not only through its continued and consistent compliance with laws, rules, regulations, and corporate best practices, but also by improving and strengthening CLI's internal controls, risk management, investor and other stakeholder relations, checks and balances, and policies and procedures.

In recognition of its continued efforts and improvements in the area of corporate governance, CLI received its first-ever Golden Arrow, specifically a 2-Golden Arrow Recognition last September 2023, conferred by the Institute of Corporate Directors (ICD) to top Philippine publicly listed companies and insurance companies in corporate governance, based on the 2022 ASEAN Corporate Governance Scorecard (ACGS) and Corporate Governance Scorecard (CGS) Assessment Results, respectively.

REGULATORY FRAMEWORK

Laws on Housing and Land Projects

Republic Act No. 11201: Department of Human Settlements and Urban Development Act

Republic Act No. 11201, or the Department of Human Settlements and Urban Development Act, which was signed into law on February 14, 2019, created the Department of Human Settlements and Urban Development (the “**DHSUD**”), through the consolidation of the Housing and Land Use Regulatory Board (“**HLURB**”) and the Housing and Urban Development Coordinating Council (“**HUDCC**”).⁵ The DHSUD has been mandated to act as the primary national government entity responsible for the management of housing, human settlement, and urban development, and the sole and main planning and policymaking, regulatory, program coordination, and performance monitoring entity for all housing, human settlement, and urban development concerns, primarily focusing on the access to and the affordability of basic human needs. Its powers and functions include the regulation of housing and real estate development.

The DHSUD exercises administrative supervision over the following housing agencies, which shall remain attached for purposes of policy and program coordination, monitoring, and evaluation: (a) National Housing Authority (NHA), (b) National Home Mortgage Finance Corporation (NHMFC), (c) Home Development Mutual Fund (HDMF), and (d) Social Housing Finance Corporation (SHFC).

The Human Settlements Adjudication Commission (the “**HSAC**”) was reconstituted from the HLURB and is mandated to adjudicate, among others, disputes relating to real estate development, homeowners’ association, and appeals from decision of local and regional planning and zoning bodies. Hence, the adjudicatory functions of the HLURB are transferred to the HSAC, and the HLURB is attached to the DHSUD for policy, planning, and program determination only.

On July 19, 2019, the implementing rules and regulations (“**IRR**”) of Republic Act No. 11201 were approved. These describe in more detail the functions of the DHSUD and enumerate the functions of the HLURB that were transferred to it, such as, among others, its regulatory functions, including the formulation, promulgation, and enforcement of rules, standards, and guidelines over subdivisions, condominiums, and similar real estate developments. The IRR of Republic Act No. 11201 also enumerates the oversight and monitoring functions of the DHSUD and its powers and functions in relation to public housing and urban development.

Presidential Decree No. 957: The Subdivision and Condominium Buyers’ Protective Decree

Presidential Decree No. 957, or the Subdivision and Condominium Buyers’ Protective Decree (as amended, “**PD 957**”), is the principal statute regulating the development and sale of real property as part of a condominium or subdivision project. It was enacted to ensure that real estate subdivision owners, developers, operators, and/or sellers provide and properly maintain roads, drainage, sewerage, water systems, lighting systems, and other similar basic requirements in order to guarantee the health and safety of home and lot buyers. PD 957 covers condominium and subdivision projects for residential, commercial, industrial, and recreational areas, as well as open spaces and other community and public areas in the project. The DHSUD is the administrative agency of the government, which, together with local government units, enforces PD 957 and has jurisdiction over real estate trade and business. As mentioned above, the DHSUD has assumed the functions of the HUDCC and the planning and regulatory functions of the HLURB, while the HSAC has assumed the adjudication functions of the HLURB.

All subdivision and condominium plans for residential, commercial, industrial, and other development projects are required to be filed with and approved by the DHSUD and the relevant local government

⁵ In view of this law, Republic Act No. 11201, references to “HLURB” in the laws and regulations mentioned in this section “Regulatory Framework” such as P.D. No. 957, HLURB Resolution No. 985, Series of 2019, HLURB Memorandum Circular No. 03, Series of 2016, B.P. No. 220 and its IRR, Executive Order No. 71, Series of 1993, Republic Act No. 7279, Republic Act No. 9646, Republic Act No. 4726 and Environmental Laws and Safety Standards, have been changed to “DHSUD”. Such similar references have been also used elsewhere in this Prospectus.

unit where the project is situated. Approval of such plans is conditional on, among other things, the developer's financial, technical, and administrative capabilities. Before it is approved, the subdivision plan must comply with the Subdivision Standards and Regulations. On the other hand, the condominium plan, in addition to complying with the same procedure, must also comply with Presidential Decree No. 1096, or the National Building Code, with respect to the building(s) in the condominium project. The owner or developer is required to submit the condominium plan in accordance with the requirements of the National Building Code to the building official of the city or municipality where the property lies and the same will be acted upon subject to the conditions and in accordance with the procedure prescribed in Section 6 of Republic Act No. 4726, or the Condominium Act.

Alterations of approved condominium plans affecting significant areas of the project, such as infrastructure and public facilities, also require prior approval of the DHSUD and the city or municipal engineer.

The development of subdivision and condominium projects can only commence after the relevant government bodies have issued the required development permit and the necessary building or construction permits in accordance with the requirements of the city or municipality where the property lies. The issuance of a development permit is dependent on, among other things: (i) compliance with the required project standards and technical requirements that may differ depending on the nature of the project; and (ii) issuance of the barangay clearance, the locational and zoning clearance, permits issued by the Department of Environment and Natural Resources ("**DENR**") such as the Environmental Compliance Certificate ("**ECC**"), conversion order or exemption clearance from the Department of Agrarian Reform ("**DAR**"), permit to drill from the National Water Resources Board, and such other permits and approvals. In cases where the property involved is located in an area already classified as residential, commercial, industrial, or other similar development purposes, a DAR conversion order shall no longer be required as a precondition for issuance of Certificate of Registration and License to Sell.

Developers who sell lots or units in a subdivision or a condominium project are required to register the project with and obtain a License to Sell from the DHSUD. Subdivision or condominium units may only be sold or offered for sale after a License to Sell has been issued by the DHSUD. Further, to ensure that the owner or developer of a proposed subdivision or condominium project shows firm commitment to proceed with a project, current DHSUD regulations require minimum developments before the issuance of a License to Sell: (a) for subdivision projects, proof of land clearing and grubbing, road tracing and entrance gate if included in the brochure or advertisement; and (b) for condominium projects, excavation per approved plan/excavation permit is required.

As a requisite for the issuance of a License to Sell, developers are required to file with the DHSUD any of the following to guarantee the construction and maintenance of roads, gutters, drainage, sewerage, water system, lighting systems, and full development of the subdivision or condominium project, and compliance with applicable laws, rules, and regulations:

1. a surety bond callable upon demand equivalent to 20% of the development cost of the unfinished portion of the approved plan, issued by a duly accredited bonding company (whether private or government) and acceptable to the DHSUD;
2. a real estate mortgage executed by the applicant developer as mortgagor in favor of the Republic of the Philippines, as represented by the DHSUD as mortgagee over property other than that subject of the application, free from any liens and encumbrance, and provided that the value of the property, computed on the basis of the zonal valuation of the Bureau of Internal Revenue, shall be at least 20% of the total development cost; or
3. other forms of security equivalent to 10% of the development cost of the unfinished portion of the approved plan which may be in the form of the following:
 - a) a cash bond;
 - b) a fiduciary deposit made with the cashier and/or disbursing officer of the DHSUD;
 - c) a certificate of guaranty deposit issued by any bank or financing institution of good standing in favor of the DHSUD for the total development cost;
 - d) a letter from any bank of recognized standing certifying that so much has been set aside from the bank account of the developer in favor of the DHSUD, which amount may be

- withdrawn by the DHSUD at any time the developer fails or refuses to comply with its duties and obligations under the bond contract; or
- e) any irrevocable credit line to be utilized in the development of the project from any bank of recognized standing and a refinancing re-structuring program indicating sources of funding from duly accredited funding institutions.

The DHSUD is vested with quasi-judicial powers and regulatory functions necessary for the enforcement and implementation of PD 957. Among these regulatory functions are: (i) regulation of the real estate trade and business; (ii) registration of subdivision lots and condominium projects; (iii) issuance of License to Sell subdivision lots and condominium units in the registered units; (iv) approval of performance bond and the suspension of License to Sell; (v) registration of dealers, brokers, and salesman engaged in the business of selling subdivision lots or condominium units; (vi) revocation of registration of dealers, brokers, and salesmen; (vii) approval of mortgage on any subdivision lot or condominium unit made by the owner or developer; (viii) granting of permits for the alteration of plans and the extension of period for completion of subdivision or condominium projects; (ix) approval of the conversion to other purposes of roads and open spaces found within the project which have been donated to the city or municipality concerned; (x) regulation of the relationship between lessors and lessees; and (xi) hear and decide cases on unsound real estate business practices, claims involving refund filed against project owners, developers, dealers, brokers, or salesmen, and cases of specific performance.

The DHSUD is also authorized, *motu proprio* or upon verified complaint filed by a buyer of a subdivision lot or condominium unit, to revoke the registration of any subdivision or condominium project and the License to Sell any subdivision lot or condominium unit in said project upon showing that the owner or dealer:

- a) is insolvent;
- b) has violated any of the provisions of PD 957, or any applicable rule or regulation of the DHSUD, or any undertaking under his/its bond;
- c) has been or is engaged or is about to engage in fraudulent transactions;
- d) has made any misrepresentation in any preliminary prospectus, brochure, circular, or other literature about the subdivision project or condominium project that has been distributed to prospective buyers; or
- e) does not conduct business in accordance with law or sound business principles.

Project Permits and Licenses to Sell may be suspended, cancelled, or revoked by the DHSUD, by itself or upon a verified complaint from an interested party, for reasons such as involvement in fraudulent transactions, misrepresentation, and/or failure to conduct business in accordance with law or sound business principles. A License or Permit to Sell may only be suspended, cancelled, or revoked after a written notice to the developer has been served and all parties have been given an opportunity to be heard in compliance with the DHSUD's rules of procedure and other applicable laws.

HLURB Resolution No. 985, Series of 2019: 2019 Real Estate Development Monitoring Rules of HLURB

On June 17, 2019, the then HLURB (now the DHSUD) released HLURB Resolution No. 985 entitled Approving the 2019 Administrative Rules of Procedure in the Monitoring of Real Estate Development Projects and Imposition of Sanctions for Violation of PD 957 and Other Related Laws and their Implementing Rules and Regulations. This is primarily aimed at ensuring the faithful observance by owners and/or developers of their obligation to fully develop the project on time and in accordance with the approved development plan, contractual stipulations, sales representations, and pertinent conditions imposed in clearances, permits, and licenses.

The Regional Officer shall have jurisdiction and power to investigate land use or development projects in real estate transactions and verify reports of alleged violations of the laws, rules, and regulations implemented by the DHSUD. The Regional Officer may issue an Authority to Monitor specific projects, issue cease-and-desist orders restraining the commission or continuance of acts, impose fines and penalties for violations of law, rules, and regulations, cite any person in direct contempt, and issue writs or alias writs of execution to enforce orders and rulings of the Regional Office.

HLURB Memorandum Circular No. 03, Series of 2016: The 2015 Guidelines on Time Completion

HLURB Memorandum Circular No. 03, Series of 2016, or the 2015 Guidelines on Time Completion (the “**HLURB 2015 Guidelines**”), provides that projects required by law to be registered with the DHSUD such as industrial, commercial, and residential subdivisions, residential or commercial condominiums, and similar projects, such as memorial parks, should be completed within one year from the date of the issuance of the License to Sell, or any other period fixed by the DHSUD (“**Time of Completion**”). Failure to comply with the Time of Completion will: (1) entitle buyers to exercise their rights under PD 957 and the Civil Code of the Philippines in addition to other rights and remedies under other laws; and (2) subject the owner or developer to administrative fines, sanctions, and penalties which may include the suspension of the License to Sell and issuance of a cease-and-desist order.

The DHSUD shall rely on the work program or program of development submitted during the application for a Certificate of Registration and License to Sell in determining the applicable Time of Completion of a project.

Residential subdivision projects are subject to different Times of Completion for the land and the housing components. The Time of Completion for land development, which includes land clearing and grubbing, road construction, installation of power and water distribution system, construction of drainage and sewerage systems, and other developments, will depend on the work program or program of development submitted by the owner or developer. All subdivision amenities and facilities such as clubhouse, playgrounds, sports facilities, and other infrastructure included in the approved project plans, brochures, prospectus, printed matters, letters, or any forms of advertisement shall be developed and completed within the period for the project’s land development. Meanwhile, the completion and delivery of any housing unit purchased shall be explicitly provided in the contract to sell or any purchase agreement, and absent any indication thereof, will not exceed one year from the date of purchase.

For condominium projects, all facilities and amenities included in the approved project plans, brochures, prospectus, printed matters, letters, or any forms of advertisement shall be completed in accordance with the work program or program of development of the project. The Time of Completion as stated in the License to Sell shall be binding and obligatory upon the owner or developer, but if it provides a shorter period in any form of advertisement, it shall be bound by the shorter period.

The HLURB 2015 Guidelines also provides that the Time of Completion which shall include the date, time, and year shall be indicated in the License to Sell of the project, which shall be binding and obligatory on the part of the owner or developer, unless a shorter period of completion or delivery is represented in any form of advertisement. The Time of Completion should be indicated in any advertisement of a project.

As a general rule, the Time of Completion is non-extendible, except in the following instances and upon the posting of a bond or security:

1. Existence of sub-soil conditions discoverable only after actual excavation and would require additional excavation time;
2. Occurrence of a fortuitous event completely independent of the will of the owner or developer that requires reconstruction or causes delays in the project, and renders its completion within the original approved period impossible in a normal manner;
3. Issuance of a lawful order of a court, other government agency, or local government unit that temporarily enjoins the development of the project, unless such issuance is caused by the fault, mistake, or negligence of the owner or developer.

If an owner or developer wishes to apply for additional time due to the foregoing grounds, it shall file a sworn application with the Regional Field Office of the DHSUD where the project is registered, including a proof of notice to all lot or unit buyers, a revised work program with computation of remaining cost of completion and other requirements, within 60 days from the discovery of the unfavorable sub-soil conditions, the occurrence of the fortuitous event, or from receipt of the order or issuance of a court or government body.

The owner or developer of a project that is not completed on time will be given a Notice of Alleged Reported Violation requiring it to explain under oath why no administrative fine and sanction and cease-

and-desist order should be imposed against it. Should the owner or developer fail to comply with the order or justify the non-completion of a project, an order imposing administrative fine and sanction shall be issued, and the owner or developer shall be required to submit additional documentations on the project.

Upon review of the submitted documents, a final order shall be issued requiring the completion of the project within such period as may be fixed by the DHSUD, and a performance bond shall be secured conditioned on this undertaking. In case of non-completion of the project within the approved Time of Completion, an administrative fine shall be imposed in accordance with the approved Schedule of Fines and other existing DHSUD guidelines, the License to Sell shall be suspended, and a cease-and-desist order shall be issued enjoining the owner or developer from further selling any lot, including any building or improvement thereon, or any unit in a project, from advertising the project and from collecting amortization payment, until the completion of the project and issuance of a Certificate of Completion.

DHSUD Department Order No. 2020-010, Series of 2020 and DHSUD Department Order No. 2021-009, Series of 2021

During the onset of the COVID-19 pandemic, the DHSUD issued Department Order No. 2020-010, Series of 2020 (“**D.O. 2020-010**”), which granted an additional one year to owners and developers of covered projects to respond to the circumstances brought about by the surge in COVID-19. The additional time was for the completion of projects affected by the stoppage of development during the community quarantine periods. The additional one year is reckoned from the end of the Time of Completion of the project as indicated in the License to Sell.

In 2021, the DHSUD issued Department Order No. 2021-009, Series of 2021, (“**D.O. 2021-009**”). Under this issuance, in addition to the one-year additional Time of Completion under D.O. 2020-010, all projects were granted a maximum of one-year additional time reckoned from the end of the Time of Completion of the project as indicated in the License to Sell or availed under D.O. 2020-010. To avail of the same, the project must be registered and licensed with the DHSUD, or the DHSUD and the owner or developer must apply for such additional time with the DHSUD.

Any owner or developer availing of additional Time of Completion must submit an application letter and a revised work program based on the requested extended period of completion and must file a performance bond supported by a notarized fact sheet duly signed by a licensed architect or engineer and indicating therein the remaining cost of the project. Upon approval, the Regional Office shall send a letter of approval to the owner or developer, stating therein such additional period of time granted.

Provided however, that all projects with Time of Completion ending before March 2020 granted or as provided on the License to Sell are not covered by the above issuances and are, thus, governed by the DHSUD 2015 Guidelines.

DHSUD Department Order No. 2023-007, Series of 2023

Department Order No. 2023-004, Series of 2023 authorizes the issuance of Certificates of Registration and Licenses to Sell for projects with certificates of title annotated with lien or encumbrance under Section 4, Rule 74 of the Rules of Court or Section 7 of Republic Act No. 26, provided that the rules and requirements are strictly complied with.

The applications for the issuance of the Certificate of Registration or License to Sell for projects with certificates of title annotated with lien or encumbrance under Section 4, Rule 74 of the Rules of Court may be accepted and/or granted provided that: (1) the application is filed within the two-year period from date of inscription of the annotation; and (2) the developer shall: (a) post an adequate surety bond to answer for any claim that might be charged against the property; and (b) execute and submit an undertaking under oath that he shall immediately cause the cancellation of the annotation after the lapse of the two-year period, there being no timely petition filed by any excluded heir or creditor. If the application is filed after the two-year period from date of inscription, a bond shall not be required, provided the developer submits proof of filing of appropriate petition for the cancellation of such annotation.

The application for the issuance of the Certificate of Registration or License to Sell for a project with a

reconstituted certificate of title annotated with lien or encumbrance under Republic Act No. 26 may only be accepted and/or granted provided that: (1) the two-year period has lapsed and no petition was filed by any person for the annotation of any right or interest not noted on the reconstituted title; (2) the developer shall submit proof of filing of the appropriate petition for the cancellation of the annotation; and (3) the developer shall post a bond.

B.P. 220: An Act Authorizing the Ministry of Human Settlements to Establish and Promulgate Different Levels of Standards and Technical Requirements for Economic and Socialized Housing Projects in Urban and Rural Areas from those Provided under Presidential Decrees Numbered Nine Hundred Fifty-Seven, Twelve Hundred Sixteen, Ten Hundred Ninety-Six, and Eleven Hundred Eighty-Five

B.P. 220 and its Implementing Rules and Regulations (“**BP 220 IRR**”) apply to the development of economic and socialized housing projects in urban and rural areas. Likewise, they apply to the development of either a house and lot or a house or lot only (“**Covered Project**”).

Under B.P. 220 and the BP 220 IRR, the Covered Project must be approved by the DHSUD or the local government unit, as the case may be, before it commences. The approval of the Preliminary Subdivision Development Plan is valid only for a period of 180 days from approval. Further, the development design and plans must undergo survey and evaluation conducted by the DHSUD. The BP 220 IRR adopted the rules set out by PD 957 and its IRR.

The BP 220 IRR also set forth the minimum design standards and technical guidelines which are different from those under PD 957 (The Subdivision and Condominium Buyers’ Protective Decree), Presidential Decree No. 1216 (Defining Open Space in Residential Subdivision), Presidential Decree No. 1096 (National Building Code of the Philippines), and Presidential Decree No. 1185 (Fire Code of the Philippines). However, possible variations of the guidelines and standards may be allowed by the DHSUD should the strict observance of such cause unnecessary hardship based on specific regional, cultural, and economic setting.

A developer who intends to sell the subdivision or condominium should register the project and obtain a License to Sell from the DHSUD. The notice on Application for Certificate of Registration must be published at the expense of the applicant, and a billboard notice must be posted on the project site until the issuance of the Licenses to Sell. Failure to publish the notice within two weeks from receipt of notice to publish by DHSUD will require the developer to re-file the application for the Certificate of Registration.

In addition to the requirements of registration and License to Sell, the BP 220 IRR also requires the submission of a performance bond and payment of prescribed fees. The BP 220 IRR also proscribes any sale within two weeks from the registration of the project.

The BP 220 IRR also provides for several obligations of the developer, such as the initiation of organization and registration of a homeowner’s association, and the donation of roads and open spaces found in the project to local government units of the area after their completion had been certified by the board.

Failure on the part of the developer to develop the project in accordance with the approved project plans within the time specified shall subject the developer to administrative sanctions and penalties. The above-mentioned Guidelines on Time of Completion is also applicable to the projects under B.P. 220. Further, the DHSUD mandates subdivision and condominium developers to submit a copy of the special/temporary permit from the Professional Regulation Commission and of the separate permit from the Department of Labor and Employment (“**DOLE**”) for foreign architects who signed on plans required under the IRR of PD 957 and B.P. 220.

Executive Order No. 71, Series of 1993

Under Executive Order No. 71, Series of 1993, cities and municipalities assume the powers of the DHSUD over the following:

- a) approval of preliminary as well as final subdivision schemes and development plans of all subdivisions, residential, commercial, industrial, and for other purposes;
- b) approval of preliminary as well as final subdivision schemes and development plans of all

- c) economic and socialized housing projects; evaluation and resolution of opposition against issuance of development permits for any of said projects; and
- d) monitoring the nature and progress of its approved land development projects to ensure their faithfulness to the approved plans and specifications.

Republic Act No. 7279: Urban Development and Housing Act of 1992

Republic Act No. 7279, as amended by Republic Act No. 10884, or the Urban Development and Housing Act of 1992, requires developers of proposed subdivision projects to develop an area for socialized housing equivalent to at least 15% of the total subdivision area or total subdivision project cost, and at least 5% of condominium area or project cost, at the option of the developer, within the same city or municipality whenever feasible, and in accordance with the standards set by the DHSUD and other existing laws. Alternatively, the developer may opt to buy socialized housing bonds issued by various accredited government agencies or enter into joint venture arrangements with other developers engaged in socialized housing development.

Republic Act No. 9646: Real Estate Service Act of the Philippines

Real estate dealers, brokers, and salesmen are also required to register with the DHSUD before they can sell lots or units in a registered subdivision or condominium project. Furthermore, no person shall practice or offer to practice real estate service in the Philippines unless he/she has satisfactorily passed the licensure examination given by the Professional Regulatory Board of Real Estate Service. Under Republic Act No. 9646, or the Real Estate Service Act, the real estate service practitioners required to take the licensure examination are:

1. Real estate consultants — duly registered and licensed natural persons who, for a professional fee, compensation, or other valuable consideration, offer or render professional advice and judgment on: (i) the acquisition, enhancement, preservation, utilization, or disposition of lands or improvements thereon; and (ii) the conception, planning, management, and development of real estate projects;
2. Real estate appraisers — duly registered and licensed natural persons who, for a professional fee, compensation, or other valuable consideration, perform or render, or offer to perform services in estimating and arriving at an opinion of or act as an expert on real estate values, such services of which shall be finally rendered by the preparation of the report in acceptable written form; or
3. Real estate brokers — duly registered and licensed natural persons who, for a professional fee, commission, or other valuable consideration, act as an agent of a party in a real estate transaction to offer, advertise, solicit, list, promote, mediate, negotiate, or effect the meeting of the minds on the sale, purchase, exchange, mortgage, lease, joint venture, or other similar transactions on real estate or any interest therein.

Republic Act No. 4726: The Condominium Act

Under The Condominium Act, the owner of a project shall, prior to the conveyance of any condominium therein, register a Declaration of Restrictions (“**Declaration**”) relating to such project, which restrictions shall constitute a lien upon each condominium unit in the project, and shall insure to and bind all condominium owners in the project. Such liens, unless otherwise provided, may be enforced by any condominium owner in the project or by the management body of such project. The Register of Deeds shall enter and annotate the Declaration upon the certificate of title covering the land included within the project.

The Declaration shall provide for the management of the project by anyone of the following management bodies: a condominium corporation, an association of the condominium owners, a board of governors elected by condominium owners, or a management agent elected by the owners or by the board named in the Declaration. The Declaration shall also provide for voting majorities, quorums, notices, meeting date, and other rules governing such body or bodies.

Further, any transfer or conveyance of any unit or an apartment, office or store, or other space shall include the transfer or conveyance of the undivided interests in the common areas, or, in a proper case, the membership or shareholdings in the condominium corporation. A condominium corporation shall not, during its existence, sell, exchange, lease, or otherwise dispose of the common areas owned or held by it in the condominium project unless authorized by the affirmative vote of a simple majority of the registered owners with prior notification to all registered owners. Further, the condominium corporation may expand or integrate the project with another upon the affirmative vote of a simple majority of the registered owners, subject only to the final approval of the DHSUD.

Real Estate Sales on Installments

Republic Act No. 6552: Maceda Law

The provisions of Republic Act No. 6552, or the Maceda Law, apply to all transactions or contracts involving the sale or financing of real estate on installment payments (including residential condominium units but excluding industrial and commercial lots).

Under the Maceda Law, where a buyer of real estate has paid at least two years of installments, the buyer is entitled to the following rights in case he/she defaults in the payment of succeeding installments:

1. To pay, without additional interest, the unpaid installments due within the total grace period earned by him/her, which is fixed at the rate of one month for every one year of installment payments made. However, the buyer may exercise this right only once every five years during the term of the contract and its extensions, if any.
2. If the contract is cancelled, the seller shall refund to the buyer the cash surrender value of the payments on the property equivalent to 50% of the total payments made, and in cases where five years of installments have been paid, an additional 5% every year (but with a total not to exceed 90% of the total payments). Provided, that the actual cancellation of the contract shall take place after 30 days from receipt by the buyer of the notice of cancellation or the demand for rescission of the contract by a notarial act and upon full payment of the cash surrender value to the buyer.

The computation of the total number of installment payments made includes down payments, deposits, or options on the contract.

In the event that the buyer has paid less than two years of installments, the seller shall give the buyer a grace period of not less than 60 days from the date the installment became due. If the buyer fails to pay the installments due at the expiration of the grace period, the seller may cancel the contract after 30 days from receipt by the buyer of the notice of cancellation or the demand for rescission of the contract by a notarial act.

Zoning and Land Use

Republic Act No. 7160: Local Government Code of the Philippines

A city or municipality may, through an ordinance passed by the *Sanggunian*, after conducting public hearings for the purpose, authorize the reclassification of agricultural lands, and provide for the manner of their utilization or disposition in the following cases: (i) when the land ceases to be economically feasible and sound for agriculture; or (ii) where the land shall have substantially greater economic value for residential, commercial, or industrial purposes, as determined by the *Sanggunian* concerned; provided that such reclassification shall be limited to the following percentage of total agricultural land area at the time of the passage of the ordinance:

1. For Highly Urbanized and Independent Component Cities, 15%;
2. For Component Cities and First to Third Class Municipalities, 10%;
3. For Fourth to Sixth Class Municipalities, 5%.

Zoning ordinances may also limit land use. Once enacted, a comprehensive land use plan approved by the relevant local government unit may restrict land use in accordance with such land use plan. Zoning

ordinances may also classify lands as commercial, industrial, residential, or agricultural. Lands may also be further re-classified based on a local government unit's future projection of needs.

Republic Act No. 6657: Comprehensive Agrarian Reform Law of 1988

Under Republic Act No. 6657, as amended, or the Comprehensive Agrarian Reform Law of 1988, and such other rules and regulations currently in effect in the Philippines, land classified for agricultural purposes as of or after June 15, 1988 cannot be converted to non-agricultural use without the prior approval of the DAR.

Republic Act No. 11231: Agricultural Free Patent Reform Act

Republic Act No. 11231, otherwise known as the Agricultural Free Patent Reform Act, removes restrictions imposed on the registration, acquisition, encumbrance, alienation, transfer, and conveyance of lands covered by free patents to allow the efficient and effective utilization of these lands. Under this law, agricultural public lands alienated or disposed in favor of qualified public land applicants under Section 44 of Commonwealth Act No. 141, as amended, shall not be subject to restrictions imposed under Sections 118, 119, and 121 thereof regarding acquisitions, encumbrances, conveyances, transfers, or dispositions. Agricultural free patent shall now be considered as title in fee simple and shall not be subject to any restriction on encumbrance or alienation.

This law has retroactive effect and any restriction regarding acquisitions, encumbrances, conveyances, transfers, or dispositions imposed on agricultural free patents issued under Section 44 of Commonwealth Act No. 141, as amended, before the effectivity of this law shall be removed and are immediately lifted.

Property Registration and Nationality Restrictions

Presidential Decree No. 1529: Property Registration Decree

The Philippines has adopted a system of land registration, which evidences land ownership that is binding on all persons. Once registered, title to registered land becomes indefeasible after one year from the date of entry of the decree of registration except with respect to claims noted on the certificate of title. Title to registered lands cannot be lost through adverse possession or prescription. Presidential Decree No. 1529, as amended, or the Property Registration Decree, codified the laws relative to land registration and is based on the generally accepted principles underlying the Torrens System.

After proper survey, application, publication, service of notice, and hearing, unregistered land may be brought under the system by virtue of judicial or administrative proceedings. In a judicial proceeding, the Regional Trial Court within whose jurisdiction the land is situated confirms title to the land. Persons opposing the registration may appeal the judgment to the Court of Appeals and ultimately to the Supreme Court within 15 days from receiving notice of judgment. Upon finality of judgment, the appropriate Register of Deeds may issue an Original Certificate of Title ("**OCT**"). The decree of registration may be annulled on the ground of actual fraud within one year from the date of entry of the decree of registration. Similarly, in an administrative proceeding, the land is granted to the applicant by the DENR's issuance of a patent. The patent becomes the basis for issuance of the OCT by the Register of Deeds. All land patents (*i.e.*, homestead, sales, and free patents) must be registered with the appropriate Register of Deeds since the conveyance of the title to the land covered thereby takes effect only upon such registration.

The act of registration shall be the operative act to convey or affect the land insofar as third persons are concerned, and in all cases under the said decree, the registration shall be made in the office of the Register of Deeds for the province or city where the land lies. Every conveyance, mortgage, lease, lien, attachment, order, judgment, instrument, or entry affecting registered land, if filed or entered in the office of the Register of Deeds for the province or city where the land to which it relates lies, shall be constructive notice to all persons from the time it is registered, filed, or entered in the records of the Register of Deeds.

All interests in registered land less than ownership (such as liens created by mortgages and leases) shall be registered by filing with the Register of Deeds the instrument which creates or transfers or claims such interests and by a brief memorandum thereof made by the Register of Deeds upon the

certificate of title and signed by him. A similar memorandum shall also be made on the owner's duplicate.

Any subsequent transfer or encumbrance of the land must be registered in the system in order to bind third persons. Subsequent registration and a new Transfer Certificate of Title in the name of the transferee will be granted upon presentation of certain documents and payment of fees and taxes.

All documents evidencing conveyances of subdivision and condominium units should also be registered with the Register of Deeds. Title to the subdivision or condominium unit must be delivered to the purchaser upon full payment of the sales price. In the event a mortgage over the lot or unit is outstanding at the time of the issuance of the title to the buyer, the owner or developer shall redeem the mortgage or the corresponding portion thereof within six months from such issuance in order that the title over any fully paid lot or unit may be secured and delivered to the buyer. To evidence ownership of condominium units, the Register of Deeds issues a Condominium Certificate of Title.

Article XII, Section 7 of the Constitution; Commonwealth Act No. 141

Article XII, Section 7 of the Constitution, in relation to Chapter 5 of the Commonwealth Act No. 141, states that no private land shall be transferred or conveyed except to citizens of the Philippines or to corporations or associations organized under the laws of the Philippines at least 60% of whose capital is owned by such citizens. While the Philippine Constitution prescribes nationality restrictions on land ownership, there is generally no prohibition against foreigners owning buildings and other permanent structures. However, pursuant to Republic Act No. 4726 (as amended), with respect to condominium developments, the ownership of condominium units where the common areas in the condominium project are co-owned by the owners of the separate units or owned by a corporation is limited to up to 40% foreign equity.

Republic Act No. 7042, as amended: Foreign Investments Act of 1991

Republic Act No. 7042, otherwise known as the Foreign Investments Act of 1991, as amended, and the Twelfth Regular Foreign Investment Negative List, provide that certain investment areas and economic activities are nationalized or partly nationalized, such that the operation and/or ownership thereof are wholly or partially reserved for Filipinos. Under these regulations, ownership of private lands and condominium units is partly nationalized with up to only 40% foreign equity.

Environmental Laws and Safety Standards

Environmental Impact Statement System

Development projects that are classified by law as environmentally critical or projects within statutorily defined environmentally critical areas are required to obtain an ECC prior to commencement. The DENR, through its regional offices or through the Environmental Management Bureau ("**EMB**"), determines whether a project is environmentally critical or located in an environmentally critical area. As a requisite for the issuance of an ECC, an environmentally critical project is required to submit an Environmental Impact Statement ("**EIS**") to the EMB while a project in an environmentally critical area is generally required to submit an Initial Environmental Examination ("**IEE**") to the proper DENR Regional Office. In the case of an environmentally critical project within an environmentally critical area, an EIS is required. The construction of major roads and bridges is considered an environmentally critical project for which an EIS and an ECC are mandatory. In determining the scope of the EIS System, two factors are considered: (i) the nature of the project and its potential to cause significant negative environmental impacts; and (ii) the sensitivity or vulnerability of environmental resources in the project area.

The EIS refers to both the document and the study of a project's environmental impact, including a discussion of the direct and indirect consequences of the project to human welfare and ecological as well as environmental integrity. The IEE refers to the document and the study describing the environmental impact, including mitigation and enhancement measures for projects in environmentally critical areas.

While an EIS or an IEE may vary from project to project, as a minimum, each contains all relevant information regarding the project's environmental effects. The entire process of organization, administration, and assessment of the effects of any project on the quality of the physical, biological,

and socio-economic environment as well as the design of appropriate preventive, mitigating, and enhancement measures is known as the EIS System. The EIS System successfully culminates in the issuance of an ECC. The issuance of an ECC is a government certification that the proposed project or undertaking will not cause a significant negative environmental impact that the proponent has complied with all the requirements of the EIS System, and that the proponent is committed to implement its approved Environmental Management Plan in the EIS or, if an IEE was required, that it shall comply with the mitigation measures provided therein.

Project proponents that prepare an EIS are required to establish an Environmental Guarantee Fund (“**EGF**”) when the ECC is issued for projects determined by the DENR to pose a significant public risk to life, health, property, and the environment or where the project requires rehabilitation or restoration. The EGF is intended to meet any damages caused by such a project as well as any rehabilitation and restoration measures. Project proponents that prepare an EIS are required to include a commitment to establish an Environmental Monitoring Fund (“**EMF**”) when an ECC is eventually issued. In any case, the establishment of an EMF must not be later than the initial construction phase of the project. The EMF shall be used to support the activities of a multi-partite monitoring team organized to monitor compliance with the ECC and applicable laws, rules, and regulations.

While a development project may not fall under the categories wherein an ECC is required, it is still required to obtain a Certificate of Non-Coverage (“**CNC**”) from the EMB or the DENR Regional Office. The applicant must submit a Project Description to the EMB, which will then evaluate whether or not an ECC is required for the project. If an ECC is not required, then the EMB will issue a CNC to be submitted to the DHSUD.

Aside from the EIS and IEE, engineering, geological, and geo-hazard assessments are also required for ECC applications covering subdivisions, housing, and other land development and infrastructure projects.

Presidential Decree No. 1096: National Building Code of the Philippines

Under the National Building Code of the Philippines, in order for a person or corporation to erect, construct, alter, repair, move, convert, or demolish any building or structure, a building permit must first be secured from the Building Official assigned at the place where the building work is to be done. A building permit is a written authorization granted by the building official to an applicant allowing him to proceed with the construction of a building after plans, specifications, and other pertinent documents required for the construction of the structure have been found to be in conformity with the National Building Code of the Philippines.

All buildings or structures as well as accessory facilities thereto shall conform in all respects to the principles of safe construction under the National Building Code of the Philippines and must be suited to the purpose for which they are designed. Buildings or structures and all parts thereof as well as all facilities found therein shall be maintained in safe, sanitary, and good working condition.

The land or site upon which will be constructed any building or structure, or any ancillary or auxiliary facility thereto, shall be sanitary, hygienic, or safe. In the case of sites or buildings intended for use as human habitation or abode, the same shall be at a safe distance, as determined by competent authorities, from streams or bodies of water and/or sources of air considered to be polluted; from a volcano or volcanic site and/or any other building considered to be a potential source of fire or explosion.

Aside from the building permit under the National Building Code of the Philippines, an applicant in specific instances may be required to secure a Height Clearance Permit from the Civil Aviation Authority of the Philippines.

Republic Act No. 9514: Fire Code of the Philippines

Republic Act No. 9514, otherwise known as the Fire Code of the Philippines, seeks to ensure public safety and promote economic development by preventing and suppressing all kinds of destructive fires. Compliance with the following requirements is expected from building owners, administrators, and occupants: inspection requirements, safety measures for hazardous materials, safety measures for hazardous operations or processes, provisions on fire safety construction, protective and warning

systems, and abatement of fire hazards. Non-compliance with the said requirements may result in the imposition of administrative fines and penalties.

Presidential Decree No. 1067: The Water Code of the Philippines

Presidential Decree No. 1067, otherwise known as The Water Code of the Philippines, requires a water permit for the utilization, exploitation, and appropriation of natural bodies of water, except in certain instances provided under the Water Code of the Philippines. Examples of the use of water include domestic, municipal, irrigation, power generation, fisheries, livestock raising, industrial, and recreational. Only citizens of the Philippines, of legal age, as well as juridical persons, who are duly qualified by law to exploit and develop water resources, may apply for water permits. Any person who desires to obtain a water permit shall file an application who shall make known said application to the public for any protests. The right to the use of water is deemed acquired as of the date of filing of the application for a water permit in case of approved permits, or as of the date of actual use in a case where no permit is required. All water permits granted shall be subject to conditions of beneficial use, adequate standards of design and construction, and such other terms and conditions as may be imposed. Such permits shall specify the maximum amount of water which may be diverted or withdrawn, the maximum rate of diversion or withdrawal, the time or times during the year when water may be diverted or withdrawn, the point or points of diversion or location of wells, the place of use, the purposes for which water may be used, and such other requirements as may be deemed desirable.

Appropriation of water without obtaining the necessary water permit when applicable may expose such entity to the imposition of penalties. Water permits may be also revoked after due notice and hearing on grounds of non-use; gross violation of the conditions imposed in the permit; unauthorized sale of water; willful failure or refusal to comply with rules and regulations or any lawful order; pollution, public nuisance, or acts detrimental to public health and safety; when the appropriator is found to be disqualified under the law to exploit and develop natural resources of the Philippines; when, in the case of irrigation, the land is converted to non-agricultural purposes; and other similar grounds.

Republic Act No. 9275: The Philippine Clean Water Act of 2004

The Clean Water Act of 2004 or Republic Act No. 9275 aims to protect the country's water bodies from pollution from land-based sources (*i.e.*, industries and commercial establishments, agriculture, and community or household activities) in the pursuit of economic growth in a manner consistent with the protection, preservation, and revival of the quality of the country's fresh, brackish, and marine waters. It provides for a comprehensive and integrated strategy to prevent and minimize pollution through a multi-sectoral and participatory approach involving all the stakeholders.

It requires owners or operators of facilities that discharge regulated effluents (*i.e.*, wastewater from commercial facilities) to secure a permit to discharge from the DENR. The discharge permit shall be the legal authorization granted by the DENR to discharge wastewater. The discharge permit shall specify among others, the quantity and quality of effluent that said facilities are allowed to discharge into a particular water body, with compliance schedule and monitoring requirement.

Republic Act No. 8749: The Philippine Clean Air Act of 1999

In pursuit of balancing development and environmental protection, the Clean Air Act of 1999 or Republic Act No. 8749 was enacted to create a holistic national program of air pollution management and encourage cooperation and self-regulation among citizens and industries through the application of market-based instruments. It sets air quality standards and emission limits for different industries and sources of air pollution. The DENR is granted authority to issue permits as it may determine necessary for the prevention and abatement of air pollution. Said permits cover emission limitations for the regulated air pollutants to help attain and maintain the ambient air quality standards. Non-compliance or violations of the law or its rules and regulations may expose the violator to the imposition of fines and penalties.

Republic Act No. 9003: The Ecological Solid Waste Management Act of 2000

Republic Act No. 9003, otherwise known as The Ecological Solid Waste Management Act of 2000, aims to ensure the protection of the public health and environment by adopting a systematic, comprehensive,

and ecological solid waste management program using environmentally-sound methods that maximize the utilization of valuable resources and encourage resource conservation and recovery. It also provides guidelines for avoidance and reduction of solid waste through various measures, such as mandatory segregation of solid wastes and recycling. The law extends both fiscal and non-fiscal incentives to those who have undertaken outstanding and innovative projects, technologies, processes, and techniques or activities in re-use, recycling, and reduction. Violations therewith may result in the imposition of fines and penalties.

Business Permits

Before any corporation may commence business operations within a locality, it must secure the requisite permits, clearances, and licenses from the relevant local government unit where it is situated. Usually, it is assumed that a corporation has complied with all of the permitting requirements of the local government unit if it is issued a business permit. These permits, clearances, and licenses must be renewed on an annual basis. Requirements and deadlines vary depending on the locality.

Failure to obtain the necessary business permit means that a corporation may not be allowed to operate its business within the relevant locality. The local government unit may impose fines and penalties for failure of an entity to register, which fines and penalties may vary depending on the locality. The local government unit may also shut down the existing operations of a business establishment until the permits, clearances, and licenses are obtained and the corresponding fees and penalties as assessed by the local government unit are settled.

Real Property Taxation

Republic Act No. 7160: Local Government Code of the Philippines

Real property taxes are payable annually or quarterly based on the property's assessed value. Assessed values are determined by applying the assessment levels (fixed by ordinances of the concerned *Sanggunian*) against the fair market values of real property. Under Republic Act No. 7160, as amended, or the Local Government Code of the Philippines, the assessed value of property and improvements varies depending on the location, use, and nature of the property. Land is ordinarily assessed at 20% to 50% of its fair market value; buildings may be assessed up to 80% of their fair market values and machinery may be assessed at 40% to 80% of its fair market value. Real property taxes may not exceed 2% of the assessed value in municipalities and cities within Metro Manila or in other chartered cities and 1% in all other areas. A province, city, or municipality within Metro Manila may also levy and collect an annual tax of 1% on the assessed value of real property which shall be in addition to the basic real property tax to accrue exclusively to the Special Education Fund of the local government unit where the property is located.

In the event there are unpaid real property taxes relating to real property, such taxes constitute a lien on the property which shall be superior to any other lien, mortgage, or encumbrance of any kind whatsoever, and shall be extinguished only upon payment of the delinquent taxes and penalties. Failure to pay the real property tax will result in the payment of interest at the rate of 2% per month on the unpaid amount or a fraction thereof, until the delinquent tax shall have been fully paid; provided, however, that in no case shall the total interest on the unpaid tax or portion thereof exceed 36 months.

Construction License

A regular contractor's license is required to be obtained from the Philippine Contractors Accreditation Board ("PCAB"). In applying for and granting such license, PCAB takes into consideration the applicant-contractor's qualifications and compliance with certain minimum requirements in the following criteria: (i) financial capacity; (ii) equipment capacity; (iii) experience of the firm; and (iv) experience of technical personnel. Philippine laws also require a contractor to secure construction permits and environmental clearances from appropriate government agencies prior to actually undertaking each project.

In the case of *Philippine Contractors Accreditation Board v. Manila Water Co., Inc.* (G.R. No. 217590, 10 March 2020), the Supreme Court held that foreigners can obtain regular licenses from the PCAB. It ruled that the construction industry is not one which the Constitution has reserved exclusively for Filipinos. Neither do the laws enacted by Congress show any indication that foreigners are proscribed

from entering into the same projects as Filipinos in the field of construction. “Private Domestic Construction Contracts” has also been removed from the Foreign Investments Negative List since 1998. This means that the restriction on foreign investments in private construction contracts was already lifted as early as 1998. Thus, the provision requiring foreigners to obtain a special license has been declared null and void, along with the provision limiting the regular license to construction firms at least 60% of which is owned by Filipinos. In light of this ruling, foreigners can now obtain regular licenses from the PCAB.

Referral to Arbitration

Executive Order No. 1008 vests the Construction Industry Arbitration Commission (“**CIAC**”) with original and exclusive jurisdiction over disputes arising from, or connected with, contracts entered into by parties involved in construction in the Philippines, whether the dispute arises before or after the completion of the contract, or after the abandonment or breach thereof. These disputes may involve government or private contracts. The jurisdiction of the CIAC may include, but is not limited to, violation of specifications for materials and workmanship, violation of the terms of agreement interpretation and/or application of contractual time and delays, maintenance and defects, payment, default of employer or contractor, and changes in contract cost.

CIAC may acquire jurisdiction in two ways, either by providing an arbitration clause in the contract between the parties, or by agreement of the parties to submit the dispute to the CIAC. Thus, the fact that the parties incorporated an arbitration clause in their contract is sufficient to vest the CIAC with jurisdiction over any construction controversy, notwithstanding any reference made to another arbitral body. CIAC’s jurisdiction over construction disputes is conferred by law, and thus, cannot be waived by mere agreement of the parties.

Liability of Engineers, Architects, and Contractors

Under Republic Act No. 386 or the Civil Code of the Philippines, as amended, the engineer or architect who drew up the plans and specifications for a building is liable for damages if, within 15 years from the completion of the structure, the same should collapse by reason of a defect in those plans and specifications, or due to defects in the ground. The contractor is likewise responsible for the damages if the edifice falls, within the same period, on account of construction defects or the use of materials of inferior quality, or due to any violation of the terms of the construction contract. If the engineer or architect supervises the construction, he shall be solidarily liable with the contractor. The acceptance of the building after completion does not imply waiver of any of the causes of action by reason of any of the aforementioned defects. The action arising therefrom must be brought within 10 years following the collapse of the building.

Board of Investments

The Board of Investments (“**BOI**”), an agency attached to the Department of Trade and Industry, was created under the Omnibus Investment Code of 1987. The BOI is responsible for the regulation and promotion of investments in the Philippines by promoting and assisting local and foreign investors to venture in desirable areas of business or economic activities.

Under the Corporate Recovery and Tax Incentives for Enterprises Law (“**CREATE Law**”), registered business enterprises specified in the Strategic Investment Priorities Plan (“**SIPP**”) enjoy tax and duty incentives to the extent of their approved registered project or activity under the SIPP. Generally, these incentives include the grant of income tax holiday (“**ITH**”), Special Corporate Income Tax (“**SCIT**”) rate, enhanced deductions, duty exemption on importation of capital equipment, raw materials, spare parts, or accessories, and value-added tax exemption on importation and value-added tax zero-rating on local purchases.

Depending on both the location and industry priority of the registered project or activity as determined in the SIPP, the ITH incentive may be granted for a period of four years to seven years followed by 5% SCIT or enhanced deductions for 10 years for export enterprises and for domestic market enterprises under the SIPP engaged in activities that are classified as “critical”; provided, that in no case shall the enhanced deductions be granted simultaneously with the SCIT.

The domestic market enterprise under the SIPP engaged in activities that are classified as “critical” shall refer to those enterprises belonging to industries identified by the National Economic and Development Authority to be crucial to national development.

For domestic market enterprises under the SIPP not classified as “critical”, ITH for four to seven years followed by SCIT or enhanced deductions for five years shall be granted; provided, that only domestic market enterprises, which have an investment capital of not less than ₱500,000,000.00 shall be eligible for the SCIT.

In addition to the incentives above, projects or activities of registered enterprises located in areas recovering from an armed conflict or a major disaster, as determined by the Office of the President, shall be entitled to two additional years of ITH.

Projects or activities registered prior to the effectivity of the CREATE Law or under the incentive system provided herein that shall, in the duration of their incentives, completely relocate from the National Capital Region, shall be entitled to three additional years of ITH; provided, that the additional incentive shall commence at the completion of the relocation of operations.

Anti-Money Laundering Act and its Amendments

Republic Act No. 9160, or the Anti-Money Laundering Act of 2001 (as amended, “**AMLA**”), criminalizes, among other acts, the act of making the proceeds or money from an unlawful activity appear to have originated from legitimate sources. To monitor or detect these transactions, covered institutions or persons are required to report (a) transactions that meet a minimum threshold amount; and (b) transactions considered suspicious, regardless of whether such meet the minimum threshold amount, to the Anti-Money Laundering Council (“**AMLC**”).

In 2013, the AMLA was amended by Republic Act No. 10365 to consider the failure to report covered or suspicious transactions a money laundering offense. The AMLA was further amended in 2021 by Republic Act No. 11521, which took effect on 30 January 2021, making real estate developers (“**REDS**”),

real estate brokers (“REBs”), covered persons. Thus, REDs and REBs are now required to report covered and suspicious transactions to the AMLC.

A covered transaction refers to a single cash transaction involving an amount in excess of ₱7,500,000.00 or its equivalent in any other currency.

While suspicious transactions are those: (i) with no underlying legal or trade obligation, purpose, or economic justification; (ii) client is not properly identified; (iii) the amount involved is not commensurate to the client’s financial capacity; (iv) perceived to be structured to avoid being reported or are related to any unlawful activity; (v) involves any circumstance that deviates from the client’s profile or past transactions with covered persons; and (vi) any transaction that is similar or analogous to any of the foregoing.

Under Section 42 of AMLC Regulatory Issuance (B) No. 1 Series of 2018, all covered and suspicious transactions must be reported to the AMLC within five days from occurrence. For suspicious transactions, “occurrence” is the date of determination of the suspicious nature of the transaction, which shall be made not more than 10 days from date of transaction.

To enable covered persons to file reports, Sec. 4, Rule 22 of the 2018 Implementing Rules and Regulations (“**2018 AMLA IRR**”) provides that all covered persons shall register with the AMLC’s electronic reporting system in accordance with the registration and reporting guidelines. Registration with the AMLC is online and free. The 2018 AMLA IRR further provides that for existing covered persons who were not yet registered shall not be cited for non-registration, provided that they shall apply for registration 30 working days from effectivity of the 2018 AMLA IRR. Newly covered persons shall apply for registration within 30 working days from the issuance of license by their respective government agencies. REDs and REBs must have registered with the AMLC by March 16, 2021.

Philippine Competition Act

Republic Act No. 10667, or the Philippine Competition Act (“**PCA**”), is the primary competition policy of the Philippines. It aims to enhance economic efficiency and promote free and fair competition in trade, industry, and all commercial economic activities.

The PCA prohibits and imposes sanctions on:

1. Anti-competitive agreements between or among competitors, which restrict competition as to price or other terms of trade, and those fixing price at an auction or in any form of bidding, including cover bidding, bid suppression, bid rotation and market allocation, and other analogous practices of bid manipulation; and those which have the object or effect of

substantially preventing, restricting, or lessening competition;

2. Practices which are regarded as abuse of dominant position, by engaging in conduct that would substantially prevent, restrict, or lessen competition; and
3. Merger or acquisitions which substantially prevent, restrict, or lessen competition in the relevant market or in the market for goods or services.

The PCA, as amended, provides for mandatory notification to the Philippine Competition Commission (“**PCC**”) where the value of such transaction exceeds ₱2,900,000,000.00, and where the size of the ultimate parent entity of either party exceeds ₱7,000,000,000.00 (“**Size of Party**”). Notification is also mandatory for joint venture transactions if either (a) the aggregate value of the assets that will be combined in the Philippines or contributed into the proposed joint venture exceeds ₱2,900,000,000.00; or (b) the gross revenues generated in the Philippines by the assets to be combined in the Philippines or contributed into the proposed joint venture exceed ₱2,900,000,000.00.

The PCC may conduct investigation of any merger that it has reasonable grounds to believe is likely to substantially prevent, restrict, or lessen competition in the market. There may be reasonable grounds to believe that a merger is likely to or has substantially prevent, restrict, or lessen competition in the market where there are preliminary indications that customers may be adversely affected, there are possibilities for foreclosure, a high degree of market concentration exists, either of the merger parties has high market shares, the merger takes place in a critical industry, among others.

Special Economic Zone

The Philippine Economic Zone Authority (“**PEZA**”) is the government agency that operates, administers, and manages designated special economic zones. It is tasked to promote investments, extend assistance, register, grant incentives to, and facilitate the business operations of investors in export-oriented manufacturing and service facilities inside PEZA special economic zones. The Special Economic Zone Act of 1995 provides for the legal framework and mechanisms for the creation, operation, administration, and coordination of special economic zones in the Philippines.

An Ecozone is a comprehensive land use plan generally created by proclamation of the President of the Philippines. These are areas earmarked by the government for development into balanced agricultural, industrial, commercial, and tourist/recreational regions.

An Ecozone may contain any or all of the following: industrial estates, export processing zones, free trade zones, and tourist/recreational centers. PEZA-registered enterprises located in an Ecozone are entitled to fiscal and non-fiscal incentives such as ITH and duty-free importation of equipment, machinery, and raw materials.

Enterprises offering IT services (such as call centers and other Business Process Outsourcing firms using electronic commerce) are entitled to fiscal and non-fiscal incentives if they are PEZA-registered located in a PEZA-registered IT Park, IT Building, or Ecozone. An IT Park is an area which has been developed into a complex capable of providing infrastructure and support facilities required by IT enterprises, as well as amenities required by professionals and workers involved in IT enterprises, or easy access to such amenities. An IT Building is an edifice, a portion or the whole of which, provides such infrastructure, facilities, and amenities.

PEZA requirements for the registration of an IT Park or IT Building vary depending on whether it is located within or outside Metro Manila. These PEZA requirements include clearances or certifications issued by the city or municipal legislative council, the DAR, the National Water Resources Board, and the DENR.

Pursuant to CREATE Law, for corporations / enterprises currently registered with investment promotion agencies have been given the following sunset provisions:

- a. Those enjoying the ITH are allowed to continue with the availment of the ITH for the remaining period of the ITH as specified in the terms and conditions of their registration;

- b. Those granted ITH but have not yet availed of the incentive may use the ITH for the period as specified in the terms and conditions of their registration;
- c. Those granted ITH and are entitled to the 5% tax on gross income earned incentive after the ITH shall be allowed to avail of the 5% tax on gross income provided the 5% tax shall be allowed for only 10 years; and
- d. Those availing of the 5% tax on gross income earned shall be allowed to continue availing the tax incentive at the rate of 5% for 10 years.

Data Privacy Law

Republic Act No. 10173: Data Privacy Act of 2012

The Data Privacy Act of 2012 was enacted to protect the fundamental human right to privacy while ensuring the free flow of information and regulating the collection, recording, organization, storage, updating or modification, retrieval, consultation, use, consolidation, blocking, erasure or destruction of personal data, all in compliance with international standards set for data protection through the National Privacy Commission. It applies to the processing of all types of information, whether that be of individuals or legal entities, except for publicly available information or those required for public functions. The law provides that when an entity collects personal data, the purpose and extent of processing of such information collected must be legitimate and declared specifically to the owner of the personal information (*i.e.*, whether such information will be used for marketing, data-sharing, and the like), and that consent must be obtained from the owner. This requirement applies to all data collectors and data processors. The term “data collectors” refers to a natural or juridical person who controls or supervises the person collecting, storing, or processing the relevant personal information, while the term “data processors” refers to a natural or juridical person who processes the information, whether or not outsourced by the data collector.

The processing of personal information shall be allowed, subject to compliance with the requirements of the Data Privacy Act of 2012 and other laws allowing disclosure of information to the public and adherence to the principles of transparency, legitimate purpose, and proportionality. Personal information that is collected must be retained only for a reasonable period of time. Such a reasonable period of time is the reasonable amount of time the collector needs the information for its purposes, and the collector must notify the owner of the personal information of that duration. The data collector must implement appropriate measures for the storage and protection of the collected personal information from accidental alteration, destruction, disclosure, and unlawful processing. Furthermore, the data controller must assign compliance officer(s) to ensure compliance with the provisions of the data privacy law and its accompanying implementing rules and regulations.

The data subject is entitled to the following: (1) right to be informed; (2) right to object; (3) right to access; (4) right to rectification; (5) right to erasure or blocking; (6) right to damages; (7) right to file a complaint; and (8) right to data portability.

Labor Laws

Republic Act No. 11199: Social Security Act of 2018

An employer or any person who uses the services of another person in business, trade, industry, or any undertaking is required under Republic Act No. 11199, or the Social Security Act of 2018, to ensure coverage of employees following procedures set out by the law and the Social Security System (“SSS”). Under the Social Security Act of 2018, an employer must deduct from its employees their monthly contributions in an amount corresponding to his salary, wage, compensation, or earnings during the month in accordance with the monthly salary credits, the schedule, and the rate of contributions as may be determined and fixed by the Social Security Commission, pay its share of contribution, and remit these to the SSS within a period set by law and/or SSS regulations. This enables the employees or their dependents to claim their pension, death benefits, permanent disability benefits, funeral benefits, sickness benefits, and maternity-leave benefits.

The failure of the employer to comply with any of its obligations may lead to the imposition of a fine of not less than ₱5,000.00 nor more than ₱20,000.00, or imprisonment for not less than six years and one day nor more than 12 years, or both, at the discretion of the court. The erring employer will also be liable

to the SSS for damages equivalent to the benefits to which the employee would have been entitled had his name been reported on time to the SSS and for the corresponding contributions and penalties thereon.

Republic Act No. 9679: Home Development Mutual Fund Law of 2009

Under Republic Act No. 9679, or the Home Development Mutual Fund Law of 2009, all employees who are covered by the SSS must also be registered with and covered by the Home Development Mutual Fund, more commonly referred to as the Pag-IBIG Fund. It is a national savings program as well as a fund providing affordable shelter financing to Filipino workers. Coverage under the Pag-IBIG Fund is compulsory for all SSS members and their employers. Under the law, an employer must deduct and withhold 2% of the employee's monthly compensation, up to a maximum of ₱5,000.00, and likewise make a counterpart contribution of 2% of the employee's monthly compensation, and remit the contributions to the Pag-IBIG Fund. Refusal of an employer to comply, without any lawful cause or with fraudulent intent, particularly with respect to registration of employees as well as collection and remittance of contributions, is punishable by a fine of not less but not more than twice the amount involved, or imprisonment of not more than six years, or both such fine and imprisonment. When the offender is a corporation, the penalty will be imposed upon the members of the governing board and the president or general manager, without prejudice to the prosecution of related offenses under the Revised Penal Code and other laws, revocation and denial of operating rights and privileges in the Philippines and deportation when the offender is a foreigner.

Republic Act No. 10606: the National Health Insurance Act of 2013; Republic Act No. 11223: Universal Health Care Act

Employers are likewise required to ensure enrollment of its employees in a National Health Insurance Program ("**NHIP**") administered by the Philippine Health Insurance Corporation ("**PhilHealth**"), a government corporation attached to the Department of Health tasked with ensuring sustainable, affordable, and progressive social health insurance pursuant to the provisions of Republic Act No. 10606, or the National Health Insurance Act of 2013.

On February 20, 2019, Republic Act No. 11223, or the Universal Health Care Act, was enacted, which amended certain provisions of the National Health Insurance Act of 2013. Under the said law, all Filipino citizens are now automatically enrolled into the National Health Program. However, membership is classified into two types: (i) direct contributors; and (ii) indirect contributors. Direct contributors refer to those who have the capacity to pay premiums, are gainfully employed and are bound by an employer-employee relationship, or are self-earning, professional practitioners, migrant workers, including their qualified dependents, and lifetime members. On the other hand, indirect contributors refer to all others not included as direct contributors, as well as their qualified dependents, whose premium shall be subsidized by the national government including those who are subsidized as a result of special laws. Every member is also granted immediate eligibility for health benefit package under the program.

Any employer who deliberately or through inexcusable negligence, fails or refuses to register employees regardless of their employment status, accurately and timely deduct contributions from the employee's compensation, or accurately and timely remit or submit the report of the same to PhilHealth shall be punished with a fine of ₱50,000.00 for every violation per affected employee, or imprisonment of not less than six months but not more than one year, or both such fine and imprisonment, at the discretion of the court.

Any employer who deducts, directly or indirectly, from the compensation of the covered employees or otherwise recover from them the employer's own contribution on behalf of such employees shall be punished with a fine of ₱5,000.00 multiplied by the total number of affected employees or imprisonment of not less than six (6) months but not more than one (1) year, or both such fine and imprisonment, at the discretion of the court.

DOLE Department Order No. 174-17

The Labor Code of the Philippines recognizes subcontracting arrangements, whereby a principal puts out or farms out with a contractor the performance or completion of a specific job, work, or service within a definite or predetermined period, regardless of whether such job, work, or service is to be performed

or completed within or outside the premises of the principal. Such arrangements involve a “trilateral relationship” among: (i) the principal who decides to farm out a job, work, or service to a contractor; (ii) the contractor who has the capacity to independently undertake the performance of the job, work, or service; and (iii) the contractual workers engaged by the contractor to accomplish the job, work, or service.

On March 16, 2017, the DOLE issued Department Order No. 174-17 or Rules Implementing Articles 106 to 109 of the Labor Code of the Philippines, as Amended (“**D.O. No. 174-17**”), under the principle that non-permissible forms of contracting and subcontracting arrangements undermine the constitutional and statutory right to security of tenure of workers. D.O. No. 174-17 empowered the Secretary of Labor and Employment to regulate contracting and subcontracting arrangement by absolutely prohibiting labor-only contracting, and restricting job contracting allowed under the provisions of the Labor Code of the Philippines.

Labor-only contracting, which is totally prohibited, refers to an arrangement where:

- a.
 - i. The contractor or subcontractor does not have substantial capital (refers to paid-up capital stock/shares or net worth of at least ₱5,000,000.00), or
 - ii. The contractor or subcontractor does not have investments in the form of tools, equipment, machineries, supervision, work premises, among others,

and

 - iii. The contractor’s or subcontractor’s employees recruited and placed are performing activities which are directly related to the main business operation of the principal;

or
- b. The contractor or subcontractor does not exercise the right to control over the performance of the work of the employee.

D.O. No. 174-17 expressly requires the registration of contractors with the Regional Office of the DOLE where it principally operates, without which, a presumption that the contractor is engaged in labor-only contracting arises.

D.O. No. 174-17 provides that in the event that there is a finding that the contractor or subcontractor is engaged in labor-only contracting and other illicit forms of employment arrangements, the principal shall be deemed the direct employer of the contractor’s or subcontractor’s employees. Further, in the event of violation of any provision of the Labor Code of the Philippines, including the failure to pay wages, there exists a solidary liability on the part of the principal and the contractor for purposes of enforcing the provisions of the Labor Code of the Philippines and other social legislations, to the extent of the work performed under the employment contract.

PHILIPPINE TAXATION

The following is a discussion of the material Philippine tax consequences of the acquisition, ownership and disposition of the Offer Shares, as well as declaration of dividends to holders thereof (“Preferred Share Transactions”). This general description does not purport to be a comprehensive description of the Philippine tax aspects of the Preferred Share Transactions and no information is provided regarding the tax aspects of acquiring, owning, holding or disposing of the Preferred Share Transactions under applicable tax laws of other applicable jurisdictions and the specific Philippine tax consequence in light of particular situations of acquiring, owning, holding and disposing of the Preferred Share Transactions in such other jurisdictions. This discussion is based upon laws, regulations, rulings, and income tax conventions (treaties) in effect at the date of this Prospectus.

The tax treatment of a holder of Offer Shares may vary depending upon such holder’s particular situation, and certain holders may be subject to special rules not discussed below. This summary does not purport to address all tax aspects that may be important to a holder of Offer Shares.

PROSPECTIVE PURCHASERS OF THE OFFER SHARES ARE URGED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE PARTICULAR TAX CONSEQUENCES OF THE PREFERRED SHARE TRANSACTIONS, INCLUDING THE APPLICABILITY AND EFFECT OF ANY LOCAL OR FOREIGN TAX LAWS.

As used in this section, the term “resident alien” refers to an individual whose residence is within the Philippines and who is not a citizen thereof; a “non-resident alien” is an individual whose residence is not within the Philippines and who is not a citizen of the Philippines. A non-resident alien who is actually within the Philippines for an aggregate period of more than 180 days during any calendar year is considered a “nonresident alien engaged in trade or business within the Philippines,” otherwise, such non-resident alien who is actually within the Philippines for an aggregate period of 180 days or less during any calendar year is considered a “nonresident alien individual not engaged in trade or business within the Philippines.” A “domestic corporation” is a corporation created or organized in the Philippines or under its laws. A “resident foreign corporation” is a foreign corporation or a non-domestic corporation engaged in trade or business within the Philippines; and a “nonresident foreign corporation” is a foreign corporation or non-domestic corporation not engaged in trade or business within the Philippines.

Philippine Taxation

On 1 January 2018, Republic Act No. 10963, otherwise known as the Tax Reform for Acceleration and Inclusion (“**TRAIN Law**”), took effect. The TRAIN Law amended certain provisions of the National Internal Revenue Code of 1997 (“**Tax Code**”) by simplifying income tax, estate and donor’s taxes, expanding the VAT base and introducing additional items that would be subject to excise taxes. It is the first of five packages of the Comprehensive Tax Reform Program (“**CTRP**”) of the Philippine government.

On 11 April 2021, Republic Act No. 11534, or the Corporate Recovery and Tax Incentives for Enterprises Act (or the “**CREATE Act**”) took effect. The CREATE Act is the second package of the tax reform program of the Philippine government which brought about numerous changes with respect to corporate income tax rates, capital gains tax on the sale of shares of stock not traded in the stock exchange, among others.

Below are some of the salient provisions of the CREATE Act:

- (i) Effective 1 July 2020, corporate income tax is reduced from 30% to 25% imposed upon the taxable income derived during each taxable year from all sources within and without the Philippines by every domestic corporation.⁶

⁶ The term 'corporation' shall include one person corporations, partnerships, no matter how created or organized, joint stock companies, joint accounts, associations, or insurance companies, but does not include general professional partnerships and a joint venture or consortium formed for the purpose of undertaking construction projects or engaging in petroleum, coal, geothermal and other energy operations pursuant to an operating consortium agreement under a service contract with the Government.

Corporations with a net taxable income not exceeding ₱5 million and with total assets not exceeding ₱100 million, excluding the land on which the particular business entity's office, plant and equipment are situated during the taxable year for which the tax is imposed, shall be taxed at 20%.

- (ii) Effective 1 July 2020, income tax at the rate of 25% of the taxable income derived from all sources within the Philippines is imposed on foreign corporations engaged in trade or business in the Philippines.
- (iii) Effective 1 January 2021, a foreign corporation not engaged in trade or business in the Philippines shall pay a tax equal to 25% of the gross income received during each taxable year from all sources within the Philippines.
- (iv) Effective 1 July 2020 until 30 June 2023, the minimum corporate income tax rate ("**MCIT**") is reduced from 2% to 1%. Any excess of the MCIT over the ordinary corporate income tax shall be carried forward and credited against the latter for the three immediately succeeding taxable years. Subject to certain conditions, the MCIT may be suspended for corporations which suffer losses on account of a prolonged labor dispute, or because of force majeure, or because of legitimate business reverses.
- (v) Effective 1 January 2022, regional operating headquarters shall be subject to the regular corporate income tax of 25%.
- (vi) The improperly accumulated earnings tax shall no longer be imposed on corporations upon the effectivity of the CREATE Act onwards.
- (vii) A final tax at the rate of 15% is imposed upon the net capital gains realized during the taxable year from the sale, barter, exchange or other disposition of shares of stock in a domestic corporation, except shares sold or disposed of through the stock exchange.

Tax on Sale, Exchange or Disposition of Shares

Shares Listed and Traded Through the PSE

Without prejudice to the application of an income tax treaty, every sale, barter, exchange, or other disposition of shares of stock listed and traded through the PSE, other than the sale by a dealer in securities, shall be subject to a stock transaction tax at the rate of 6/10 of 1% of the gross selling price or gross value in money of the shares of stock sold, bartered, exchanged or otherwise disposed which shall be paid by the seller or transferor. This stock transaction tax is classified as a percentage tax imposed in lieu of a capital gains tax. A value-added tax ("**VAT**") of 12% is imposed on the commission earned by the PSE-registered broker who facilitated the sale, barter, exchange or disposition through the PSE.

However, instead of the stock transaction tax, the tax on sale, exchange or disposition of shares not listed and trade through the PSE shall apply for the sale of a listed company' shares during a trading suspension since the sale thereof may be effected only outside the trading system of the PSE.

On 7 November 2012, the BIR issued Revenue Regulations No. 16-2012 which provides that the sale, barter, transfer, and/or assignment of shares of listed companies that fail to meet the minimum public ownership ("**MPO**") requirement after 31 December 2012 will be subject to capital gains tax and documentary stamp tax.

Pursuant to the PSE Amended Rule on Minimum Public Ownership, listed companies are required, at all times, to maintain a minimum percentage of listed securities held by the public of 10.0% or 20.0%, as applicable, of the listed companies' issued and outstanding shares, exclusive of any treasury shares. For purposes of determining compliance with the MPO, shares held by the following are generally considered "held by the public": (i) individuals (for as long as the shares held are not of a significant size (*i.e.*, less than 10.0%) and are non-strategic in nature); (ii) trading participants (for as long as the shares held are non-strategic in nature); (iii) investment and mutual funds; (iv) pension funds; (v) PCD nominees if this account constitutes a number of shareholders, none of which has

significant holdings (provided that if an owner of shares under the PCD Nominee has a shareholding that is 10% or more of the total issued and outstanding shares, then this shareholder is considered a principal stockholder); and (vi) social security funds.

Listed companies which become non-compliant with the MPO on or after 1 January 2013 will be suspended from trading for a period of not more than six (6) months and will automatically be delisted if it remains non-compliant with the MPO after the lapse of the suspension period. Suspended or delisted shares will not be traded on the exchange. In addition, sale of shares of listed companies that do not maintain the MPO is not considered publicly listed for taxation purposes and should, therefore, be subjected to capital gains tax and DST.

On 4 August 2020, the PSE issued Guidelines on MPO Requirement for Initial and Backdoor Listings, effective immediately. Under the guidelines, companies applying for initial listing through an initial public offering are required to have a minimum public offer size of 20% to 33% of its outstanding capital stock, as follows:

Market Capitalization	Minimum Public Offer
Not exceeding ₱500 million	33% or ₱50 million, whichever is higher
Over ₱500 million to ₱1 billion	25% or ₱100 million, whichever is higher
Over ₱1 billion	20% or ₱250 million, whichever is higher

A company listing through an initial public offering is required to maintain at least 20% public ownership level at all times, whether the listing is initial or through backdoor listing. For companies doing a backdoor listing, the 20% MPO requirement shall be reckoned from the actual issuance or transfer (as may be applicable) of the securities which triggered the application of the Backdoor Listing Rules or from actual transfer of the business in cases where the Backdoor Listing Rules are triggered by a substantial change in business.

In accordance with the SEC Memorandum Circular No. 13 Series of 2017 issued on 1 December 2017, the MPO requirement on initial public offerings is increased from 10.0% to 20.0%. For existing publicly listed companies, the existing rules and/or guidelines of an exchange on minimum public float duly approved by the SEC still apply. The PSE rule on MPO requires that listed companies shall, at all times, maintain a minimum percentage of listed securities held by the public of 10.0% or 20.0%, as applicable, of the listed companies' issued and outstanding shares, exclusive of any treasury shares. Pursuant to PSE Circular No. 2020-0076, the 20% MPO requirement will also apply to companies applying for listing by way of introduction and companies undertaking a backdoor listing. Notwithstanding such rules, however, real estate investment trusts must comply with the minimum public ownership requirement prescribed by the REIT Act of 2009.

Shares Not Listed and Traded Through the PSE

The net capital gains realized by an individual taxpayer or a domestic corporation (other than a dealer in securities) during each taxable year from the sale, exchange or disposition of shares of stock in a Philippine corporation listed at and effected outside the facilities of the PSE, are subject to capital gains tax at the final rate of 15% of the net capital gains realized during the taxable year. Net capital gains realized by resident and non-resident foreign corporations during each taxable year from the sale, exchange or disposition of shares of stock in a Philippine corporation listed at but effected outside of the facilities of the local stock exchange, are also subject to the final tax rate of 15% based on the net capital gains realized during the taxable year.

Further, if the fair market value of the shares of stock in a Philippine corporation sold outside the facilities of the PSE exceeds the consideration received, the amount by which the fair market value exceeds the selling price shall be deemed a gift that is subject to donor's tax; provided, however, that a sale, exchange or other transfer of property made in the ordinary course of business (a transaction which is bona fide, at arm's length, and free from any donative intent), will be considered as having been made for an adequate and full consideration in money or money's worth and will not be subject to donor's tax.

The foregoing, however, is without prejudice to the application of an income tax treaty providing for exemption from capital gains tax. In such a case, for a person to avail itself/himself of the exemption, an application for tax treaty relief has to be filed with and approved by the BIR.

No change in ownership of shares shall be recorded in the stock and transfer book of a Philippine corporation, unless a Certificate Authorizing Registration has been secured from the BIR, certifying that capital gains and documentary stamp taxes relating to the sale or transfer have been paid or, where applicable, tax treaty relief has been confirmed by the International Tax Affairs Division (“ITAD”) of the BIR in respect of the capital gains tax, or other conditions that should be met.

Tax on Dividends

Under the Tax Code, tax on cash or property dividends received from a domestic corporation shall vary depending on who the recipient is, as follows:

- a. citizens or residents of the Philippines (including resident aliens) – final tax rate of 10%;
- b. non-resident alien individuals engaged in trade or business within the Philippines – final tax rate of 20% based on the gross amount of dividends, subject to applicable preferential tax rates under tax treaties in force between the Philippines and the country of domicile of such non-resident alien individuals;
- c. non-resident alien individuals not engaged in trade or business within the Philippines - tax rate of 25%, subject to applicable preferential tax rates under tax treaties executed between the Philippines and the country of residence or domicile of such non-resident foreign individuals;
- d. domestic corporations and resident foreign corporations – exempt from tax;
- e. non-resident foreign corporations – final tax rate of 25%. The 25% final tax rate may be reduced to a lower rate of 15% if the tax sparing rule applies, which is when:
 - (i) the country where the non-resident foreign corporation is domiciled imposes no tax on foreign sourced dividends; or
 - (ii) the country of domicile of the non-resident foreign corporation allows a credit against the tax due from the nonresident foreign corporation on taxes deemed to have been paid in the Philippines; provided, effective July 1, 2020, the credit against tax due shall be equivalent to 15%, which represents the difference between the regular income tax on corporations and the 15% tax on dividends.

To avail itself of the 15% preferential tax rate, a non-resident foreign corporation must file an application with the BIR for a confirmatory ruling on its entitlement pursuant to Revenue Memorandum Order No. 46-20 (*Guidelines and Procedures for the Availment of the Reduced Rate of 15% on Intercompany Dividends Paid by a Domestic Corporation to a Non-resident Foreign Corporation Pursuant to Section 28 (B) (5) (b) of the Tax Code, as amended, dated 23 December 2020*). The application has to be filed with the BIR-ITAD within 90 days from “the remittance of the dividends or from the determination by the foreign tax authority of the deemed paid tax credit/non-imposition of tax because of the exemption, whichever is later.” A domestic corporation is not required to first secure a ruling from the BIR in order to use the tax sparing rate when it remits the dividends. However, it is required to determine if under the law of the country of domicile of the non-resident foreign corporation, such non-resident foreign corporation is granted the applicable “deemed paid” tax credit, or an exemption from income tax on such dividends.

If the regular tax rate is withheld by the Company instead of the reduced rates applicable under an income tax treaty, the non-resident foreign corporation may file a claim for refund from the BIR. However, because the refund process in the Philippines requires the filing of an administrative claim and the submission of supporting information, and may also involve the filing of a judicial appeal, it may be impractical to pursue such a refund. Taxes on dividends shall be withheld by the company declaring the dividends and remitted to the BIR in behalf of its shareholders.

The foregoing, however, is without prejudice to the applicable preferential tax rates under income tax treaties executed between the Philippines and the country of residence or domicile of a non-resident alien or non-resident foreign corporation. The BIR prescribed certain procedures for availment of tax treaty relief on dividends under Revenue Memorandum Order No. 14-2021 (*Streamlining the Procedures and Documents for the Availment of Treaty Benefits dated 31 March 2021*), as clarified by Revenue Memorandum Circular No. 77-21 (*Clarification on Certain Provisions of Revenue Memorandum Order No. 14-21, dated 15 June 2021*). Availment of the tax treaty relief benefits requires compliance with the following:

- (i) The non-resident income recipient should submit to the withholding agent or income payor the submitted Application Form for Treaty Purposes, Tax Residency Certificate duly issued by the foreign tax authority, and the relevant provision of the applicable tax treaty on whether to apply a reduced rate of, or exemption from, withholding at source on the income derived by the nonresident income recipient. The documents should be submitted to each withholding agent or income payor prior to the payment of income for the first time. The failure to provide the said documents when requested may lead to the withholding using the regular withholding rates without the tax treaty benefit rate.
- (ii) When the preferential tax rates have been applied by the withholding agent, it shall file with the ITAD a request for confirmation on the propriety of the withholding tax rates applied by the withholding agent. On the other hand, if the regular withholding rates have been imposed on the income, the non-resident income recipient shall file a tax treaty relief application (“**TTRA**”) with ITAD. In either case, each request for confirmation and TTRA shall be supported by the documentary requirements set out in the issuance.
- (iii) The request for confirmation shall be filed by the withholding agent at any time after the payment of withholding tax but shall in no case be later than the last day of the 4th month following the close of each taxable year. On the other hand, the filing of the TTRA may be filed by the nonresident income recipient at any time after the receipt of the income.

If the BIR determines that the withholding tax rate applied is lower than the rate that should have been applied on an item of income pursuant to the treaty, or that the non-resident taxpayer is not entitled to treaty benefits, it will issue a BIR ruling denying the request for confirmation or TTRA. Consequently, the withholding agent shall pay the deficiency tax plus penalties.

If the withholding tax rate applied is proper or higher than the rate that should have been applied, the BIR will issue a certificate confirming the non-resident income recipient’s entitlement to treaty benefits. In the latter case, the taxpayer may apply for a refund of excess withholding tax.

For property dividends, taxes such as VAT, DST and local transfer tax may be imposable depending on the type of property distributed as dividends. Stock dividends distributed pro rata to all holders of shares are not subject to Philippine income tax. A stock dividend constitutes income if it gives the shareholder an interest different from that which his former stock holdings represented. A stock dividend does not constitute income if the new shares confer no significantly different rights or interest than did the old. The sale, exchange or disposition of shares received as property dividends by the holder is subject to either capital gains tax and documentary stamp tax or stock transaction tax.

Documentary Stamp Tax (“DST”)

There shall be a DST imposed on every original issue of shares of stock by any association, company or corporation, in the amount of ₱2.00 on each ₱200.00, or fractional part thereof, of the par value, of such shares of stock issued. In case of an original issue of shares of stock without par value, the amount of the documentary stamp tax herein prescribed shall be based on the actual consideration for the issuance of such shares of stock.

The transfer of shares, other than by original issuance, by way of sale, agreement to sell, or memoranda of sale, or deliveries, or transfer of shares or certificates of stock in any association, company, or corporation shall be subject to DST of ₱1.50 on each ₱200.00, or fractional part thereof, of the par value of such stock sold or transferred. In the case of stock without par value, the amount of the DST herein

prescribed shall be equivalent to 50% of the DST paid upon the original issue of said stock.

The DST is payable by either the transferor or transferee of the shares. However, if the transferor enjoys exemption from the DST, the transferee who is not exempt shall be directly liable for the same.

The sale, barter or exchange of shares of stock listed and traded at the PSE is exempt from DST. In addition, the borrowing and lending of securities executed under the Securities Borrowing and Lending Program of a registered exchange, or in accordance with regulations prescribed by the appropriate regulatory authority, are likewise exempt from documentary stamp tax. However, the securities borrowing and lending agreement should be duly covered by a master securities borrowing and lending agreement acceptable to the appropriate regulatory authority, and should be duly registered and approved by the BIR.

Estate and Donor's Tax

Shares of a domestic corporation transferred by way of succession is subject to Philippine estate tax. Philippine donor's tax, on the other hand, shall apply if such shares are transferred by way of donation.

Estate tax is equivalent to 6% of the net estate of the deceased, while donor's tax is 6% of the total gifts in excess of ₱250,000.00 gift made during the calendar year by the donor.

When property (other than real property subject to capital gains tax) is transferred for less than an adequate and full consideration in money or money's worth, the amount by which the fair market value of the property exceeded the value of the consideration shall be deemed a gift or donation subject to donors' tax. However, a sale, exchange, or other transfer of property made in the ordinary course of business, or a transaction made at arm's length and free from donative intent, will be considered as made for an adequate and full consideration in money or money's worth, and will not be subject to donors' tax.

The estate or donor's taxes payable in the Philippines may be credited with the amount of any estate or donor's taxes imposed by the authority of a foreign country, subject to limitations on the amount to be credited, and the tax status of the donor. Based on present rules, the estate tax and the donor's tax, in respect of the Offer Shares, shall not be collected:

- (i) If the decedent at the time of his death or the donor at the time of the donation was a citizen and resident of a foreign country which at the time of his death or donation did not impose a transfer tax of any character, in respect of intangible personal property of citizens of the Philippines not residing in that foreign country; or
- (ii) if the laws of the foreign country of which the decedent or donor was a citizen and resident at the time of his death or donation allows a similar exemption from transfer or death taxes of every character or description in respect of intangible personal property owned by citizens of the Philippines not residing in that foreign country.

Tax on Transactions Outside the Philippines

Gain from sale of shares a domestic corporation is deemed derived entirely from Philippine sources, regardless of the place of sale and thus, subject to Philippine income tax. The transfer of such shares by donation or succession is subject to the donors' tax or estate tax.

Note that the tax treatment of a non-resident shareholder in jurisdictions outside the Philippines may vary depending on the tax laws applicable to such shareholder. This Prospectus does not discuss the tax considerations of non-resident shareholders under laws other than those of the Philippines.

THE PHILIPPINE STOCK MARKET

The information presented in this section has been extracted from publicly available documents which have not been prepared or independently verified by the Company, the Joint Lead Underwriters, or any of their respective subsidiaries, affiliates or advisors in connection with the offer and sale of the Preferred Shares.

Brief History

The Philippines initially had two stock exchanges, the Manila Stock Exchange, which was established on August 8, 1927, and the Makati Stock Exchange, which was established on May 27, 1963. Each exchange was self-regulating, governed by its respective Board of Governors elected annually by its members.

Several steps initiated by the Philippine government resulted in the unification of the two bourses into the PSE. The PSE was incorporated on December 23, 1992 by officers of both the Makati and the Manila Stock Exchanges. On March 4, 1994, the SEC granted the PSE its license to operate as a securities exchange and simultaneously canceled the licenses of the two exchanges. The PSE maintains a single, unified trading floor in Bonifacio Global City in Taguig City.

On June 29, 1998, the Philippine SEC granted the Self-Regulatory Organization status to the PSE, allowing it to impose rules as well as implement penalties on erring trading participants and listed companies. On August 3, 2001, the PSE completed its demutualization, converting from a non-stock member-governed institution into a stock corporation in compliance with the requirements of the SRC.

The PSE has an authorized capital stock of ₱120 million. As of September 30, 2023, the PSE has 85,598,798 issued and outstanding shares, of which 3,513,952 are treasury shares, resulting in 82,084,846 total shares outstanding. Each of the 184 member-brokers was granted 50,000 common shares of the new PSE at a par value of ₱1.00 per share. In addition, a trading right evidenced by a “Trading Participant Certificate” was immediately conferred on each member broker allowing the use of the PSE’s trading facilities. As a result of the demutualization, the composition of the PSE Board of Governors was changed, requiring the inclusion of seven brokers and eight non-brokers, one of whom is the President of the PSE.

On December 15, 2003, the PSE listed its shares by way of introduction at its own bourse as part of a series of reforms aimed at strengthening the Philippine securities industry.

Classified into financial, industrial, holding firms, property, services, and mining and oil sectors, companies are listed either on the PSE’s Main Board or the Small, Medium and Emerging Board. In 2013, the PSE issued Rules on Exchange Traded Funds (“**ETF**”) which provides for the listing of ETFs on an ETF Board separate from the PSE’s existing boards. Previously, the PSE allowed listing on the First Board, Second Board, or the SME Board. With the issuance by the PSE of Memorandum No. CN-No. 2013-0023 dated June 6, 2013, revisions to the PSE Listing Rules were made, among which changes are the removal of the Second Board listing and the requirement that lock-up rules be embodied in a company’s articles of incorporation of the Issuer. Each index represents the numerical average of the prices of component shares.

The PSE has a benchmark index, referred to as the PSEi (previously “**PHISIX**”), which as at the date thereof reflects the price movements of selected shares listed on the PSE, based on traded prices of shares from the various sectors. The PSE shifted from full market capitalization to free float market capitalization effective April 3, 2006, simultaneous with the migration to the free float index and the renaming of the PHISIX to PSEi. The PSEi is composed of shares of 30 selected companies listed on the PSE. On July 26, 2010, the PSE launched a new trading system, PSE Trade.

With the increasing calls for good corporate governance and the need to consistently provide full, fair, accurate and timely information, the PSE has adopted an online daily disclosure system to support the provision of material information coming from listed companies and enhance access to such reports by the investing public. In December 2013, the PSE replaced its online disclosure System with a new disclosure system, the PSE Electronic Disclosure Generation Technology (“**EDGE**”). The PSE EDGE, a new disclosure system co-developed with the Korea Exchange, went live. The PSE EDGE system

provided a dedicated portal for listed company disclosures and also offered a free-to download mobile application for easy access by investors, with a variety of features to (i) further standardize the disclosure reporting process of listed companies on the PSE, (ii) improve investors' disclosure searching and viewing experience, and (iii) enhance overall issuer transparency in the market.

The main index for PSE is the PSEi, which is a capitalization-weighted index composed of stocks representative of the Industrial, Properties, Services, Holding Firms, Financial and Mining & Oil Sectors of the PSE. It measures the relative changes in the free float-adjusted market capitalization of the 30 largest and most active common stocks listed at the PSE. The selection of companies in the PSEi is based on a specific set of public float, liquidity and market capitalization criteria. There are also six sector-based indices as well as a broader all shares index.

In June 2015, the PSE Trade system was replaced by PSE Trade XTS which utilizes NASDAQ's X-stream Technology. The PSEtrade XTS, which replaced the NSC trading platform provided by NYSE Euronext Technologies SAS, is equipped to handle large trading volumes. It is also capable of supporting the future requirements of the PSE should more products and services be introduced.

In November 2016, the Exchange received regulatory approvals to introduce new products in the stock market – the Dollar Denominated Securities and the Listing of PPP Companies.

In June 2018, the PSE received approval from the Philippine SEC to introduce short selling in the equities market.

The PSE launched its Corporate Governance Guidebook in November 2010 as another initiative of the PSE to promote good governance among listed companies. It is composed of ten guidelines embodying principles of good business practice and is based on internationally recognized corporate governance codes and best practices.

The firm undertaking shall also state the firm commitment to regularly report to the REIT the status of implementation of the Reinvestment Plan.

Trading

The PSE is a double auction market. Buyers and sellers are each represented by stockbrokers. To trade, bid or ask prices are posted on the PSE's electronic trading system. A buy (or sell) order that matches the lowest asked (or highest bid) price is automatically executed. Buy and sell orders received by one broker at the same price are crossed at the PSE at the indicated price. Payment of purchases of listed securities must be made by the buyer on or before the third trading day (the settlement date) after the trade.

Generally, equities trading on the PSE starts at 9:30 a.m. until 12:00 p.m., when there will be a one-hour lunch break. In the afternoon, trading resumes at 1:00 p.m. and ends at 3:00 p.m. Trading days are Monday to Friday, except legal holidays and days when the BSP clearing house is closed and such other days as may be declared by the Philippine SEC or the PSE, to be a non-trading day.

Minimum trading lots range from five to 1,000,000 shares depending on the price range and nature of the security traded. The minimum trading lot for a company's shares is 100 shares. Odd-sized lots are traded by brokers on a board specifically designed for odd-lot trading.

To maintain stability in the stock market, daily price swings are monitored and regulated through the enforcement of static and dynamic thresholds.

The upper static threshold enforces a 50%-, while the lower static threshold enforces a 30%-, trading band within which the price of a stock is allowed to move. When the price of a listed security moves up by 50% (price ceiling) or down by 30% (floor price) on a particular day (to be reckoned from the last closing price or the last adjusted closing price, whichever is higher), the price of that security is automatically frozen by the PSE, unless there is an official statement from the corporation or a government agency justifying such price fluctuation, in which case the affected security can still be traded but only at the frozen price. If the subject corporation fails to submit such explanation, a trading halt is imposed by the PSE on the listed security the following day. Resumption of trading shall be allowed only when the disclosure of the subject corporation is disseminated, subject again to the trading ban.

The dynamic threshold is the maximum allowable price difference between an update in the Last Traded Price ("LTP") of a given stock or group of stocks and its preceding LTP that is equal to a percentage set by the PSE, subject to the classification of a stock or a group of stocks based on its trade frequency. The Dynamic Threshold of a listed stock may vary from 10%, 15% and 20% depending on its trade frequency.

In cases where an order has been partially matched, only the portion of the order that will result in a breach of the trading threshold will be frozen. Where the order results in a breach of the trading threshold, the following procedures shall apply:

- In case the static threshold is breached, the PSE will accept the order, provided the price is within the allowable percentage price difference under the implementing guidelines of the revised trading rules (i.e., 50% of the previous day's reference or closing price, or the last adjusted closing price); otherwise, such order will be rejected. In cases where the order is accepted, the PSE will adjust the static threshold to 60%. All orders breaching the 60% static threshold will be rejected by the PSE.
- In case the dynamic threshold is breached, the PSE will accept the order if the price is within the allowable percentage price difference under the existing regulations (i.e., 20% for security cluster A and newly listed securities, 15% for security cluster B and 10% for security cluster C); otherwise, such order will be rejected by the PSE.

Non-Resident Transactions

When the purchase/sale of Philippine shares involves a non-resident, whether the transaction is effected in the domestic or foreign market, it will be the responsibility of the securities dealer/broker to register the transaction with the BSP. The local securities dealer/broker shall file with the BSP, within three business days from the transaction date, an application in the prescribed registration form. After compliance with other required undertakings, the BSP shall issue a Certificate of Registration. Under

BSP rules, all registered foreign investments in Philippine securities including profits and dividends, net of taxes and charges, may be repatriated.

Settlement

The Securities Clearing Corporation of the Philippines (“**SCCP**”) is a wholly owned subsidiary of the PSE and was organized primarily as a clearance and settlement agency for SCCP-eligible trades executed through the facilities of the PSE. SCCP started its commercial operations on January 3, 2000 received its permanent license to operate on January 17, 2002. It is responsible for:

- synchronizing the settlement of funds and the transfer of securities through delivery versus payment clearing and settlement of transactions of clearing members, who are also PSE trading participants;
- guaranteeing the settlement of trades in the event of a trading participant’s default through the implementation of its fails management system and administration of the Clearing and Trade Guaranty Fund; and
- performance of risk management and monitoring to ensure final and irrevocable settlement.

Previously, SCCP settled PSE trades on a three-day rolling settlement environment, which means that settlement of trades takes place three days after transaction date (T+3). The deadline for settlement of trades was 12:00 noon of T+3. However, since August 24, 2023, the SCCP has transitioned into and has implemented a T+2 settlement cycle. For a two-week transition period, which lasted until September 11, 2023, the settlement deadline was extended by one hour. Since September 12, 2023, transactions have been subject to the regular settlement deadline of 12:00 noon.

Securities sold should be in scripless form and lodged under the book entry system of the PDTC. Each PSE trading participant maintains a cash settlement account with one of the nine existing settlement banks of SCCP which are BDO Unibank, Inc., Rizal Commercial Banking Corporation, Metropolitan Bank & Trust Company, Deutsche Bank, Union Bank of the Philippines, The Hongkong and Shanghai Banking Corporation Limited, Maybank Philippines, Inc., Asia United Bank, and China Banking Corporation. Payment for securities bought should be in good, cleared funds and should be final and irrevocable. Settlement is presently on a broker level.

SCCP implemented its Central Clearing and Central Settlement (“**CCCS**”) system on May 29, 2006. CCCS employs multilateral netting, whereby the system automatically offsets “buy” and “sell” transactions on a per issue and a per flag basis to arrive at a net receipt or a net delivery security position for each clearing member. All cash debits and credits are also netted into a single net cash position for each clearing member. Novation of the original PSE trade contracts occurs, and SCCP stands between the original trading parties and becomes the central counterparty to each PSE-eligible trade cleared through it.

Scripless Trading

In 1995, the PDTC (formerly the Philippine Central Depository, Inc.), was organized to establish a central depository in the Philippines and introduce scripless or book-entry trading in the Philippines. On December 16, 1996, the PDTC was granted a provisional license by the Philippine SEC to act as a central securities depository.

All listed securities at the PSE have been converted into book-entry settlement in the PDTC. The depository service of the PDTC provides the infrastructure for lodgment (deposit) and upliftment (withdrawal) of securities, pledge of securities, securities lending and borrowing and corporate actions including shareholders’ meetings, dividend declarations and rights offerings. The PDTC also provides depository and settlement services for non-PSE trades of listed equity securities. For transactions on the PSE, the security element of the trade will be settled through the book-entry system, while the cash element will be settled through the current settlement banks, BDO, RCBC, Metrobank, DB, HSBC, Unionbank, and Maybank Philippines.

In order to benefit from the book-entry system, securities must be immobilized into the PDTC system through a process called lodgment. Lodgment is the process by which shareholders transfer legal title (but not beneficial title) over their shares in favor of the PCD Nominee Corporation (“**PCD Nominee**”), a corporation wholly owned by the PDTC, whose sole purpose is to act as nominee and legal title holder of all shares lodged in the PDTC. “Immobilization” is the process by which the warrant or share certificates of lodging holders are cancelled by the transfer agent and the corresponding transfer of beneficial ownership of the immobilized shares in the account of the PCD Nominee through the PDTC participant will be recorded in the issuing corporation’s registry. This trust arrangement between the participants and PDTC through the PCD Nominee is established by and explained in the PDTC Rules and Operating Procedures approved by the Philippine SEC. No consideration is paid for the transfer of legal title to the PCD Nominee. Once lodged, transfers of beneficial title of the securities are accomplished via book-entry settlement.

Under the current PDTC system, only participants (e.g. brokers and custodians) will be recognized by the PDTC as the beneficial owners of the lodged equity securities. Thus, each beneficial owner of shares, through his participant, will be the beneficial owner to the extent of the number of shares held by such participant in the records of the PCD Nominee. All lodgments, trades and uplifts on these shares will have to be coursed through a participant. Ownership and transfers of beneficial interests in the shares will be reflected, with respect to the participant’s aggregate holdings, in the PDTC system, and with respect to each beneficial owner’s holdings, in the records of the participants. Beneficial owners are thus advised that in order to exercise their rights as beneficial owners of the lodged shares, they must rely on their participant-brokers and/or participant-custodians.

Any beneficial owner of shares who wishes to trade his interests in the shares must course the trade through a participant. The participant can execute PSE trades and non-PSE trades of lodged equity securities through the PDTC system. All matched transactions in the PSE trading system will be fed through the SCCP, and into the PDTC system. Once it is determined on the settlement date (T+2) that there are adequate securities in the securities settlement account of the participant-seller and adequate cleared funds in the settlement bank account of the participant-buyer, the PSE trades are automatically settled in the SCCP Central Clearing and Central Settlement system, in accordance with the SCCP and PDTC Rules and Operating Procedures. Once settled, the beneficial ownership of the securities is transferred from the participant-seller to the participant-buyer without the physical transfer of stock certificates covering the traded securities.

If a shareholder wishes to withdraw his shareholdings from the PDTC system, the PDTC has a procedure of upliftment under which PCD Nominee will transfer back to the shareholder the legal title to the shares lodged, and the shares will no longer be eligible for settlement through the PCD system. The uplifting shareholder shall follow the Rules and Operating Procedures of the PDTC for the upliftment of the shares lodged under the name of the PCD Nominee. The transfer agent shall prepare and send a Registry Confirmation Advice to the PDTC covering the new number of shares lodged under the PCD Nominee. The expenses for upliftment are for the account of the uplifting shareholder.

The difference between the depository and the registry is in the recording of ownership of the shares in the issuing corporations’ books. In the depository set-up, shares are simply immobilized, wherein customers’ certificates are cancelled and a confirmation advice is issued in the name of PCD Nominee to confirm new balances of the shares lodged with the PDTC. Transfers among/between broker and/or custodian accounts, as the case may be, will only be made within the book-entry system of the PDTC. However, as far as the issuing corporation is concerned, the underlying certificates are in the PCD Nominee’s name. In the registry set-up, settlement and recording of ownership of traded securities will already be directly made in the corresponding issuing company’s transfer agents’ books or system. Likewise, recording will already be at the beneficiary level (whether it be a client or a registered custodian holding securities for its clients), thereby removing from the broker its current “de facto” custodianship role.

Amended Rule on Lodgment of Securities

On June 24, 2009, the PSE apprised all listed companies and market participants through Memorandum No. 2009-0320 that commencing on July 1, 2009, as a condition for the listing and trading of the securities of an applicant company, the applicant company shall electronically lodge its registered securities with the PDTC or any other entity duly authorized by the SEC, without any jumbo or mother

certificate in compliance with the requirements of Section 43 of the SRC. In compliance with the foregoing requirement, actual listing and trading of securities on the scheduled listing date shall take effect only after submission by the applicant company of the documentary requirements stated in Article III Part A of the Revised Listing Rules.

Pursuant to the said amendment, the PDTC issued an implementing procedure in support thereof to wit:

- For a new company to be listed at the PSE as of July 1, 2009, the usual procedure will be observed but the transfer agent of the company shall no longer issue a certificate to PCD Nominee but shall issue a Registry Confirmation Advice, which shall be the basis for the PDTC to credit the holdings of the depository participants on the listing date.
- On the other hand, for an existing listed company, the PDTC shall wait for the advice of the transfer agent that it is ready to accept surrender of PCD Nominee jumbo certificates and upon such advice the PDTC shall surrender all PCD Nominee jumbo certificates to the transfer agent for cancellation. The transfer agent shall issue a registry confirmation advice to PDTC evidencing the total number of shares registered in the name of PCD Nominee in the listed company's registry as of confirmation date.

Further, the PSE apprised all listed companies and market participants on May 21, 2010 through Memorandum No. 2010-0246 that the Amended Rule on Lodgement of Securities under Section 17 of Article III, Part A of the Revised Listing Rules of the PSE shall apply to all securities that are lodged with the PDTC or any other entity duly authorized by the PSE.

For listing applications, the amended rule on lodgment of securities is applicable to:

- The offer shares/securities of the applicant company in the case of an initial public offering;
- The shares/securities that are lodged with the PDTC, or any other entity duly authorized by the Philippine SEC in the case of a listing by way of introduction;
- New securities to be offered and applied for listing by an existing listed company; and
- Additional listing of securities of an existing listed company.

Pursuant to the said amendment, the PDTC issued an implementing procedure in support thereof, to wit:

“For new companies to be listed at the PSE as of July 1, 2009 the usual procedure will be observed but the Transfer Agent of the companies shall no longer issue a certificate to PCD Nominee but shall issue a Registry Confirmation Advice, which shall be the basis for the PDTC to credit the holdings of the Depository Participants on listing date.”

“On the other hand, for existing listed companies, the PDTC shall wait for the advice of the Transfer Agents that it is ready to accept surrender of PCNC jumbo certificates and upon such advice the PDTC shall surrender all PCNC jumbo certificates to the Transfer Agents for cancellation. The Transfer Agents shall issue a Registry Confirmation Advice to PCNC evidencing the total number of shares registered in the name of PCNC in the Company's registry as a confirmation date.”

Issuance of Stock Certificates for Certificated Shares

On or after the listing of the shares on the PSE, any beneficial owner of the shares may apply with PDTC through his broker or custodian-participant for a withdrawal from the book-entry system and return to the conventional paper-based settlement. If a shareholder wishes to withdraw his shareholdings from the PDTC system, the PDTC has a procedure of upliftment under which PCD Nominee will transfer back to the shareholder the legal title to the shares lodged. The uplifting shareholder shall follow the Rules and Operating Procedures of the PDTC for the uplifting of the shares lodged under the name of the PCD Nominee. The transfer agent shall prepare and send a registry confirmation advice to the PDTC covering the new number of shares lodged under PCD Nominee.

Upon the issuance of stock certificates for the shares in the name of the person applying for upliftment, such shares shall be deemed to be withdrawn from the PDTC book-entry settlement system, and trading on such shares will follow the normal process for settlement of certificated securities. The expenses for

upliftment of the shares into certificated securities will be charged to the person applying for upliftment. Pending completion of the upliftment process, the beneficial interest in the shares covered by the application for upliftment is frozen and no trading and book-entry settlement will be permitted until the relevant stock certificates in the name of the person applying for upliftment shall have been issued by the relevant company's transfer agent.

Amended Rule on Minimum Public Ownership

On December 1, 2017, the Philippine SEC issued SEC Memorandum Circular No. 13, Series of 2017 ("**SEC MC 13-2017**") on the rules and regulations on minimum public ownership ("**MPO**") on initial public offerings.

Under SEC MC 13-2017, companies filing a registration statement pursuant to Sections 8 and 12 of the SRC and with intention to list their shares for trading in an exchange shall apply for registration with a public float of at least 20% of the companies' issued and outstanding shares. It shall, at all times, maintain an MPO of at least 20%. If the MPO of the company falls below 20% at any time after registration, such company shall bring the public float to at least 20% within a maximum period of 12 months from the date of such fall.

The determination of whether shareholdings are considered public or non-public is based on: (a) the amount of shareholdings and its significance to the total outstanding shares; (b) the purpose of investment; and (c) the extent of involvement in the management of the company.

The shares held by the following are generally considered as held by the public: (i) individuals whose shares are not of significant size and which are non-strategic in nature; (ii) PSE trading participants (such as brokers) whose shareholdings are non-strategic in nature; (iii) investment funds and mutual funds; (iv) pension funds which hold shares in companies other than the employing company or its affiliates; (v) PCD Nominee provided that none of the beneficial owners of the shares has significant holdings (i.e., shareholdings by an owner of 10% or more are excluded and considered non-public); and (vi) Social Security funds.

If an investment in a listed company is meant to partake of sizable shares for the purpose of gaining substantial influence on how the company is being managed, then the shareholdings of such investor are considered non-public. Ownership of 10% or more of the total issued and outstanding shares of a listed company is considered significant holding and therefore non-public.

Listed companies which become non-compliant with the minimum public ownership requirement will be suspended from trading for a period of not more than six months and will be automatically delisted if it remains non-compliant with the said requirement after the lapse of the suspension period.

Notwithstanding the quarterly public ownership report requirement of the PSE, listed companies listed on the PSE are required to (a) establish and implement an internal policy and procedure to monitor its MPO levels on a continuous basis; and (b) immediately report to the Philippine SEC within the next business day if its MPO level falls below 20%. Listed companies are also required to submit to the Philippine SEC a time-bound business plan describing the steps that the company will take to bring the public float to at least 20% within a maximum period of 12 months from, within ten days from knowledge that its MPO has become deficient. Listed companies are also required to submit to the Philippine SEC a public ownership report and progress report on any such submitted business plan within 15 days after end of each month until such time that its MPO reaches the required level.

The MPO requirement also forms part of the requirement for the registration of securities. Non-compliance with these MPO requirements subject publicly listed companies to administrative sanctions, including suspension and revocation of their registration with the SEC.

On August 4, 2020, the PSE issued Memorandum CN-No. 2020-0076 (Guidelines on MPO Requirement for Initial and Backdoor Listings), effective immediately. Under the guidelines, companies applying for initial listing through an IPO are required to have a minimum public offer size of 20% to 33% of its outstanding capital stock, as follows:

Market Capitalization	Minimum Public Offer
Not exceeding ₱500 million	33% or ₱50 million, whichever is higher
Over ₱500 million to ₱1 billion	25% or ₱100 million, whichever is higher
Over ₱1 billion	20% or ₱250 million, whichever is higher

A company listing through an IPO is required to maintain at least 20% public ownership level at all times, whether the listing is initial or through backdoor listing. A company applying for listing by way of introduction is required to have at least 20% public float upon and after listing. For companies doing a backdoor listing, the 20% MPO requirement shall be reckoned from the actual issuance or transfer (as may be applicable) of the securities which triggered the application of the Backdoor Listing Rules or from actual transfer of the business in cases where the Backdoor Listing Rules are triggered by a substantial change in business.
